### Overview

This application is for the original approval of a 15.249 transceiver FCC ID: XVL123-SBV2, Model SBV2. The device operates in the 2.4 GHz band. The device is called Readiband. The Fatigue Science Readiband™ is an easy to use, wrist-worn device that measures day-to-day sleep quality, quantity and timing. The Readiband™ relies upon the measurement and analysis of wrist movements to detect and characterize sleep/wake periods.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

No short term confidentiality requested.

### Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
