RE: PART 15 UNLICENSED MODULAR TRANSMITTER APPROVAL

To Whom It May Concern:

We, NXP Semiconductors, hereby requests for part 15 unlicensed modular transmitter approval of our device, described as follows:

Brand name: NXP
Model name: OM12000
Type number: OM12000
FCC ID: XXMOM12000

Modular Approval requirements that our device complies with:

- (a) The module must be a complete radio transmitter with its own reference oscillator, antenna, etc. The only connectors to the module, if any, are power supply and modulation/data inputs.
- (b) The module has its own RF shielding.
- (c) The module has buffered modulation/data input(s).
- (d) The module has its own power supply regulation.
- (e) The Antenna configuration of the module complies with the maximum radiated Transmitter output Power conjunction with RF Exposure.

The module must be tested in a stand-alone configuration, i.e., the module must not be inside another device during testing.
