

ELM-2127 RADAR TUNE-UP PROCEDURE:

See RF Transceiver Schematics 1092A249-002 (Shematic_diagram_20130)

1. Adjust U113 Attenuator to produce -1dBm at PCB RF filter.
2. This is the optimum operating point for the following medium power and final PA stages.
- 3. No other adjustment is possible, i.e. the final stages operate at full gain.**
