

# Lilee Systems, Ltd

Date: 3/13/2012

To Whom It May Concern:

TransAir™ PTC Family (1U, 2MCU, 4MCU, and 6MCU) final transmitter power amplifier stage is supplied by 12V power supply with the current consumption of 6A at maximum output power. The unit is digitally tuned to desired freq., and no tune up procedure is needed.

This includes all the models of 2MCU (PTC-3200 family)

Sincerely,

By:
