Re.: Tuning Procedure for CKW wireless module

FCC ID: XWS-CKW

To Whom It May Concern:

The Cleankeys CKW wireless module does not require any special tuning procedure during manufacturing. The module is self tuned by virtue of the high precision components used in the RF matching network. If the module is manufactured as specified by Cleankeys Inc. then it is guaranteed to operate within the requirements specified by the FCC.

Sincerely,

A handwritten signature in blue ink that reads "Steve Hole". The signature is stylized with a large, sweeping "S" and a cursive "Hole".

Steve Hole
Chief Technology Officer (CTO)
Cleankeys Inc.
