Professional Installation

The ULPAP110 and any associated equipment require professional installation to meet FCC/IC guidelines.

- A. Installation of the equipment must be controlled
- B. Installation must be performed by licensed professionals
- C. Installation of the equipment requires special training:
 - a. proper configuration of RF parameters
 - b. field strength measurements
 - c. transmit power calculations

The ULPAP110 is not sold through retail channels, nor is it available to the general public, or by mail order.

Application

The ULPAP110 is intended for Industrial and Commercial use ONLY. Use of this product contrary to its application is prohibited.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Wilson", with a large, stylized flourish at the end.

Jason Wilson
