Congratulations on the purchase of the Mobi® Pure Sounds™ Audio Monitoring System, which brings you the latest in wireless technology. We recommend that you read the instructions carefully before use.

The Mobi® Pure Sounds™ enables you to transmit audio wirelessly, which is ideal for monitoring a babies, young children, pets, or the elderly.

Your Mobi® Pure Sounds™ uses a digital transmission to ensure clear and consistent audio transmission. The signal also passes easily through interior walls. However, buildings with metal frames or placing the transmitter near large metal objects may cause signal degradation. If reception is poor, moving the transmitter or receiver may fix this problem.

PACKAGE CONTENTS

1 x Receiver Unit (#70294R)

1 x Transmitter Unit (#70294T)

1 X Receiver Power Cord

1 X Transmitter Power Cord

1 x Rechargeable Battery Pack

NOTE: If you find any of the contents are missing or should you need to order replacement parts, please contact the manufacturer or visit www.getmobi.com.

FEATURES

- Transmission Range up to 600Ft
- 2.4 GHz Private Digital Transmission
- No installation needed—ready to use
- Compact design for easy portability
- Auto Mute with Voice Activation
- Low Battery and Out of Range Indicators
- Rechargeable Batteries Included for Receiver
- AC Adaptors included for Receiver and Transmitter

CONSUMER GUIDE TO PRODUCT SAFETY

Please read this instruction manual before using your Mobi® Pure Sounds™ system. When using electrical appliances, basic safety precautions should always be followed.

Please keep safe for future reference.

- This product is not intended to be used as a medical monitor and its use should not replace adult supervision.

- Periodically examine this product for damage to the cord, housing or other parts that may result in the risk of fire, electric shock or injury. Do not operate any product with a damaged cord or plug. If the Color Wireless Monitor malfunctions or is damaged in any manner please contact the manufacturer for examination and repair to avoid a hazard.
- Never use transmitter and receiver near water (i.e. bathtub, sink, etc.).
- The AC adaptors are not Toys.

- Always use transmitter and receiver where there is adequate ventilation. To prevent overheating, keep away from heat sources such as radiators, heat registers, stoves, or other appliances that produce heat.
- Use only a dry cotton cloth to keep the Camera and Monitor units free of dust. Do not use a dampened cloth, water, or liquid cleaner of any kind.

- Remove the battery from the Monitor during long periods of non-use as alkaline batteries can leak.
- Unplug the AC adaptors from the Monitor and Camera during periods of non-use. To disconnect from the power supply, grip the transformer and pull from the power socket. Never pull by the cord.
- Replace battery with the same equivalent type. Please dispose of old, defective batteries in an environmentally friendly manner in accordance with the relevant legislation.
- Only use the Monitoring System with the supplied power adaptors.

KNOWING YOUR RECEIVER

Button & LED Functions

1. Power On/Off Button
2. Volume Up (+)
3. Volume Down (-)
4. Sound Level Indicator (LED will flash indicating noise level increase)
5. Power On Indicator (battery charge indicator)
6. Link Indicator LED (LED will blink if connection is poor/lost)
7. Speaker

8. DC Jack (5V/600mA)
9. Belt Clip
10. Battery Compartment

KNOWING YOUR TRANSMITTER

11. Power On Indicator

12. DC Jack (5V/600mA)

INSTALLATION & SETUP

The Mobi® Pure Sounds™ transmitter is designed to be powered by either rechargeable batteries (provided) or the AC/DC adaptors.

Using AC/DC adaptor:

- Plug the connector of the AC adaptor into the DC Jack on the unit (fig. 7 pg. 6, fig. 12 pg. 7).
- Plug the power cord into an outlet.
- Press the Power On/Off Button (fig. 1 pg. 7) to turn ON your receiver.
- The power indicator lights will illuminate indicating units are ON (fig. 5 pg. 6, fig. 11 pg. 7)

Using Batteries:

- Remove the belt clip (fig.8 pg. 6) by sliding the clip downwards
- Remove the battery door on your receiver (fig. 9 pg. 6)
- Plug in the supplied battery pack into your battery compartment
- Return battery cover and belt clip to their original position

Note: Battery life is between 3-4 hours. When monitoring over long periods and, in particular, overnight, it is recommended to use AC adaptors for the receiver.

Warning:

1. Use on the supplied battery pack with your receiver.
2. Do not mix old and new batteries.
3. Do not mix alkaline, standard or rechargeable batteries
4. Remove the batteries during long periods of non-use.
5. Use only the AC adaptors supplied with the package.

Note: Transmitter only functions with AC Adaptor.

RECEIVER/TRANSMITTER OPERATION

Receiver Power ON/OFF

Press the Power On/Off Button (fig. 1 pg. 7) to turn on your receiver. The power indicator light (fig. 5 pg. 6) will turn red indicating receiver is ON.

Volume Adjustment

Press the volume up (fig. 2 pg. 6) or volume down (fig. 3 pg. 6) to adjust the volume to the desired level.

LED Indicator Lights

The Link Indicator Light (fig. 6 pg 6) will blink continuously if your connection to the receiver is poor or lost.

The Sound Indicator Light (fig. 4 pg 6) will blink when sound levels increase

Auto Mute/VOX Activation Setting

Your receiver is equipped with automatic mute setting. When sound levels reach a preset level the mute option will engage to conserve battery power, once the transmitter picks up noise the receiver will automatically begin transmitting.

Note: If link is lost between transmitter and receiver you must place both units near each other, turn them off then on and link will resume.

Transmitter Power ON/OFF

Your transmitter will automatically turn ON once you plug in the AC/DC adaptor (fig. 12 pg. 7)

Problem	Solution
Transmitter will not turn on	<ul style="list-style-type: none"> • Check AC/DC Connection. • Confirm power outlet is working properly. • Charge Battery Pack
Receiver will not turn on	<ul style="list-style-type: none"> • Check AC/DC Connection. • Confirm power outlet is working properly.
Battery does not recharge	<ul style="list-style-type: none"> • AC/DC adaptor has not been connected. • Check battery pack connection to receiver.
Connection is lost	<ul style="list-style-type: none"> • Confirm receiver and transmitter are ON. • Confirm AC/DC adaptor is connected properly. • Place transmitter and receiver near each other, turn off both units and turn the back on to resume link
