USB Letter Declaration

December 15, 2010

Federal Communications Commission
Authorization and Evaluation Division

Part 15B testing is not necessary for this device because the USB port is for power charging only,
no data transmission function.

End users are not able to connect to PC for data transmission via USB port.

Due to above reasons, this device didn't perform Part 15B testing, and FCC logo shouldn't be on
the label.

Your understanding will be highly appreciated.

Sincerely,

A handwritten signature in purple ink that reads "li jiuchao". The signature is written in a cursive, flowing style. Below the signature is a horizontal line.
