Declaration of similarity

With this document we declare that the devices named as SC14SPNODE SF, and SC14CVMDECT SF01, are similar on hardware design, meaning same components (make values and suppliers), similar on form factor and similar on RF settings and performance.

The difference in these devices is the application software per-programmed in the devices. SC14SPNODE SF is for non-voice supported applications, SC14CVMDECT SF01 is for voice supported applications.
