FCC ID: Y9MRA-450
Product Name: RA-450

FCC ID justification letter for expanded frequency range 407-470 MHz

The RA-450 radio was designed to operate in the frequency band 407-470 MHz
Radio Activity s.r.l. requests to have FCC authorized frequency band 407-470 MHz under FCC rule part 90 on the FCC Grant
Local, State and Federal organizations, Government bodies and their various departments, user organizations and military may use this device in the extended frequency range. This device will also be sold in non-US markets where use of the extended frequencies may be authorized.

The applicant will notify the end users in the US that:

1. The device is to be programmed only for frequencies allowed by the user's radio station authorization.
2. It is a violation of FCC rules if the device operates on the unauthorized frequencies.
3. This device uses extended frequencies and may contain functions that are not operational in US territories, except as noted in the filing.
