### FCC Request for Confidentiality

Date: November 4, 2010  
Nemko  
11696 Sorrento Valley Rd.  
San Diego CA, 92121  
USA

Subject: Confidentiality Request for FCC ID: XTE-ULPAP110

Pursuant to FCC 47 CRF 0.457(d) and 0.459 and IC RSP-100, Section 10, the applicant requests that a part of the subject FCC application be held confidential.

#### Type of Confidentiality Requested

Short Term

Operation Description/Theory of Operation  
Parts List & Placement/BOM  
Schematics

\*Note: \_\_\_\_\_

On-Ramp Wireless, Inc. has spent substantial effort in developing this product and it is one of the first of its kind in industry. Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

#### **Permanent Confidentiality:**

The applicant requests the exhibits listed above as permanently confidential be permanently withheld from public review due to materials that contain trade secrets and proprietary information not customarily released to the public.

#### **Short-Term Confidentiality:**

The applicant requests the exhibits selected above as short term confidential be withheld from public view for a period of 180 days from the date of the Grant of Equipment Authorization and prior to marketing. This is to avoid premature release of sensitive information prior to marketing or release of the product to the public.

Sincerely,  
By: Jason Wilson

<sup>1</sup> - The asterisked items (\*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."

<sup>2</sup> - Please refer to <http://atch.com/publicdocs/Memo-Short-Term-Vs-Standard-Confidentiality.pdf> for complete details.
