## Professional Installation

The ULPAP110 and any associated equipment require professional installation to meet FCC/IC guidelines.

- A. Installation of the equipment must be controlled
- B. Installation must be performed by licensed professionals
- C. Installation of the equipment requires special training:
  - a. proper configuration of RF parameters
  - b. field strength measurements
  - c. transmit power calculations

The ULPAP110 is not sold through retail channels, nor is it available to the general public, or by mail order.

## Application

The ULPAP110 is intended for Industrial and Commercial use ONLY. Use of this product contrary to its application is prohibited.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jason Wilson'.
