<b>FCC ID</b>	XZV15200
<b>Agent</b>	
<b>Approval Type</b>	Change in ID, original filing
<b>Equipment Class</b>	DTS Digital Transmission System
<b>Rule Part</b>	15C

**Overview**

This application is for an ID change to a radio module, in accordance with 47 Cfr 2.933. The device was originally granted to Jennic Ltd. of the United Kingdom on 3/28/2007 with a class II permissive change filed on 3/26/2009 under FCC ID: TYYOJN5139M0. Newport Electronics is now applying to manufacture the identical radio module under FCC ID: XZV15200. The design and packaging are identical to the original. Jennic has examined the design specifications submitted by Newport Electronics and attests that the devices are identical. The original test results remain applicable for the device.

**Recommendation**

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
