Compliance Certification Services Inc.

2010/12/2

Dear Sir,

Since the power on/off button is only for EU version only. And the power on/off button is not for FCC version. Since our careless, we upload those EUT Photos.

According to the technical judgment for both of configuration, with or without the ON/OFF button has no different result in the end of test.

Please kindly help me to correct unsuitable EUT Photos.

Thank you.
