Trademark Information

LAUNCH is a registered trademark of LAUNCH TECH CO., LTD. (also called LAUNCH for short) in China and other countries. All other LAUNCH trademarks, service marks, domain names, logos, and company names referred to in this manual are either trademarks, registered trademarks, service marks, domain names, logos, company names of or are otherwise the property of LAUNCH or its affiliates. In countries where any of the LAUNCH trademarks, service marks, domain names, logos and company names are not registered, LAUNCH claims other rights associated with

unregistered trademarks, service marks, domain names, logos, and company names. Other products or company names referred to in this manual may be trademarks of their respective owners. You may not use any trademark, service mark, domain name, logo, or company name of LAUNCH or any third party without permission from the owner of the applicable trademark, service mark, domain name, logo, or company name. You may contact LAUNCH by visiting the website at www.cnlaunch.com, or writing to LAUNCH TECH. CO., LTD., Launch Industrial Park, North of Wuhe Avenue, Banxuegang, Bantian, Longgang, Shenzhen, Guangdong, P.R.China, to request written permission to use Materials on this manual for purposes or for all other questions relating to this manual.

Safety Precautions

Before using CRP-HD, please read the following safety information carefully.

- Never collide, throw, or punch CRP-HD, and avoid falling, extruding and blending it.
- Do not use CRP-HD in exceptionally cold or hot, dusty, damp or dry environments.
- To ensure a safe driving, please do not use CRP-HD while driving.
- Turn off CRP-HD before boarding any airplane.
- Do not dismantle CRP-HD by yourself. If there is any inquiry, please contact the dealer.
- Never place CRP-HD into apparatus with strong electromagnetic field.
- Keep CRP-HD far away from magnetic devices because its radiations may erase the data stored on CRP-HD.
- Store CRP-HD out of reach of children and do not allow children to use

it unsupervised.

- Please use the included battery and charger. Otherwise, explosion may happen.
- Do not disconnect power abruptly when CRP-HD is being formatted or in process of uploading or downloading. Or else it may result in program error.

Precautions on Operating Vehicle's ECU

- Do not disconnect battery or any wiring cables in the vehicle when the ignition switch is on, as could avoid damage to the sensors or the ECU.
- Do not place any magnetic objects near the ECU. Cut off the power supply to the ECU system before performing any welding operations on the vehicle.
- Use caution when performing any operations near the ECU or sensors. Ground yourself when you disassemble PROM, otherwise ECU and sensors can be damaged by static electricity.
- When reconnecting the ECU harness connector, be sure it is attached firmly, otherwise electronic elements, such as ICs inside the ECU, can be damaged.

1 Introduction

1.1 Product Profile

CRP-HD is a new Android-based vehicle trouble diagnostic tool specially developed for diesel and gas-fueled vehicle models of 12V&24V voltage. It inherits from LAUNCH's advanced diagnosing technology and is characterized by covering a wide range of vehicles, featuring powerful functions, and providing precise test result.

Using a 5 inch touch screen, it enables users to read/clear DTCs, record, save and playback data in live graphic display.

Meanwhile, taking advantage of mobile internet, it integrates more application and service, such as Update and IM (Instant Messaging) etc.

1.2 Features

- Diagnose:
 - Can diagnose the electronic control system of prevailing vehicle models covering Asian, European and American. Diagnosis functions includes: Read DTCs, Clear DTCs, Read Data Stream, Special Functions etc;
 - Specially designed for Android platform with clear and user-friendly interface;
- golo IM (Instant Messaging) application enables technicians to exchange repair experience and perform remote assistance more conveniently;
- Wi-Fi connection is supported;
- Web browser: Users can make online search and visit any website.
- Other Android-based applications can be customized to install or

uninstall.

- File Manager: Lets you manage files or downloaded files stored in SD card efficiently;
- Settings: To configure your personalized CRP-HD.

1.3 Technical Specifications

A. CRP-HD Display Tablet

Item	Description
Operating system	Android 4.2
Display	5 inch touch screen with 800 x 480 pixels
Connectivity	<ul style="list-style-type: none"> Wi-Fi (802.11 b/g/n) USB: 2.0
Camera	Rear-facing, 5.0 megapixel
Sensor	Gravity Accelerometer
Audio Input/Output	<ul style="list-style-type: none"> Microphone Speakers
Operating Temperature	0°C ~ 40°C (32 ~104°F)
Storage Temperature	-20°C ~ 70°C (-4 ~158°F)

2 Knowledge of CRP-HD

There are two main components to the CRP-HD system:

- CRP-HD Display Tablet -- the central processor and monitor for the system (For details, please refer to Chapter 2.1.)

Fig. 2-1

- Diagnostic Main Cable -- the cable used to connect CRP-HD to diagnostic connector for accessing vehicle data

Fig. 2-2

2.1 CRP-HD Display Tablet

Fig. 2-3 CRP-HD Display Tablet (front & rear view)

Table 2-1 formulates interfaces and indicators of CRP-HD display tablet:

No.	Name & Descriptions
1	Communication Indicator
2	Screen Lock/Power Button -- to turn the display tablet on/off with long press, or lock the screen with short press.
3	Power Indicator
4	Home Button
5	golo Button -- for quick access to IM (Instant Messaging) application
6	TF Card Slot -- to insert the TF card.
7	USB Port -- to connect the included power adaptor.
8	Audio Speaker
9	DB15 Connector - to connect the main diagnostic cable
10	Touch Screen
11	Selection Button
12	Confirm Button
13	Back Button

2.2 CRP-HD Accessory Checklist

Common accessories for each CRP-HD are same, but for different destinations, the accessories of CRP-HD (such as diagnostic software, diagnostic connectors) may vary. Please consult from the local agency or check the package list supplied with CRP-HD together.

Table 2-3 -- CRP-HD common accessories and descriptions

No.	Name	Qt.
1	CRP-HD Display Tablet	1
2	Diagnostic Main Cable	1
3	Power adaptor	1
4	Mircro USB Cable	1
5	Password Envelope	1
6	OBD II Diagnostic Connector	1
7	Non-16 pin Diagnostic Connector	(Optional)

3 Preparations

3.1 Charging CRP-HD

1. Remove the USB port cover from top of CRP-HD display tablet, and then connect one end of the included battery charger into it;
2. Connect the other end of the charger into AC outlet. If CRP-HD is being charged, the charging indicator illuminates red; Once the indicator turns green, it means that the charging is complete.

3.2 On Using Your Battery

- If the battery keeps unused for a long time or battery is completely discharged, it is normal in case it can not be turned on while being charged. Please charge it for a period and then turn it on.
- Please use the included charger to charge your CRP-HD. We assume no responsibility for damage or loss resulting from using other similar chargers other than the specified one.
- To prolong the service life of the battery, avoid charging too frequently.
- The charging time of battery varies with temperature condition and battery consumption status.
- While CRP-HD has low battery, a beep will sound. If it is very low, CRP-HD will be switched off automatically.

3.3 Power On / Power Off CRP-HD

3.3.1 Power on

Press the POWER key to turn on CRP-HD.

 **Note:** *If it is the first time you use CRP-HD or CRP-HD keeps idle for a*

long time, CRP-HD could fail to be turned on. It results from low battery. In this case, please recharge your CRP-HD for a while and try to turn it on.

3.3.2 Power off

1. Press the POWER key, an option menu will pop up on the screen.
2. Tap “Power off” to turn off CRP-HD.

3.4 Tips On Finger Operations

Actions	Results
Single-tap	To select an item or launch a program.
Double-tap	To zoom in so that the text on a webpage appears in a column that fits your device's screen.
Long press	Press and hold on the current interface or area until a contextual menu pops up on the screen, and then release it.
Slide	To jump to different pages.
Drag	Tap the desktop icon and drop it to other location.
Spread apart / Pinch together	To zoom in manually, place two fingers on the screen and then spread them apart. To zoom out, place two fingers apart on the screen and then pinch them together.

3.5 Lock & unlock the screen

Many screen lock modes are available on CRP-HD. Take the preset screen-lock mode as example for demonstration.

3.5.1 Lock the screen

- When CRP-HD is ON, press POWER key once to lock the screen;
- The system will lock the screen automatically after CRP-HD remains idle over the preset standby time.

3.5.2 Unlock the screen

Press POWER key to activate the screen, and then drag the lock to “Unlock” position.

 *Note: If you define as unlock using the pattern, you have to draw the right target pattern to unlock it.*

3.6 Screen Layout

Fig. 3-1

On-screen keys and status bar are as follows:

- 1 Tap  to configure the CRP-HD system settings and to view the general information about the Display Tablet.
- 2 Tap  to display a list of applications that are currently running. To open an application, tap it. To remove an application, swipe it upwards.
- 3 Tap  to jump to the Android System's home screen.
- 4 Tap  to return to the previous screen or exit the application.
- 5 Display the widget and application icons.
- 6 It shows: System time, Wi-Fi connection status and signal strength, battery status and other information. Tap the digital clock to open the notice panel.

3.7 Status Bar

For some common indicators, please see the following table.

Icons	Definitions	Icons	Definitions
	Positioning GPS		Charging
	Battery is fully charged		Low battery
	New mail		Preparing SD card
	Uploading		Downloading

	Connected to a PC		USB bound is activated
	Available Wi-Fi is detected		Connected to Wi-Fi

 **Notes:** When the  icon appears on the status bar, please charge it immediately.

3.8 Notification Bar

The notification bar is used to display some activities, such as new messages, to do list and running tasks. You can also open the notification bar to view the reminder or activity notification.

3.9 Customize Your Desktop

3.9.1 Move items on the desktop

1. Hold and press the item to be moved until it is shaken.
2. Drag and drop it to the target location.

 **Note:** Drag the icon to the margin of the screen and keep it still, the system will switch to other extension desktop, place it to the desired location.

3.9.2 Delete items from the desktop

1. Hold and press the item to be moved until it is shaken.
2. Drag it on the trash icon, then release it.

 **Warning:** Deleting an icon will uninstall the corresponding application. Please be careful to do so.

3.9.3 Change your wallpaper

1. Hold and press a blank area on the desktop, a pop-up wallpaper window will be shown on the screen.
2. Set different wallpaper as desired:
 - **Wallpapers:** Choose a still picture from gallery as wallpaper.
 - **Live Wallpapers:** Open it to choose one of the preset live wallpapers as wallpaper.
 - **Gallery:** Set the photos you captured as wallpaper.

3.9.4 Adjust brightness

 **Tips:** Reducing the brightness of the screen is helpful to save the power of CRP-HD.

1. On the main menu screen, tap Settings > Display > Brightness.
2. Drag the slider to adjust it as desired.

3.9.5 Set standby time

If no activities are made within the defined standby period, the screen will be locked automatically and the system enters sleep mode to save power.

1. On the main menu screen, tap Settings > Display > Sleep.
2. Choose the desired sleep time.

3.9.6 Set screen lock

This function is designed to lock the screen and buttons to avoid accidental operations while CRP-HD keeps unattended.

1. On the main menu screen, tap Settings > Security > Screen lock.
2. Choose the desired screen lock mode and follow the on-screen instructions to finish your setting.

3.9.7 Adjust the volume

This option enables you to adjust the volume of the ringtones, media player, alarm and notification.

1. On the main menu screen, tap Settings > Sound > Volume.
2. Drag the slider to adjust it.

 **Note:** Alternatively, you can also press the volume keys to control the volume of the current application.

3.10 Input Method

3.10.1 Activate / hide on-screen keyboard

By default, Android keyboard is available on CRP-HD.

- To input text, tap the input box and the on-screen keyboard will be activated automatically.
- After inputting, tap  to hide the keyboard.

 **Note:** In some applications, the on-screen keyboard may appear over some interfaces partially. Close it to view more so that you can judge what's next to do.

3.10.2 Edit text

Cut, copy and paste operations are supported.

1. Tap and hold the desired text area until a blue cursor appears.
2. Press and drag the cursor to highlight the text to be edited.
3. Tap SELECT ALL, CUT or COPY to perform the corresponding operations. To delete the selected text, tap the delete key on the keyboard.

3.10.3 Android input method

Fig. 3-6

-
- 1 To toggle between upper case and lower case.
-

2	To switch to numeric & symbol keyboard.
3	To enter a space.
4	> To delete the character before the cursor. > Long-press this key to delete all characters before the cursor.
5	Line feed.

 **Note:** For different input box, keyboard layout may vary. The figure shown as above is provided for reference purpose.

4 Wi-Fi Setting

 **Note:** Once Wi-Fi is set as ON, CRP-HD will consume more power. While Wi-Fi keeps unused, please set it off to save power.

1. On the main menu screen, tap Settings > Wi-Fi.
2. Tap or slide the Wi-Fi switch to ON, CRP-HD starts searching all available wireless LANs.
3. Choose the desired Wi-Fi,
 - If the network you chose is open, you can connect on it directly;
 - If the selected network is encrypted and secured with WPA, you have to input the right access password to connect.

Once it is connected successfully, tap the Wi-Fi from the list to view its name, link speed, security type, IP address etc.

When CRP-HD is in range of the WLAN, it will connect to the previously linked network automatically.

5 How to diagnose

5.1 Connections

5.1.1 Preparation

Normal testing conditions

- Turn on the ignition key.
- The rated voltage of CRP-HD is 12V and the voltage of vehicle battery may be 12V or 24V.
- The throttle should be in the closed position.
- Ignition timing and idle speed should be within specified range; water and transmission oil temperature are within normal working range (water temperature is 90~110°C and transmission oil temperature is 50~80°C).

Select testing connectors

If CRP-HD is testing vehicles equipped with universal OBD II 16 PIN diagnostic socket, please use the OBD II-16 diagnostic connector. (For vehicles with non-OBD II 16 PIN diagnostic socket, a non-16 PIN connector is required.)

5.1.2 DLC Location

The DLC (Data Link Connector or Diagnostic Link Connector) is the connector where diagnostic code readers interface with the vehicle's on-board computer. The DLC (Data Link Connector or Diagnostic Link Connector) is usually located 12 inches from the center of the instrument

panel (dash), under or around the driver's side for most vehicles. If Data Link Connector is not located under dashboard, a label should be there telling location. For some Asian and European vehicles, the DLC is located behind the ashtray and the ashtray must be removed to access the connector. If the DLC cannot be found, refer to the vehicle's service manual for the location.

Fig. 5-1

5.1.3 Vehicle Connection

The method used to connect the diagnostic connector to a vehicle's DLC depends on the vehicle's configuration as follows:

Follow the steps mentioned below to connect OBD II vehicle:

1. Locate vehicle's DLC socket.
2. Plug the DB15 connector of OBD II diagnostic connector into diagnostic

main cable, and then connect the other end of diagnostic connector to the vehicle's DLC socket.

3. Plug the other end of diagnostic main cable into the DB15 connector of CRP-HD, then tighten the captive screws.

For non-OBDII vehicle, proceed as follows:

1. Locate vehicle's DLC socket.
2. Select the corresponding non-16pin connector.
3. Plug the non-16pin end of diagnostic connector into the DLC socket, then connect the other end to the diagnostic main cable.
4. Connect the other end of the diagnostic main cable to DB15 connector of CRP-HD and then tighten the captive screws.

Fig. 5-2

5.2 Diagnosis Flowchart

For new users, please follow the operation chart shown in Fig. 5-3 to get familiar with and start using CRP-HD.

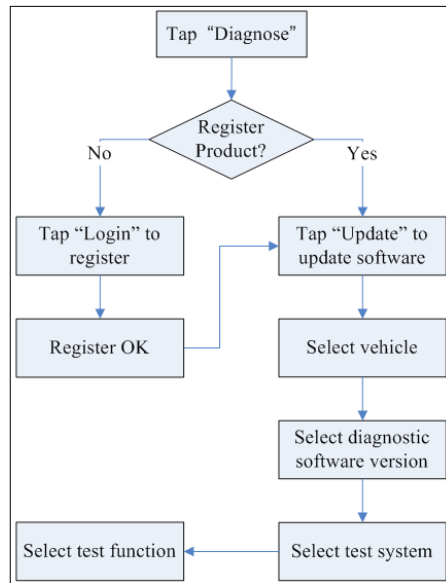

Fig. 5-3

5.3 Product Registration

5.3.1 Product registration

Make sure the diagnostic main cable is properly connected to CRP-HD before registering CRP-HD.

Tap the  icon on the desktop to launch the application, a disclaimer page will pop up on the window.

Tap “I have read it” to enter the main function menu of diagnosis software, as indicated in Fig. 5-4.

Fig. 5-4

1. Tap “Diagnostic” to enter the vehicle selection interface.

Fig. 5-5

2. Tap “Login” to enter the login interface:

Fig. 5-6

3. For new users, tap “Register” to enter registration screen:

Fig. 5-7

- Input the Verification Code (can be obtained from the included password envelope) in ID field and a valid email address. Tap "Register" to register your CRP-HD.

A confirmation dialog box will pop up on the screen, tap "Confirm" to finish your registration and it will automatically enter the main menu screen. See Fig. 5-8.

Note: Please fill in an official Email Address, which is mainly designed to retrieve your password in case you forgot the password in the future.

5.3.2 Main menu

Fig. 5-8

Name	Description
Diagnostic	Configures CRP-HD to operate as a diagnostic tool. Refer to " Chapter 5.3.3 Diagnostic software layout ".
My Data	To view and play back all diagnostic records.
Update	To download or update vehicle software.
Account	Enables you to manage your profile.
More	Accesses to Quick start guide, User's manual and apk update.
golo	A quick dial to IM (Instant Messaging) application. Before using it, you have to download and install golo IM plug-in.

5.3.3 Diagnostic software layout

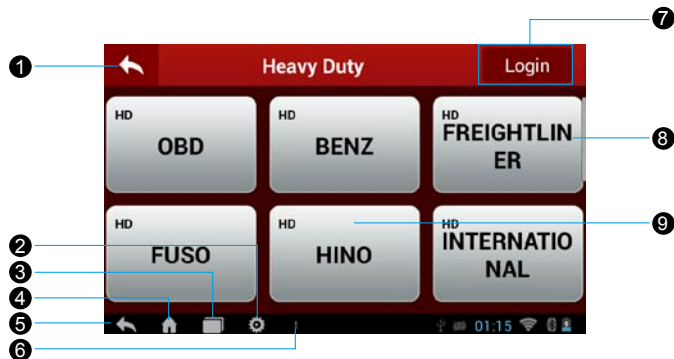

Fig. 5-9

- 1 Tap it to return to the main menu screen.
- 2 Tap to configure the CRP-HD system settings.
- 3 Tap to display a list of applications that are currently running. To open an application, tap it. To remove an application, swipe it upwards.
- 4 Tap to jump to the Android System's home screen.

- 5 Tap to return to the previous screen or exit the application.
- 6 Tap to find more applications.
- 7 Login button: Tap it to register your CRP-HD for the first time you launch this application.
- 8 Scroll bar: Slide it to scroll through the screen to display hidden parts.
- 9 Vehicle diagnosis software display area: Shows all available diagnostic software.

5.4 Update Diagnostic Software

Before diagnosing a vehicle, you are strongly recommended to update the corresponding vehicle diagnosis software.

In Fig. 5-8, tap “Update” to launch the update interface. See Fig. 5-10.

Fig. 5-10

By default, only those vehicle models in which new version is greater than local version are selected. To select all diagnostic software, check the box at the upper right corner. To deselect certain software, tap next to Version to uncheck the box. Tap  to start downloading.

Once it is complete, the system will decompress the software packages. Tap  to return to the main menu screen.

5.5 Start Diagnosing

Tap “Diagnostic” on the main menu screen to enter the vehicle selection page.

Fig. 5-11

Take OBD as an example to demonstrate how to diagnose a vehicle.

1. Tap the “OBD” logo, the system will prompt you to select the diagnostic software version. See Fig. 5-12.

Fig. 5-12

2. Tap the desired version to start initializing. After initializing is complete, the screen will display as below:

Fig. 5-13

3. Choose “System automatic search” (search all systems automatically) or “System manual selection” (select the desired system manually). Here we choose “System manual selection”. See Fig. 5-14.

Fig. 5-14

4. Tap the desired protocol to enter. See Fig. 5-15.

Fig. 5-15

5. Tap the vehicle system that you want to test or diagnose.

Fig. 5-16

 *Note: The diagnostic function menus vary with different vehicles.*

5.5.1 Read trouble code

Tap "Read diagnostic trouble code" in function menu, the screen will display as indicated in Fig. 5-17.

Fig. 5-17

DTC Help: Select the desired diagnostic trouble code, then tap this link to launch the browser and retrieve the definition of the selected DTCs.

Generally, there are three elements on DTC:

- Suspect Parameter Number (SPN) – Indicates what function on the ECU has failed.
- Failure Mode Indicator (FMI) – Indicates in what way the function failed.
- Occurrence (OC) – Indicates the occurrence times of the current DTC.

Whereas, if we choose [SAE J1708], the fault code may includes:

- Subsystem Identifier (SID) – Indicates what function on the ECU has failed.
- Failure Mode Indicator (FMI) – Indicates in what way the function failed.
- Occurrence (OC) – Indicates the occurrence times of the current DTC.

 To save the current data in text format.

 To save the current data in screenshot form.

Tap  to return to the function selection screen.

5.5.2 Clear trouble code

Tap “Clear diagnostic trouble code” in function menu, the system will automatically delete the currently existing trouble code.

 **Note:** *The trouble code will not disappear until the trouble was completely cleared.*

5.5.3 Data stream

Tap “Read data stream” in function menu, the screen displays as below:

Fig. 5-18

Choose the desired one to enter a screen similar to Fig. 5-19.

Fig. 5-19

Tap “General data stream” to enter the data stream item selection interface:

Fig. 5-20

To select certain data stream item, just tap , then the selected item will be activated and will change into .

To select all items of the current screen, tap , and then tap "OK" to enter data stream reading interface. See Fig. 5-21.

To deselect all items, tap .

Data Stream Name	Value	Unit
A/C High Pressure Fan Switch	Pressure	high, fan may be engaged
Accelerator Pedal 1 Low Idle Switch	Accelerator	pedal 1 in low idle condition
Accelerator Pedal	Error	

Fig. 5-21

: Tap it to select all data stream items.

After selecting, tap , the system will display data changes in waveform.

To start to record, tap ; To stop recording, tap .

On data stream reading page, the following operations can be done:

: Tap to select the desired data stream to be browsed, and then tap it to view the waveform.

: Tap to start recording diagnostic data for future playback and view. The saved file follows the naming rule: It begins with vehicle type, and then the record starting time and ends with .x431 (To differentiate between files, please configure the accurate system time). For details on playback operations, please refer to Chapter 5.6 "My Data".

: To save the current data in text format.

Tap  to return to the function selection screen.

5.6 My Data

This option is used to view the diagnostic report generated in process of vehicle diagnosis. Additionally, delete, send operations are also supported.

Tap "**My Data**" to enter the report review screen:

If user records the running parameters while reading data stream, .x431 file will be shown under "Diagnosis playback" tab.

In case the DTC result is saved as .txt file on Read Trouble Code page, .txt file will be displayed under "Report" tab.

Tap certain diagnostic report (.txt) to view it.

Tap certain diagnosis playback file (.x431) to view it.

On-Screen button definitions:

-  Delete: To delete the current report;
-  Character: To view the diagnostic report in character form.
-  Graph: To view the diagnostic report in waveform form.

5.7 Update

Refer to Chapter 5.3 for details.

5.8 Account

Use this item to manage your account information.

Fig. 5-22

5.8.1 Modify Personal Information

It enables you to modify your personal information.

5.8.2 Change Password

This option allows you to change your login password.

5.8.3 Forgot Password

This option lets you to retrieve your password via email.

5.8.4 Log Out

This option allows you to log out the system.

To log out the current user ID, tap “**Log Out**”.

5.9 More

This option includes: Quick Start Guide, User Manual, Disclaimer, APK Update, Connector firmware upgrade file download and About.

5.10 golo (Coming soon)

6 Others

6.1 Email

The function allows you to send and receive email. You can add POP3 or IMAP email account for some common web email service provider.

6.1.1 Configure an email account

 **Note:** Before sending or receiving email, you have to set up an email account. In addition, this function required a stable network connection.

1. On the desktop, click **Email**.
2. Input email address and password, click "Next" or "Manual setup".

 **Note:** If "Manual setup" is selected, please consult your email service provider for detailed parameter setting.

3. Choose the desired email account type to enter the incoming settings screen, tap "Next".
4. Follow the on-screen instructions to proceed until the system prompts you that the account setup has been finished.

6.1.2 Send an email

1. Enter main menu screen, and click **Email** to enter account screen. If several email accounts are configured, choose the desired one.
2. Tap  to enter new mail writing interface. Input the receiver address in "To" field and a title in "Subject" column, and then type in the content in "Compose" email area.

3. After inputting, click , you can perform any one of the followings: Attach file, add CC/BCC, save draft, discard and setting.

4. Tap  to send email.

6.1.3 View an email

1. Enter main menu screen, and click **Email** to enter account screen.
2. Tap the desired email account.
3. Tap the desired one to read:

 **Note:** For different networks, inbox may have some delays. Tap  on the upper right corner to refresh the email list.

7 FAQ

1. How to save power?

- Please turn off the screen while CRP-HD keeps idle.
- Set a shorter standby time.
- Decrease the brightness of the screen.
- If Wi-Fi connection is not required, please turn it off.
- Disable GPS function if GPS service is not in use.

2. What should I do in case I forgot the screen lock?

You can set screen lock as pattern or password. If you forgot the password, please consult your device provider or reset your device.

Warning: *Resetting may cause data loss. Before use, please make sure important data has been backed up.*

3. How to do if the system runs slowly?

In this case, please do the followings:

- > Check all running applications and stop the unused applications.
- > Check all installed applications and remove the unnecessary applications.

If all steps mentioned above are finished and the system still works slowly. Please try to close the system and reboot your CRP-HD.

4. How to format internal storage?

1. On the main menu screen, tap Settings.
2. Tap “Storage” > “Erase internal storage” to enter and confirm your operation.

Warning: *Doing so will erase all stored data and all running applications may encounter abnormal operations. To restore it, just restart your CRP-HD.*

5. Why some videos on the website can be not played?

It possibly results from:

1. The current browser does not support Flash playing;
2. Flash player does not support this video.

Try to use other browsers to watch it or install other Flash player.

6. The data and time of CRP-HD can not be set.

It is because Automatic date & time is set on your CRP-HD. Tap Settings > Date & time, deselect “Automatic date & time” and then set the date and time manually.

7. How to distinguish between PIN and password in screen lock?

The difference between PIN and password is as follows:

- > PIN: Generally, it is composed of 4~16 numbers.
- > Password: It may include: 4~16 numbers, characters and symbols.

FCC Caution.

§ 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Information to user.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) information:

This Automotive Diagnosis Computer meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: Creader professional HD (FCC ID:XUJCRPHDA) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use when properly close to the body is 0.1W/kg. This device was tested for typical body-support operations with the back of the device kept 0cm from the body.
