FEDERAL COMMUNICATIONS COMMISSION  
Authorization and Evaluation Division  
7435 Oakland Mills Road  
Columbia, MD 21046

Dear Sir/Madam,

The DMR Mobile Radio with FCC ID: XYH-BRM300DV was designed to operate in the frequency bands 136~174MHz.

To aid equipment authorization in other countries which accept the United States FCC Grant for certification, RCA Communications Systems is requesting that the FCC lists the frequencies 136~174MHz, under FCC Rules Parts 22 and 90 on the FCC Grant.

RCA Communications Systems attests that the repeater will not be marketed to USA users with the frequency band which is not allowed by the rule part 22 and 90.

Per the FCC's KDB634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies.
