Model	TE6010
FCC ID	Y38TE6010
Agent	
Approval Type	Original
Equipment Class	DTS Digital Transmission System
Rule Part	15.247

Overview

The model TE6010 (Modlet IQ ESP) is designed to be an energy saving device, which is capable of remote switching appliances and measuring power consumption. The device works in tandem with a USB Receiver, which, together with a computer and software, forms a wireless network compliant with the ZigBee protocol. This network allows devices within range to communicate with the computer for purposes of monitoring and controlling appliances for energy savings.
