## FOREWORD

AIVINJN1-801B9B40-26BD-49A7-A3FA-A8D4A5112094

Thank you for purchasing a NISSAN vehicle.

This user's manual is for NissanConnect<sup>SM</sup> with Navigation and Services featuring Apple CarPlay and Android Auto offered in your NISSAN vehicle.

Operation instructions for the following systems are included in this manual.

- Audio
- Hands-Free Phone
- NissanConnect<sup>SM</sup> Services
- Navigation
- Voice recognition
- Information and settings viewable on NissanConnect<sup>SM</sup>

Please read this manual carefully to ensure safe operation of NissanConnect<sup>SM</sup> with Navigation and Services featuring Apple CarPlay and Android Auto.

- Because of possible specification changes and optional equipment, some sections of this manual may not apply to your vehicle.
- All information, specifications and illustrations in this manual are those in effect at the time of printing. NISSAN

reserves the right to change specifications or design at any time without notice.

- Do not remove this manual from the vehicle when selling this vehicle. The next user of the system may need the manual.

## HOW TO USE THIS MANUAL

AIVINJN1-D8FFB8FA-A072-42AA-8D6D-9FEA0AD9B6F9

This manual uses special words, symbols, icons and illustrations organized by function.

Please refer to the following items and familiarize yourself with them.

### FOR SAFE OPERATION

AIVINJN1-AF350C63-BA5E-4854-878D-6D8BA7D7E683

#### WARNING

This is used to indicate the presence of a hazard that could cause death or serious personal injury. To avoid or reduce the risk, the procedures must be followed precisely.

#### CAUTION

This is used to indicate the presence of a hazard that could cause minor or moderate personal injury or damage to your vehicle. To avoid or reduce the risk, the procedures must be followed carefully.

#### NOTE:

Indicates items that help you understand and maximize the performance of your vehicle. If ignored, they may lead to a malfunction or poor performance.

### REFERENCE SYMBOLS

AIVINJN1-A9CE57CF-4F6A-454A-9EF8-91C4E396725F

#### INFO:

This indicates information that is necessary for efficient use of your vehicle or accessories.

Reference page:

This indicates the title and page that you should refer to.

< >:

Indicates a button on the control panel.

[ ]:

This indicates a key/item displayed on the screen.

Voice Command:

This indicates an operation by voice command.

## SCREEN ILLUSTRATIONS

AIVINJN1-5F699818-FF71-447B-881E-832E1898366B

- The illustrations in this manual are representatives of various models and may not be identical with the design and specifications of your vehicle.
- Icons and menu items displayed on the screen may be abbreviated or omitted from the screen illustrations when appropriate. The omitted icons and menu items are described as dotted lines as illustrated.

## 1. Introduction

### SAFETY INFORMATION

AIVINJN1-E215E2CD-5877-46AC-B4EF-5D0B6683FCA9

This system is primarily designed to help you support pleasant driving as outlined in this manual. However, you, the driver, must use the system safely and properly. Information and the availability of services may not always be up to date. The system is not a substitute for safe, proper and legal driving.

Before using the system, please read the following safety information. Always use the system as outlined in this manual.

#### WARNING

- To operate the system, first park the vehicle in a safe location and set the parking brake. Operating the system while driving can distract the driver and may result in a serious accident.
- Exercise extreme caution at all times so full attention may be given to vehicle operation. If the system doesn't respond immediately, please be patient and keep your eyes on the road. Inattentive driving may lead to a crash resulting in serious injuries or death.

- Do not rely on route guidance alone. Always be sure that all driving maneuvers are legal and safe in order to avoid accidents.
- Do not disassemble or modify this system. If you do, it may result in accidents, fire or electrical shock.
- If you notice any foreign objects in the system hardware, spill liquid on the system or notice smoke or a smell coming from it, stop using the system immediately and it is recommended you contact a NISSAN dealer. Ignoring such conditions may lead to accidents, fire or electrical shock.

#### CAUTION

- Some jurisdictions may have laws limiting the use of video screens while driving. Use this system only where it is legal to do so.
- Extreme temperature conditions [below  $-4^{\circ}\text{F}$  ( $-20^{\circ}\text{C}$ ) and above  $158^{\circ}\text{F}$  ( $70^{\circ}\text{C}$ )] could affect the performance of the system.
- The display screen may break if it is hit with a hard or sharp object. If

the display screen breaks, do not touch it. Doing so could result in an injury.

#### NOTE:

Do not keep the system running with the engine or the hybrid system stopped. Doing so may discharge the vehicle battery (12V battery). When you use the system, always keep the engine or the hybrid system running.

# 1. Introduction

## REGULATORY INFORMATION

AIVINJN1-E1B76219-B24A-4588-A087-0985C8AA0D4C

### LASER PRODUCT

AIVINJN1-A15B0FE3-387A-46ED-8CD5-D088A6D68506

Complies with 21 CFR 1040.10 and 1040.11

Complies with 21 CFR Chapter 1, Subchapter J

### WARNING

Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

## BLUETOOTH® DEVICES

AIVINJN1-8A5804E2-2DFA-4FOE-BDCA-F37F6A4AFE93

### FCC Regulatory information (for U.S. and Canada)

AIVINJN1-21B88979-0E69-41AF-A95F-076B80E68827

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules and Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause unde-

1-4

sired operation.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Push and hold to quit the voice recognition session.

 "7. Voice recognition"

### ⑩ <TUNE-SCROLL/OK>:

When a menu screen is displayed, turn the dial to select items on the screen.

Push to confirm the selected item or setting.

The button can also be used for audio operations.

 "Audio operations" (page 3-11)

### ⑪ Touch screen display:

Various information and operation menus are displayed on the liquid crystal display. Touch keys and icons on the screen for operation.

 "Touch panel operation"  
(page 2-7)

Some of the information displayed on the vehicle information display are linked with the touch screen display.

### ⑫ < > (models without navigation system):

Push to display phone screen.

 "4. Hands-Free Phone"

### LIQUID CRYSTAL DISPLAY

AIVINJN1-572A4E1B-44A4-402D-B2E2-BBC1C2EE95EA

The display is a liquid crystal display and should be handled with care.

#### WARNING

**Never disassemble the display. Some parts utilize extremely high voltage. Touching them may result in serious personal injury.**

### Characteristics of liquid crystal display

AIVINJN1-606BA666-3A03-489B-86FB-CE0129A6D140

- If the temperature inside the vehicle is especially low, the display will stay relatively dim or the movement of the images may be slow. These conditions are normal. The display will function normally when the interior of the vehicle has warmed up.
- Some pixels in the display are darker or brighter than others. This condition is an inherent characteristic of liquid crystal displays, and it is not a malfunction.
- A remnant of the previous display image may remain on the screen. This screen burn is inherent in displays, and it is not a malfunction.
- The screen may become distorted by strong magnetic fields.

### Maintenance of display

AIVINJN1-A416EADC-8AF0-4234-BF0D-ADD3A5F4AF96

#### CAUTION

- **To clean the display screen, use a dry, soft cloth. If additional cleaning is necessary, use a small amount of neutral detergent with a soft cloth.**

## 2. Getting started

- Clean the display with the ignition switch in the OFF position. If the display is cleaned while the ignition switch is placed in the ON position, unintentional operation may occur.
- To clean the display, never use a rough cloth, alcohol, benzine, thinner or any kind of solvent or paper towel with a chemical cleaning agent. They will scratch or deteriorate the panel.
- Do not splash any liquid such as water or car fragrance on the display. Contact with liquid will cause the system to malfunction.

To clean the display screen, use a dry, soft cloth. If additional cleaning is necessary, use a small amount of neutral detergent with a soft cloth. Never spray the screen with water or detergent. Dampen the cloth first, then wipe the screen.

2-4

Condition:

### STEERING WHEEL SWITCHES

AIVINJN1-1B7/CDTC1-5D48-4964-8816-2649513B59D0

- ① < + 🔊 - >:  
Push + or - side of the switch to adjust the volume.
- ② < ➔ > (Back):  
Push to go back to the previous screen while operating the voice recognition system.  
Push and hold to end a voice recognition session.
- ③ < 🎤 > (TALK):  
Push to use the Voice Recognition system. Push and hold to end the Voice Recognition session.  
📖 "Giving voice commands" (page 7-2)  
When Apple CarPlay or Android Auto

is active, pushing and holding this button will start a Siri or Talk to Google voice control session.

- 📖 "Siri operation" (page 5-22)
- 📖 "Talk to Google operation" (page 5-24)

④ < 📞 >

Push to receive a phone call. Push to end an active call.

- 📖 "4. Hands-Free Phone"

#### INFO:

Steering wheel switches are mainly for the vehicle information display control and may not be able to operate the touch screen display depending on the conditions.

For other details of the vehicle information display, refer to the vehicle Owner's Manual.

#### USB (Universal Serial Bus) CONNECTION PORTS AND AUX (auxiliary) INPUT JACK

AIVINJN1-E9AC7D61-BCC2-48F6-87C6-43CA8EAE0D5D

## 2. Getting started

### WARNING

**Do not connect, disconnect or operate the USB device while driving. Doing so can be a distraction. If distracted you could lose control of your vehicle and cause an accident or serious injury.**

### CAUTION

- **Do not force the USB device into the USB connection port. Inserting the USB device tilted or up-side-down into the port may damage the port. Make sure that the USB device is connected correctly into the USB connection port.**
- **Do not grab the USB connection port cover (if so equipped) when pulling the USB device out of the port. This could damage the port and the cover.**
- **Do not leave the USB cable in a place where it can be pulled unintentionally. Pulling the cable may damage the port.**

The vehicle is equipped with a USB connection port and an AUX input jack. When connected, the in-vehicle audio system

can play audio contents from the compatible device.

USB connection port and the AUX input jack are located on the lower part of the instrument panel.

#### ① **USB connection port:**

Connect a compatible device to play media such as iPod®, iPhone®, Android device or a USB memory device.

#### ② **AUX (Auxiliary) input jack:**

Connect an audio player that accepts a 1/8 in (3.5 mm) TRS connector (such as an MP3 player etc.) to play music.

### INFO:

Refer to your AUX and USB device manufacturer's owner information regarding the proper use and care of the device.

## 2. Getting started

### STARTING SYSTEM

The system starts when the ignition switch is placed in the ACC or ON position.

### START-UP SCREEN

The start-up screen is displayed when the ignition switch is placed in the ACC or ON position.

#### Models with NissanConnect<sup>SM</sup> Services:

After an animated start-up screen is displayed, a message screen will be displayed. Touch [OK] after reading and agreeing to the message displayed on the screen. If you do not agree to the message, some of the functions on the system will be disabled.

#### Models with Intelligent Key:

When Intelligent key is detected in the vehicle, the system will start up by pushing <VOLUME/  $\odot$ >.

#### NOTE:

**Do not keep the system running with the engine or the hybrid system stopped. Doing so may discharge the vehicle battery (12V battery). When you use the system, always keep the engine or the hybrid system running.**

2-6

Condition:

### BASIC OPERATION

The system can be operated with the touch panel as well as switches on the control panel and the steering wheel.

This manual mainly describes the touch panel operation.

### SELECTING MENU FROM LAUNCH BAR

Models with navigation system

5GH0803X

#### Models without navigation system

Various system functions can be accessed by touching the items on the Launch Bar ① which is displayed on most of the main menu screens. (The Launch Bar does not appear on some screens such as scrolled map screen, keyboard screen, etc.)

Touch the item on the Launch Bar to display the corresponding screens.

The items on the Launch Bar differ according to which button on the control panel is pushed.

The following menus are available on the Launch Bar.

#### When pushing <MENU>:

Displayed items may vary depending on models and specifications.

## 2. Getting started

- [Phone]\*  
 "Phone" (page 4-4)
- [Info]  
 "Information menu" (page 5-2)
- [Audio]  
 "Audio operations" (page 3-11)
- [MENU]  
 Touching [MENU] on the Launch Bar will display the center page of the HOME MENU screen.
- [Map]  
 "Launch Bar" (page 6-3)
- [Connections]  
 "connections settings" (page 2-16)
- [Settings]  
 "System settings" (page 2-13)

### When pushing <AUDIO>:

Displayed items may vary depending on models and specifications.

 "Selecting audio source" (page 3-11)

### When pushing <MAP> (if so equipped):

 "Launch Bar" (page 6-3)

\*: The key will be replaced by [CarPlay] when the Apple CarPlay is active, and it will be replaced by [Android Auto] when Android Auto is active.

### TOUCH PANEL OPERATION

AIVINJN1-ATBF9C2C-4643-4997-9E6E-93C94C9905EC

The system can be controlled mainly by the touch panel operation.

The following operations are example of the touch panel operation.

The map operations are also available with touch panel operation.

 "Map operation" (page 6-4)

#### • Touch

5GH0766X

Select the item on the screen to select the item and to display the corresponding screen.

#### INFO:

Some keys function differently depending on whether the key is touched briefly or when it is being touched and held for a few seconds.

#### • Swipe/Flick

5GH0767X

Menu screen pages will skip to the next page when swiped/flicked horizontally.

Some of the list screens can also be scrolled by swiping/flicking on the screen vertically.

## 2. Getting started

### MAIN SCREEN OPERATIONS

AIVINJN1-B2704A91-F2DB-44B4-827A-4CF2E650F379

The following operations are generally available on the various screen.

- **Displaying previous screen**

- ① Touch [**↩**] to return to the screen displayed previously.

- **Horizontal scrolling**

- ① Touch [**<**] to scroll to the previous page.
- ② Touch [**>**] to scroll to the next page.
- ③ Indicates the position of the currently displayed page.

- **Vertical scrolling**

- ① Touch [**▲**] or [**▼**] to skip to the previous or next page. Touch [**▲**] or [**▼**] to scroll the message or list one item at a time.
- ② Indicates the total number of items in the list and the entry number of the selected item.

**i** **INFO:**

Depending on the screens, swiping on the touch screen can scroll pages vertically or horizontally.

## 2. Getting started

### • Scrolling list by selecting alphabet

- ① Touch a preferred location within the alphabetical list. The detailed alphabetical list will be shown. Touch to scroll the list items to the section that begins with the letter selected. The alphabet list can be scrolled by touching [ ^ ] or [ v ].

#### INFO:

When [A-Z] is displayed on the list screen, touching [A-Z] and turning <TUNE-SCROLL/OK> can also select an alphabet to scroll.

### ADJUSTING SETTINGS

Touch adjustment keys, such as [-]/[+], etc., to adjust each item. Each time a key is touched, the indicator moves along the bar.

For items with [ON] indicator, touch the menu item to turn on/off the setting. The indicator light will turn on when the setting is turned on.

### HOW TO INPUT LETTERS AND NUMBERS

Basic operations to enter letters and numbers are explained here. Character and number input screens vary depending on the conditions.

### Alphabet input screen

- ① Entered characters are displayed.
- ② Touch to delete the last character entered.  
Touch and hold to delete all the characters entered.
- ③ Touch to change the type of keyboard.  
[A-Z]: Displays alphabet input screen.  
[AEB]: Displays symbol input screen.  
[123]: Displays number input screen.
- ④ Touch to switch between the uppercase and lowercase character input screen.
- ⑤ Touch to enter a space.

## 2. Getting started

- ⑥ Touch to enter a character.
- ⑦ Touch to confirm the entry.

### Number input screen

- ① Entered characters are displayed.
- ② Touch to delete the last number entered.  
Touch and hold to delete all the characters entered.
- ③ Touch to enter a number.
- ④ Touch to confirm the entry.

### HOW TO VIEW AND OPERATE HOME MENU SCREEN

Push **<MENU>** to display the HOME MENU screen.

The HOME MENU consists of 3 pages which can display preferred Shortcuts and Widgets.

- ① Shortcut icons:  
Icons for frequently used menu items can be placed on the HOME MENU screens as Shortcuts.
- ② Widget:  
Useful information from primary menu functions can be displayed as Widgets. Depending on the contents of the Widget, keys may be available for operation of the menu function.

### Customizing HOME MENU screen

The HOME MENU screen can be personalized by selecting which Shortcuts and Widgets be display and where to place them on the screen.

1. Touch [Settings] on the Launch Bar.
2. Touch [Customize Home Menu].
3. Touch [Shortcuts] or [Widgets].
4. Drag the Shortcut or Widget icon ① to each page layout ②.

If a different Shortcut or a Widget is already located on the page layout ②, a message will be displayed. Touch [Yes] to replace the Shortcut/Widget. The page layout ② can be changed by dragging the icons.

Dragging an icon into the ③ can delete the current Shortcut or Widget

## 2. Getting started

to create a blank spot.

### Available Shortcut categories:

[Audio]

[Route] (if so equipped)

[Phone]

[Settings]

[Info]

[Voice Recognition]

[Destination] (if so equipped)

### Available Widgets:

[Phone]

[Audio]

[Turn by Turn] (if so equipped)

[Current Conditions] (if so equipped)

[5-Day Weather Forecast] (if so equipped)

[Hourly Forecast] (if so equipped)

[SXM Sports] (if so equipped)

[Clock]

### INFO:

- The categories of Shortcuts can be changed by touching [Category].
- Some widgets ([Audio], [Turn by Turn] and [Clock]) can be selected from 2 shortcut spot size and 4 shortcut spot size. All other Widgets require 4 short-

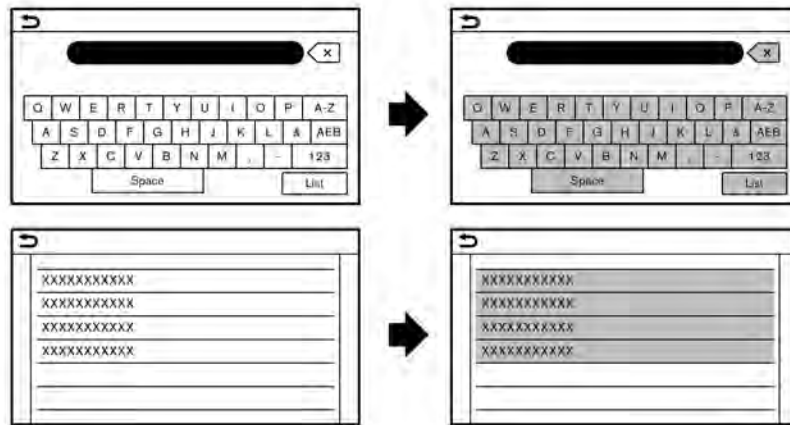

cuts spots to be displayed.

- HOME MENU screen can display up to eight Shortcuts on a page.
- Touching [Settings] on the Launch Bar and touching [Customize Home Menu] will also display the Customize Home Menu screen.
- Access to the SiriusXM Travel Link services requires a SiriusXM subscription.
  - 📖 "SiriusXM Travel Link" (page 5-16)

Example

5GH0804X

To ensure safe driving, some functions cannot be operated or have limited operation while the vehicle is in motion.

The on-screen text and keys for these restricted functions will be "grayed-out" or muted and cannot be selected while driving. In some cases, a screen message will appear indicating a restricted function.

Restricted functions while driving include:

- Character (letter and number) input screen
- Scrolling and viewing of certain list screens
- Displaying detailed information and selecting items on some information screens
- Adding/editing home location, address book entries and current route
- Registering cellular phones
- Connecting Bluetooth® devices for the first time
- Placing a call by dialing a number or selecting a phonebook entry
- Setting phone, NissanConnect<sup>SM</sup> Services (if so equipped), Bluetooth® functions, etc.

## 2. Getting started

- Various other settings

These functions will become available again when the vehicle is not in motion.

Some of the destination setting functions that become unavailable while driving can be operated by voice recognition system. Available voice commands may differ depending on the language setting.

### SYSTEM SETTINGS

AIVINJN1-811B4F8E-8E41-435D-BA44-76204FB0B276

The system settings can be changed for personal convenience.

### SETTINGS MENU

AIVINJN1-12A7E9D2-EBD5-4390-9640-2629B7A307F5

Touch [Settings] on the Launch Bar and touch a setting item you wish to adjust.

Available setting items may vary depending on models and specifications.

## 2. Getting started

### Available setting items

Setting item	Result
[Connections]	Displays the Bluetooth®, Wi-Fi and USB setting screen. ☞ "connections settings" (page 2-16)
[Phone]	Displays the Phone & text message setting screen. ☞ "Phone and text message assistant settings" (page 4-10)
[Navigation]	Displays the navigation settings screen. ☞ "Navigation settings" (page 6-56)
[Sound]	Displays the audio settings screen. ☞ "Audio settings" (page 3-33)
[Volume & Beeps]	Displays the volume adjustment screen. ☞ "Volume and Beeps settings" (page 2-19)
[Clock]	Displays the clock adjustment screen. ☞ "Clock settings" (page 2-19)
[Customize Home Menu]	Displays the HOME MENU editing screen. ☞ "Customizing HOME MENU screen" (page 2-10)
[Customize Audio Sources]	Displays the Audio menu editing screen. ☞ "Selecting audio source" (page 3-11)
[NissanConnect Services]	Displays the NissanConnect <sup>SM</sup> Services settings screen. ☞ "NissanConnect <sup>SM</sup> Services" (page 5-5)
[System Voice]	Displays the system voice settings screen. ☞ "System Voice settings" (page 7-12)
[Camera]	Displays the Camera setting screen. See vehicle Owner's Manual for details of the monitor system.

## 2. Getting started

[Others]	[Display]	Displays other settings screens.
	[Language]	"Display settings" (page 2-21)
	[Units]	"Language setting" (page 2-21)
	[Keyboard Type]	"Units settings" (page 2-21)

## 2. Getting started

### CONNECTIONS SETTINGS

GUID-B1D6479B-2DE5-4B50-AD8F-54A4EC13EA7D

Changing the settings and viewing information of Bluetooth®, Wi-Fi and USB are available on the Connections settings screen.

### Setting Bluetooth®

GUID-BEE172A8-E0E0-4F75-8762-230628E44312

Your vehicle is equipped with the Bluetooth® Hands-Free Phone System and Bluetooth® audio device support. If you are an owner of a compatible Bluetooth® enabled cellular phone or Bluetooth® audio device, you can set up the wireless connection between your cellular phone and the in-vehicle phone module or Bluetooth® audio device and in-vehicle audio module. With Bluetooth® wireless technology, you can make or receive a telephone call with your cellular phone in your pocket and listen to Bluetooth® audio.

👉 "Bluetooth® audio" (page 3-28)

👉 "Bluetooth® Hands-Free Phone System" (page 4-2)

### Connecting cellular phone/audio device:

To use the Bluetooth® device with the in-vehicle system for the first time, the device connection operation is required.

1. Touch [Settings] on the Launch Bar.
2. Touch [Connections].
3. Touch [Bluetooth] and touch [Add New]. A message is displayed.
4. Touch [Yes] to connect a cellular phone. Touch [No] to connect an audio device and operate as guided by the system. (Operations may differ depending on the device.)

### NOTE:

Some cellular phones or other devices may cause interference or a buzzing noise to come from the audio system speakers. Storing the device in a different location may reduce or eliminate the noise.

### INFO:

- The paired phone will be added to the list on the Bluetooth® connection screen.
- Touching another device name on the list will switch the connected device.
- Touching [📶] will allow the device to be connected via Bluetooth® and be used on the Hands-Free Phone System.
- Touching [🔊] will allow the device to be connected via Bluetooth® and be used for Bluetooth® Audio.
- Touching [ℹ️] will display the information of the phone device.
- Up to 6 Bluetooth® devices can be connected. If 6 devices are already connected, one of the devices must first be deleted before another device can be connected.

## 2. Getting started

- The pairing procedure of the cellular phone varies according to each cellular phone. See the cellular phone Owner's Manual for the details.
- Visit [www.nissanusa.com/bluetooth/](http://www.nissanusa.com/bluetooth/) for a recommended Bluetooth® device.

### Bluetooth® settings:

The Bluetooth® settings can be changed according to your preference.

1. Touch [Settings] on the Launch Bar.
2. Touch [Connections].
3. Touch [Bluetooth].
4. Touch [Ⓜ].

### Available setting items

Setting item	Action
[Bluetooth]	Turns the Bluetooth® connection on/off.
[Favorite Phone]	Set the phone which takes a priority to be connected.
[Favorite Audio]	Set the Bluetooth® audio device which takes a priority to be connected.
[Device Name]	The device name can be changed.
[PIN]	The PIN code can be changed.

### INFO:

With [Device Name], the device name that appears on the screen can be changed and be renamed from the name set as default to the preferred name (such as "Steve's Car" for example).

### Deleting cellular phone/audio device:

Paired phones can be deleted from the list.

1. Touch [Settings] on the Launch Bar.
2. Touch [Connections].

3. Touch [Bluetooth].
4. Touch [Ⓜ] by the phone device name you wish to delete.
5. Touch [Delete]. Touch [Yes] when a message appears.

### Wi-Fi Setting

GUP-58574DBB-6838-41C9-A054-FAC518DD656A

A Wi-Fi connection can be made to an available Wi-Fi network or near the vehicle. Wi-Fi connectivity is useful for updating map data and system software, or using online services such as Online Search or Premium Traffic.

-  "Updating System software" (page 5-4)
-  "How to update map data" (page 6-64)

## 2. Getting started

### Connecting to a Wi-Fi network:

To use the Wi-Fi connection for the first time, the following connecting procedures are required.

1. Touch [Settings] on the Launch Bar.
2. Touch [Connections].
3. Touch [Wi-Fi].
4. Touch the name of the device you wish to connect.
5. Enter the network password and touch [OK]. The device will be connected.

The connected Wi-Fi device will be added to the list on the connection screen.

If a listed device is in a status capable of making Wi-Fi connection, touching the device name on the list will start the connection.

### INFO:

- Touching the  will display the network information. Turning [Auto Connect] on will automatically connect the vehicle to the network if the network is available.
- Enabling the Wi-Fi hotspot functionality of your smartphone may incur additional charges from your cellular provider. Consult your cellular provider contract regarding the communication fee.
- The Wi-Fi hotspot communication is not available on this system as of September, 2017.

### Wi-Fi settings:

The Wi-Fi settings can be changed according to your preference.

1. Touch [Settings] on the Launch Bar.
2. Touch [Connections].
3. Touch [Wi-Fi].
4. Touch .
5. Touch a preferred item.

### Available setting items

Setting item	Action
[Wi-Fi]	Turns the Wi-Fi connection on/off.
[Security]	Security standard setting can be changed.

### Deleting Wi-Fi network:

The connected Wi-Fi devices can be deleted from the list.

1. Touch [Settings] on the Launch Bar.
2. Touch [Connections].
3. Touch [Wi-Fi].
4. Touch  by the name of the network you wish to delete.
5. Touch [Delete]. Touch [Yes] when a message appears.

### Displaying USB device information

The information of the connected USB device can be viewed.

1. Touch  "USB memory device player" (page 3-21)

## 2. Getting started

1. Touch [Settings] on the Launch Bar.
2. Touch [Connections].
3. Touch [USB].
4. Touch the name of the device you wish to check. The name and the type of the device are displayed.

### VOLUME AND BEEPS SETTINGS

The volume of various functions including audio, phone, navigation voice guidance, and system beeps can be adjusted.

1. Touch [Settings] on the Launch Bar.
2. Touch [Volume & Beeps].

Available setting items may vary depending on models and specifications.

### Available setting items

Setting item	Action
[Audio Volume]	Adjusts the volume level of the audio system.
[Guidance Volume]	Adjusts the volume level of the guidance voice and the voice recognition system voice responses.
[Ringtone]	Adjusts the volume level of the ringtone of incoming calls.
[Outgoing Call]	Adjusts the outgoing call volume.
[Button Beeps]	Turns on/off the button beep sound and alarm for prohibited operations.
[Guidance Voice]	Turns on/off the voice guidance.

### CLOCK SETTINGS

Clock settings of the system can be changed.

1. Touch [Settings] on the Launch Bar.
2. Touch [Clock].

Available setting items may vary depending on models and specifications.

## 2. Getting started

### Available setting items

Setting item	Action
[On-Screen Clock]	Sets the clock display on/off. When this item is on, the clock display appears.
[Clock Mode]	[Auto]: Adjust clock time automatically using GPS. [Time Zone]: Adjust clock time reflecting selected time zone. [Manual]: Reflects [Set Clock Manually] settings.
[Clock Format]	The clock can be set to 12 hours or 24 hours.
[Date Format]	The display format of the day, month and year display can be selected.
[Offset (Hour)]	Adjusts the offset value (hour). [Clock Mode] must be set to [Auto] or [Time Zone] for this option.
[Offset (Min.)]	Adjusts the offset value (minutes). [Clock Mode] must be set to [Auto] or [Time Zone] for this option to be available.
[Daylight Savings Time]	Turns on/off the daylight saving time setting. This option only appears to be available when Clock Mode is set to Time Zone.
[Time Zone]	Select an appropriate time zone from the list. [Clock Mode] must be set to [Time Zone] for this option.
[Set Clock Manually]	Adjust the clock manually. Touch [+] or [-] to adjust the hours, minutes, day, month and year up or down. [Clock Mode] must be set to [Manual] for this option.

#### INFO:

When the [On-Screen Clock] setting is turned on, the clock settings screen can also be displayed by touching the clock at the upper right corner of the screen.

## 2. Getting started

### DISPLAY SETTINGS

AIVINJN1-6BF6BB79-7BC5-47FC-AE67-09BC1505C4C5

Display settings can be adjusted.

1. Touch [Settings] on the Launch Bar.
2. Touch [Others].
3. Touch [Display].
4. Touch a preferred item to adjust the setting.

#### Available setting items

Setting item	Action
[Display]	Turns the screen off. Pushing and holding <⌘/> will also turn off the screen. Push the <⌘/> to turn the screen back on.
[Brightness]	Adjusts the brightness of the display.
[Contrast]	Adjusts the contrast of the display.
[Black Level]	Adjusts the black level of the display.

### LANGUAGE SETTING

AIVINJN1-D7E9171E-3B1C-414A-AD30-925AD34D89F6

This changes the language and measurement unit used in the system.

1. Touch [Settings] on the Launch Bar.
2. Touch [Others].

3. Touch [Language].

Selects the preferred system language.

The language setting is applied to the touch screen display, voice announcements, the voice recognition system. It can also be applied to the vehicle information display.

#### INFO:

Do not change the position of the ignition switch while changing the language.

### UNITS SETTINGS

GUID-5357F055-6C98-47D0-8C9F-E8D92E236164

This changes the units used in the system.

1. Touch [Settings] on the Launch Bar.
2. Touch [Others].
3. Touch [Units].

Setting item	Action
[Distance]	Select the distance unit.
[Temperature]	Select the temperature unit.

#### INFO:

- Do not change the position of the ignition switch while changing the distance or temperature.
- If the selected distance or temperature is also supported by the vehicle information display, a confirmation message asking if you would like to also change the distance or temperature for the vehicle information display is displayed. Select [Yes] to change the distance or temperature on the vehicle information display.

### KEYBOARD TYPE SETTINGS

GUID-9DE94100-E084-401F-AEC3-2D71C2119A0B

The keyboard layout of the character input screens can be selected.

1. Touch [Settings] on the Launch Bar.
2. Touch [Others].
3. Type of keyboard can be changed by touching [ABC] or [QWERTY] displayed by [Keyboard Type].

### RETURN ALL SETTINGS TO DEFAULT

GUID-F8F3CD4E-6B1E-4129-A4B4-C7A452414D93

This resets others settings (display, language, etc.) to the default settings.

1. Touch [Settings] on the Launch Bar.

## 2. Getting started

---

2. Touch [Others].
3. Touch [Return All Settings to Default].
4. Touch [Yes].

2-22

#### AUDIO OPERATION PRECAUTIONS

AIVINJN1-B0DBBB37-B849-425F-902A-DDABE30FE9B4

#### CAUTION

- Operate the audio system only when the vehicle engine or the hybrid system is running. Operating the audio system for extended periods of time with the engine or the hybrid system turned off can discharge the vehicle battery.
- Do not allow the system to get wet. Excessive moisture such as spilled liquids may cause the system to malfunction.

#### RADIO

AIVINJN1-2E7BDA12-EFEE-40F2-BD7E-OC1AD5ECA109

Place the ignition switch in the ACC or ON position before turning on the radio. If you listen to the radio with the engine or the hybrid system not running, the ignition switch should be placed in the ACC position.

Radio reception is affected by station signal strength, distance from radio transmitter, buildings, bridges, mountains and other external influences. Intermittent changes in reception quality normally

3-2

Condition:

are caused by these external influences. **Using a cellular phone in or near the vehicle may influence radio reception quality.**

#### Radio reception

AIVINJN1-89FE3704-0B57-4447-88CD-7BD9D337A7DC

Your radio system is equipped with state-of-the-art electronic circuits to enhance radio reception. These circuits are designed to extend reception range, and to enhance the quality of that reception.

However there are some general characteristics of both FM and AM radio signals that can affect radio reception quality in a moving vehicle, even when the finest equipment is used. These characteristics are completely normal in a given reception area, and do not indicate any malfunction in your radio system.

Reception conditions will constantly change because of vehicle movement. Buildings, terrain, signal distance and interference from other vehicles can work against ideal reception. Described below are some of the factors that can affect your radio reception.

Some cellular phones or other devices may cause interference or a buzzing noise to come from the audio system speakers. Storing the device in a different location may reduce or eliminate the noise.

#### FM radio reception

AIVINJN1-2F5BC1BF-3C52-437B-9A90-2B55439E4402

SAA0306

Range: the FM range is normally limited to 25 to 30 miles (40 to 48 km), with monaural (single station) FM having slightly more range than stereo FM. External influences may sometimes interfere with FM station reception even if the FM station is within 25 miles (40 km). The strength of the FM signal is directly related to the distance between the transmitter and receiver. FM signals follow a line-of-sight path, exhibiting many of the same characteristics as light. For example they will reflect off objects.

Fade and drift: As your vehicle moves away from a station transmitter, the

### 3. Audio system

signals will tend to fade and/or drift.

**Static and flutter:** During signal interference from buildings, large hills or due to antenna position, usually in conjunction with increased distance from the station transmitter, static or flutter can be heard. This can be reduced by lowering the treble setting to reduce the treble response.

**Multipath reception:** Because of the reflective characteristics of FM signals, direct and reflected signals reach the receiver at the same time. The signals may cancel each other, resulting in momentary flutter or loss of sound.

#### AM radio reception

AM signals, because of their low frequency, can bend around objects and skip along the ground. In addition, the signals can bounce off the ionosphere and be bent back to earth. Because of these characteristics, AM signals are also subject to interference as they travel from transmitter to receiver.

**Fading:** Occurs while the vehicle is passing through freeway underpasses or in areas with many tall buildings. It can also occur for several seconds during ionospheric turbulence even in areas where no obstacles exist.

**Static:** Caused by thunderstorms, electri-

cal power lines, electric signs and even traffic lights.

#### HD Radio™ Technology reception (for U.S.)

HD Radio Technology reception needs to be activated to receive HD Radio broadcasts.

 ["Radio Menu" \(page 3-17\)](#)

This enables you to receive radio broadcasts digitally (where available), providing a better quality sound with clear reception. When this feature is not activated or HD Radio broadcasts are not available, you will receive analog radio (AM/FM) broadcasts.

#### Satellite radio reception

When the satellite radio is used for the first time or the battery has been replaced, the satellite radio may not work properly. This is not a malfunction. Wait more than 10 minutes with the satellite radio ON and the vehicle outside of any metal or large building for the satellite radio to receive all of the necessary data.

SiriusXM services require a subscription after trial period and are sold separately or as a package. The satellite service is available only in the 48 contiguous USA and DC. SiriusXM satellite service is also

available in Canada; see [www.siriusxm.ca](http://www.siriusxm.ca).

The satellite radio performance may be affected if cargo carried on the roof blocks the satellite radio signal.

If possible, do not put cargo near the satellite antenna.

A buildup of ice on the satellite radio antenna can affect satellite radio performance. Remove the ice to restore satellite radio reception.

### 3. Audio system

#### COMPACT DISC (CD) PLAYER

AIVINJN1-DC5E2011-026D-452C-A4AC-47F0F8806FC5

SAA0480

- Do not force a compact disc into the CD insert slot. This could damage the CD and/or CD player.
- Trying to load a CD with the CD door closed could damage the CD and/or CD player.
- During cold weather or rainy days, the player may malfunction due to the humidity. If this occurs, remove the CD and dehumidify or ventilate the player completely.
- The player may skip while driving on rough roads.
- The CD player sometimes cannot function when the passenger compartment temperature is extremely high. Decrease the temperature before use.
- Only use high quality 4.7 in (12 cm) round discs that have the "COMPACT disc DIGITAL AUDIO" logo on the disc or packaging.
- Do not expose the CD to direct sunlight.
- CDs that are of poor quality, dirty, scratched, covered with fingerprints or that have pin holes may not work properly.
- The following CDs may not work properly:
  - Copy control compact discs (CCCD)
  - Recordable compact discs (CD-R)
  - Rewritable compact discs (CD-RW)
- Do not use the following CDs as they may cause the CD player to malfunction.
  - 3.1 in (8 cm) discs
  - CDs that are not round
  - CDs with a paper label
  - CDs that are warped, scratched, or have abnormal edges
- This audio system can only play pre-recorded CDs. It has no capabilities to record or burn CDs.
- If the CD cannot be played, one of the following messages will be displayed.
  - Disc read error:**  
Indicates a CLV, Focus, TOC or Access error. Check and reinsert the CD. Make sure that it is inserted correctly.
  - Please eject disc:**  
Indicates a mechanism error. If the CD can be ejected, eject and reinsert the CD. If the CD cannot be ejected, it is recommended you visit a NISSAN dealer for service.
  - Unplayable file:**  
Indicates that a readable file is not found on the inserted CD. Check the data in your CD.

3-4

Condition:

Edit: 2017/ 5/ 8 Model: AIVINJ-N ]

### 3. Audio system

#### USB (Universal Serial Bus) CONNECTION PORTS

AIVINJN1-B14770CC-B357-4196-BAA4-5BEF948ED871

#### WARNING

**Do not connect, disconnect or operate the USB device while driving. Doing so can be a distraction. If distracted you could lose control of your vehicle and cause an accident or serious injury.**

#### CAUTION

- **Do not force the USB device into the USB connection port. Inserting the USB device tilted or up-side-down into the port may damage the port. Make sure that the USB device is connected correctly into the USB connection port.**
- **Do not grab the USB connection port cover (if so equipped) when pulling the USB device out of the port. This could damage the port and the cover.**
- **Do not leave the USB cable in a place where it can be pulled unintentionally. Pulling the cable may damage the port.**

The vehicle is not equipped with a USB device. USB devices should be purchased separately as necessary.

This system cannot be used to format USB devices. To format a USB device, use a personal computer.

In some states/areas, the USB device for the front seats plays only sound without images for regulatory reasons, even when the vehicle is parked.

This system supports various USB memory devices, USB hard drives and iPod® players. Some USB devices may not be supported by this system.

- Partitioned USB devices may not be played correctly.
- Some characters used in other languages (Chinese, Japanese, etc.) are not displayed properly on the display. Using English language characters with a USB device is recommended.

#### General notes for USB use:

Refer to your device manufacturer's owner information regarding the proper care of the device.

#### Notes for iPod® use:

- Improperly plugging in the iPod® may cause a checkmark to be displayed on and off (flickering). Always make sure

that the iPod® is connected properly.

- Audiobooks may not play in the same order as they appear on an iPod®.

#### COMPRESSED AUDIO FILES (MP3/WMA/AAC)

AIVINJN1-59506932-77E0-4626-8C21-4A60DD222070

#### Explanation of terms

AIVINJN1-EB91730C-D0C7-441C-9028-C9C6F27A417B

- **MP3** — MP3 is short for Moving Pictures Experts Group Audio Layer 3. MP3 is the most well-known compressed digital audio file format. This format allows for near "CD quality" sound, but at a fraction of the size of normal audio files. MP3 conversion of an audio track can reduce the file size by approximately a 10:1 ratio (Sampling: 44.1 kHz, Bit rate: 128 kbps) with virtually no perceptible loss in quality. The compression reduces certain parts of sound that seem inaudible to most people.
- **WMA** — Windows Media Audio (WMA) is a compressed audio format created by Microsoft as an alternative to MP3. The WMA codec offers greater file compression than the MP3 codec, enabling storage of more digital audio tracks in the same amount of space when compared to MP3s at the same level of quality.

### 3. Audio system

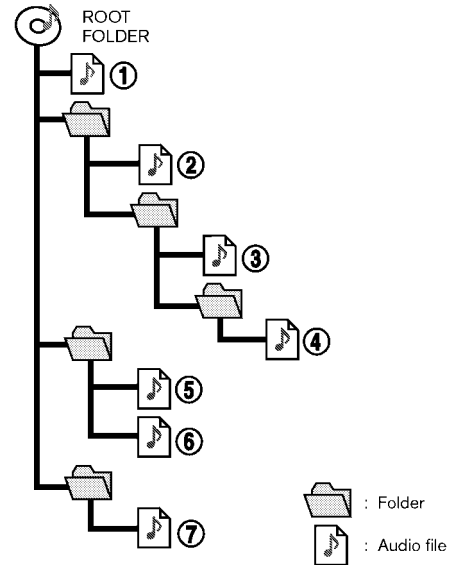

- **Bit rate** – Bit rate denotes the number of bits per second used by a digital music file. The size and quality of a compressed digital audio file is determined by the bit rate used when encoding the file.
- **Sampling frequency** – Sampling frequency is the rate at which the samples of a signal are converted from analog to digital (A/D conversion) per second.
- **Multisession** – Multisession is one of the methods for writing data to media. Writing data once to the media is called a single session, and writing more than once is called a multisession.
- **ID3/WMA tag** – The ID3/WMA tag is the part of the encoded MP3 or WMA file that contains information about the digital music file such as song title, artist, album title, encoding bit rate, track time duration, etc. ID3 tag information is displayed on the Album/Artist/Track title line on the display.
- **AAC** – Advanced Audio Coding (AAC) is a compressed audio format. AAC offers greater file compression than MP3 and enables music file creation and storage at the same quality as MP3.

3-6

Condition:

#### Playback order

AIVINJN1-2ABE94F5-2F22-4C97-ACEA-E869F1816CEF

SAA2494

- The folder names of folders not containing compressed audio files are not shown on the display.
- The playback order is the order in which the files were written by the writing software, so the files might not

play in the desired order.

- Music playback order of compressed audio files is as illustrated.

### 3. Audio system

### 3. Audio system

#### BLUETOOTH® STREAMING AUDIO

AIVINJN1-24BDA0F9-283E-4615-995E-7F61FFF7F7B7

- Some Bluetooth® audio devices may not be recognized by the in-vehicle audio system.
- It is necessary to set up the wireless connection between a compatible Bluetooth® audio device and the in-vehicle Bluetooth® module before using the Bluetooth® streaming audio.
- The Bluetooth® streaming audio may stop playing when
  - receiving a hands-free call.
  - checking the connection to the hands-free phone.
  - connecting the hands-free phone or the audio device.
  - downloading the phonebook memory from the connected cellular phone.
- Do not place a Bluetooth® audio device in an area surrounded by metal or far away from the in-vehicle Bluetooth® module to prevent tone quality degradation and wireless connection disruption.
- While an audio device is connected through a Bluetooth® wireless connection, the battery of the device may discharge quicker than usual.
- This system supports the Bluetooth® Advanced Audio Distribution Profile (A2DP) and Audio/Video Remote Control Profile (AVRCP).
- Wireless LAN (Wi-Fi) and the Bluetooth® functions share the same frequency band (2.4 GHz). Using the Bluetooth® and the wireless LAN functions at the same time may slow down or disconnect the communication and cause undesired noise. It is recommended that you turn off the wireless LAN (Wi-Fi) when using the Bluetooth® functions.

 "Presetting" (page 3-16)

#### ⑨ Live Mode or Replay Mode indicator:

The Live Mode is displayed when receiving the currently broadcasting

channel, and the Replay Mode is displayed when replaying.

#### NOTE:

- **The SiriusXM function will not operate without a subscription to SiriusXM Satellite Radio.**
- **HD Radio (for U.S.) reception needs to be activated to receive HD Radio broadcasts. This enables you to receive radio broadcasts digitally (where available), providing a better quality sound with clear reception. When this feature is not activated or HD Radio broadcasts are not available, you will receive analog radio (AM/FM) broadcasts.**

#### Radio operation

AIVINJN1-70A6C418-6C6D-4604-A521-AA2E6BCD59DC

#### Radio activation and band selection:

To listen to the radio, turn on the audio system and select a preferred radio band.

 "Selecting audio source" (page 3-11)

### 3. Audio system

#### INFO:

When the stereo broadcast signal is weak, the radio will automatically change from stereo to monaural reception.

#### Tuning:

To tune to stations/channels manually, turn **<TUNE-SCROLL/OK>** until the preferred station is selected.

#### Seek tuning:

Push **<◀▶▶>/<▶▶▶>** or push and hold **<◀▶▶>/<▶▶▶>** on the steering wheel to seek up/down to the next receivable broadcast station or channel.

#### Presetting:

Up to 6 for AM, 12 for FM and 18 for SXM stations/channels can be registered in the preset list.

1. Select a radio band (AM, FM or SXM).
2. Tune to the station/channel you wish to store.
3. Touch and hold one of the preset numbers in the preset list.
4. The information such as frequency (AM/FM), channel number (SXM), etc. will be displayed on the preset list.

To select and listen to the preset stations/channels, push **<◀▶▶>/<▶▶▶>** on the steering wheel briefly or touch a preferred station/channel on the preset list on the radio screen.

### 3. Audio system

#### Radio Menu

AIVINJN1-D950716C-9E53-45AA-A4AF-8EC5B4A2CD6E

Touch [FM Menu], [AM Menu], and [SXM Menu] on each radio screen to display the corresponding menu screen.

The following operations and settings are available.

##### [FM Menu]/[AM Menu]:

[SCAN]	To scan tune the stations, touch [FM Menu] or [AM Menu] on the radio screen and then touch [SCAN] or [Start Tune Scan]. The stations will be tuned from low to high frequencies and stop at each broadcasting station for several seconds. Touching [SCAN] again during this period of several seconds will stop scan tuning and the radio will remain tuned to that station. Pushing and holding < <<< >>> > will also scan tune the stations.
[Info]	Display the radio station information.
[Refresh]	Touch to update the station list displayed on the right side of the menu screen.
[Station List]	Touch to select a station from the station list.

##### [SXM Menu]:

[Now Playing]	Displays the current SXM screen.
[Channel List]	Touch to display the channel list.
[Direct Tune]	Touch to select a channel by entering channel number directly. Touch [Now Playing] to return to the SXM screen.
[Tag Artist]	Touch to save the current artist as a favorite.
[Tag Song]	Touch to save the current song as a favorite.
[Categories]	Touch to select a channel by selecting from the category list.
[Start Tune Scan]	ZZZ
[Favorite Artists: History]	Touch to display the favorite artist alert history.
[Favorite Songs: History]	Touch to display the favorite song alert history.
[Sports Flash: History]	Touch to display the sports flash alert history.

### 3. Audio system

[Edit Favorite Artists]	Turn on/off the notification for favorite artists . Touching [Turn All Alerts ON]/[Turn All Alerts OFF] can turn on/off for all artist at once. Touching [Ⓜ] can delete a stored favorite artist and [Delete All Favorites] deletes all stored artists.
[Edit Favorite Songs]	Turn on/off the notification for favorite songs . Touching [Turn All Alerts ON]/[Turn All Alerts OFF] can turn on/off for all song at once. Touching [Ⓜ] can delete a stored favorite song and [Delete All Favorites] deletes all stored song.
[Edit Sports Flash Teams]	Turn on/off the notification for a favorite team. Touching [Turn All Alerts ON]/[Turn All Alerts OFF] can turn on/off for all team at once. Touching [Ⓜ] can delete a stored favorite team. [Add Team] can add a new favorite team to the list.
[Edit Favorite TWN City]	ZZZ
[Notification Settings]	Touch to turn on/off the notifications for Artists, Songs, and Sports Flash. Turning on [Alert on Non-Audio Screens] can also display the notification on menu screens other than the audio screen.
[Customize Channel List]	Touch to customize the channel list. Only the selected channels will be tuned in to when you seek or scan the channels. You can select each item or select [Disable All Channels]/[Enable All Channels]. You can also turn on/off [Mature Channels].
[Tune Start]	Touch to turn on/off the tune start feature. This feature buffers the content playing on each of the SiriusXM preset channels, so that when a preset channel is selected, the currently playing song always starts playing from the beginning.

#### INFO:

- SiriusXM services require a subscription after trial period and are sold separately or as a package. The satellite service is available only in the 48 contiguous USA and DC. SiriusXM satellite service is also available in Canada; see [www.siriusxm.ca](http://www.siriusxm.ca).
- It may take some time to receive the activation signal after the initiation of

the SiriusXM Satellite Radio subscription. After receiving the activation signal, an available channel list will automatically be updated in the radio. Change the position of the ignition switch from LOCK to ACC to update the SiriusXM channel list.

#### Connecting USB memory device

AIVINJN1-8B4A7CDA-0428-4D60-A67E-D4AD0C453CB2

#### WARNING

**Do not connect, disconnect or operate the USB device while driving. Doing so can be a distraction. If distracted you could lose control of your vehicle and cause an accident or serious injury.**

#### CAUTION

- Do not force the USB device into the USB connection port. Inserting the USB device tilted or up-side-down into the port may damage the port. Make sure that the USB device is connected correctly into the USB connection port.
- Do not grab the USB connection port cover (if so equipped) when pulling the USB device out of the port. This could damage the port and the cover.
- Do not leave the USB cable in a place where it can be pulled unintentionally. Pulling the cable may damage the port.

Refer to your device manufacturer's owner information regarding the proper use and care of the device.

When compatible storage devices are plugged into the port, compatible audio files on the storage devices can be played through the vehicle's audio system.

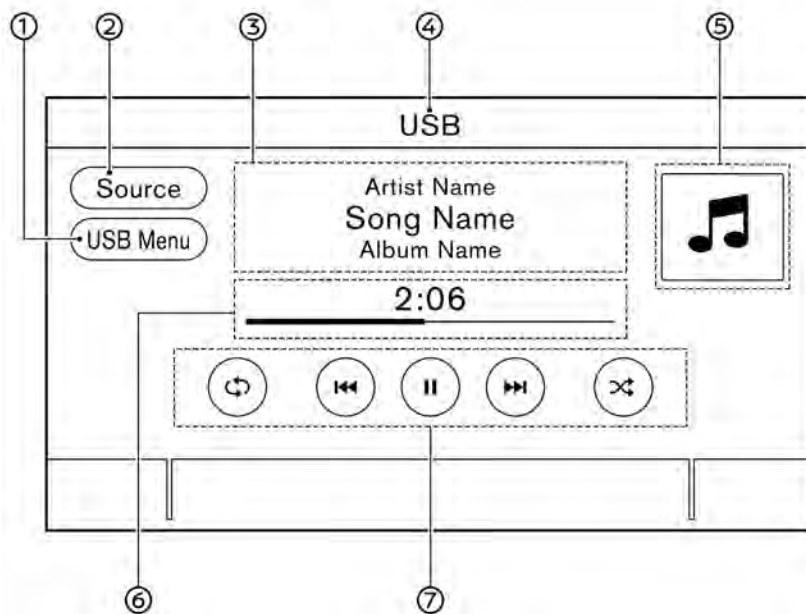

For the location of the USB connection port:

"USB (Universal Serial Bus) Connection Ports and AUX (auxiliary) input jack" (page 2-4)

the source on the audio source menu screen.

🔗 "Selecting audio source" (page 3-11)

#### Selecting search method:

A list of search methods is displayed in the iPod® menu.

Touch [iPod Menu] to display the iPod® menu. Touch and select an item to play the iPod® in your preferred settings.

#### Skipping tracks:

To skip the tracks, push <⏮>/<⏩>, touch [⏪]/[⏩] on the screen, or push <⏮>/<⏩> on the steering wheel repeatedly until preferred track is selected.

#### 📘 INFO:

Depending on the condition, skipping to the previous track may require pushing the button or touching the key twice. Pushing the button or touching the key once may only restart the current track from the beginning.

Turning <TUNE-SCROLL/OK> while a track is playing will also skip the tracks.

#### Fast-forwarding/rewinding:

To fast-forward or rewind the track, push and hold <⏮>/<⏩>, touch and hold [⏪]/[⏩], or push and hold <⏮>/<⏩> on the steering wheel.

#### Changing play mode:

##### Repeat mode

Touch [⏮] on the screen to change the repeat mode as follows.

(off) → [Repeat List] → (off)

##### Random mode

Touch [⏭] on the screen to change the random mode as follows.

(off) → [Random] → (off)

#### iPod® Menu

AIVINJN1-1EDCB51F-8470-481B-BD52-A860687C05EA

Touch [iPod Menu] on the iPod® screen to display the iPod® menu screen.

The following items are available.

### 3. Audio system

[Now Playing]	Touch to display the iPod® screen.
[Current List]	Touch to display the menu list which was displayed most recently.
[Album Artwork]	Touch to turn on/off the album artwork display on the iPod® screen.
[Playlists]	Touch to display the list according to the selected item.
[Artists]	
[Albums]	
[Songs]	
[Genres]	
[Composers]	
[Audio-books]	
[Podcasts]	

#### INFO:

On the list screen, touch and hold [ ] or [ ] on the right side of the screen to jump by letter for faster scrolling.

#### BLUETOOTH® AUDIO

AIVINJN1-6D822548-78A4-4D36-B8BE-13EE7D8B3971

Your vehicle is equipped with Bluetooth® Audio.

If you have a compatible Bluetooth® device with streaming audio capability (A2DP profile), you can set up a wireless connection between your Bluetooth® device and the in-vehicle audio system. This connection allows you to listen to the audio from the Bluetooth® device using your vehicle speakers. It also may allow basic control of the device for playing and skipping audio files using the AVRCP Bluetooth® profile. Not all Bluetooth® devices have the same level of controls for AVRCP. Please consult the manual for your Bluetooth® device for more details.

Wireless LAN (Wi-Fi) and the Bluetooth® functions share the same frequency band (2.4 GHz). Using the Bluetooth® and the wireless LAN functions at the same time may slow down or disconnect the communication and cause undesired noise. It is recommended that you turn off the wireless LAN (Wi-Fi) when using the Bluetooth® functions.

#### Connecting Bluetooth® audio device

AIVINJN1-35FDD5DF-AF21-4074-8409-897CA408B2B2

A Bluetooth® audio device must be connected to the vehicle before operation.

"Setting Bluetooth®" (page 2-16)

### 3. Audio system

#### How to view Bluetooth® audio screen

gress in playing the current track.

#### ⑦ Bluetooth® audio operation keys:

Touch to control Bluetooth® audio playback.

[↻]	Each time [↻] is touched, the repeat mode changes. 📖 "Changing play mode" (page 3-31)
[⏮]	Touch to return to the beginning of the current track. Touch again to select the previous track. Touch and hold to rewind the current track.
[▶]	Touch to play the track.
[⏸]	Touch to pause the track.
[⏭]	Touch to select the next track. Touch and hold to fast-forward the track.
[⏮]	Each time [⏮] is touched, the random mode changes. 📖 "Changing play mode" (page 3-31)

#### INFO:

Depending on the audio device that is connected to the vehicle, track information may not be displayed.

#### Bluetooth® audio operation

AIVINJN1-T383FDB6-EEAE-412C-8E8F-2D0CFC7AD013

The ability to pause, change tracks, fast forward, rewind, randomize and repeat music may be different between devices. Some or all of these functions may not be supported on each device.

#### INFO:

Depending on the Bluetooth® audio device that is connected, it may not be possible to perform audio operations or a delay may occur before music is played back.

#### Activation and playing:

A Bluetooth® audio device can be played by selecting the source on the audio source menu screen.

📖 "Selecting audio source" (page 3-11)

To pause playing the Bluetooth® audio, touch [⏸]. Touch [▶] to resume playing.

#### Skipping tracks:

Push <⏮>/<⏭>, touch [⏮]/[⏭] on the screen, or push <⏮>/<⏭> on the steering wheel briefly to skip to the next or the previous track.

#### INFO:

Depending on the condition, skipping to the previous track may require pushing the button or touching the key twice. Pushing the button or touching the key once may only restart the current track from the beginning.

While a track is playing, turning <TUNE-SCROLL/OK> will also skip the tracks.

#### Changing folders:

To change folders, touch [BT Menu].

📖 "BT Menu" (page 3-31)

Turn <TUNE-SCROLL/OK> to skip to different folders. If no folders are found, tracks will be skipped.

#### Fast-forwarding/rewinding:

To fast-forward or rewind the track, push and hold <⏮>/<⏭>, touch and hold [⏮]/[⏭], or push and hold <⏮>/<⏭> on the steering wheel.

### 3. Audio system

#### Changing play mode:

##### Repeat mode

Touch [↺] on the screen to change the repeat mode.

##### Random mode

Touch [↻] on the screen to change the random mode.

#### INFO:

Available repeat/random modes change depending on the connected device.

#### BT Menu

AIVINJN1-AAD511F7-A469-4A45-8111-0410E225502E

Touch [BT Menu] on the Bluetooth® audio screen to display the Bluetooth® audio menu screen.

The following items are available.

[Now Playing]	Touch to display the Bluetooth® audio screen.
[Album Artwork]	Touch to turn on/off the album artwork display on the Bluetooth® audio screen.
[Connections]	Touch to display the connections screen. "connections settings" (page 2-16)
Folder list *	Touch to display the folder list. Touch an item on the list to select the folder.
[Current List]	A list of the currently playing track is displayed.

\*: Displayed only when available.

#### AUXILIARY (AUX) DEVICES

AIVINJN1-7E4C982E-CE83-4819-8396-9601FE8561DB

#### Connecting auxiliary devices

AIVINJN1-9776C08E-805B-4D3E-857D-1723F8FE9887

The auxiliary input jack is located in the media pocket.

"USB (Universal Serial Bus) Connection Ports and AUX (auxiliary) input jack" (page 2-4)

The auxiliary input jack accepts any standard analog audio input such as from a portable cassette player, CD player or MP3 player.

#### INFO:

Insert a 1/8 in (3.5 mm) stereo mini plug in the audio input jack. If a cable with a mono plug is used, the audio output may not function normally.

#### AUX operation

AIVINJN1-8467D2B9-7D28-4DAB-8F80-11B9ACDD5164

#### Activation and playback:

Turn on an AUX device.

Connect an AUX cable to the AUX device and the AUX jack. Select AUX mode from the audio source menu screen.

"Selecting audio source" (page 3-11)

### 3. Audio system

#### How to view AUX screen

- ① [Source]:  
Touch to switch to the source list screen.  
👉 "Selecting audio source" (page 3-11)
- ② Audio source indicator:  
Indicates that the AUX source is currently playing.
- ③ Turn direction indicator (if so equipped):  
When a navigation route is set, the turn direction and the distance to the next turn are displayed.
- ④ Volume Setting keys:  
Touch one of the keys to select the sound output gain from [Low], [Med-

3-32

ium) and [High].

#### SMARTPHONE AUDIO

You can also listen to music from your compatible smartphone using Apple CarPlay or Android Auto.

- 👉 "Apple CarPlay" (page 5-21)
- 👉 "Android Auto" (page 5-23)

#### Connecting smartphone

Connect the iPhone® or Android device to the USB connection port.

- 👉 "USB (Universal Serial Bus) Connection Ports and AUX (auxiliary) input jack" (page 2-4)

#### Smartphone audio operation

1. Connect the iPhone® or Android device to the USB connection port and activate CarPlay or Android Auto.
2. Push **<AUDIO>**.
3. Touch [Source].
4. Touch [Apple CarPlay] or [Android Auto] in the audio source menu screen, and the smartphone audio starts activating.  
👉 "Selecting audio source" (page 3-11)

### 3. Audio system

#### AUDIO SETTINGS

AIVINJ1-ECFE1718-B192-4A27-91B2-70E3D8B84B09

Audio settings can be adjusted or audio related functions can be turned on/off with the following procedure.

1. Touch [Settings] on the Launch Bar.
2. Touch [Sound].

Setting items	Action
[Bass]	Adjust the speaker tone quality and sound balance by touching [-]/[+], [L]/[R] or [R]/[F].
[Middle]	
[Treble]	
[Balance]	
[Fade]	
[Bass enhancer]	When this item is turned on, system enhances bass sound.
[Speed-Sensitive Volume]	Automatically adjusts the volume depending on the vehicle speed. Touch [-]/[+] to change the sensitivity level.

### 3. Audio system

#### AUDIO ADJUSTMENTS WITH AUDIO ADJUST BAR

AIVINJN1-2037132B-707C-4A3D-B14B-BOCCB3B69C4B

Sound quality can be adjusted with **<TUNE-SCROLL/OK>**. Push **<TUNE-SCROLL/OK>**, when a list screen is not displayed, and the audio adjust bar is displayed. Each time **<TUNE-SCROLL/OK>** is pushed, the selected setting item will change as follows.

[Bass] → [Middle] → [Treble] → [Balance] → [Fade]

Turn **<TUNE-SCROLL/OK>** to adjust the level of the selected setting item.

3-34

Condition:

#### CD/USB MEMORY DEVICE CARE AND CLEANING

AIVINJN1-382E2C0C-F95D-4F32-83DB-7AC976003DF3

CD

AIVINJN1-2435A350-AAE3-4957-A686-FFDF46B8AF14

SAA0451

- Handle a CD by its edges. Never touch the surface of the disc. Do not bend the disc.
- Always place the discs in the storage case when they are not being used.
- To clean a disc, wipe the surface from the center to the outer edge using a clean, soft cloth. Do not wipe the disc using a circular motion. Do not use a conventional record

cleaner or alcohol intended for industrial use.

- A new disc may be rough on the inner and outer edges. Remove the rough edges by rubbing the inner and outer edges with the side of a pen or pencil as illustrated.

#### USB MEMORY DEVICE

AIVINJN1-F355BB54-6B69-4B59-B94F-C82FA1BFE34F

- Never touch the terminal portion of the USB memory device.
- Do not place heavy objects on the USB memory device.
- Do not store the USB memory device in highly humid locations.
- Do not expose the USB memory device to direct sunlight.
- Do not spill any liquids on the USB memory device.

Refer to the USB memory device Owner's Manual for the details.

## 4. Hands-Free Phone

### BLUETOOTH® HANDS-FREE PHONE SYSTEM

AIVINJN1-99952F72-0167-4B11-9D0E-D9F1C385EEA8

#### WARNING

- **Use a phone after stopping your vehicle in a safe location. If you have to use a phone while driving, exercise extreme caution at all times so full attention may be given to vehicle operation.**
- **If you find yourself unable to devote full attention to vehicle operation while talking on the phone, pull off the road to a safe location and stop your vehicle before doing so.**

#### CAUTION

**To avoid draining the vehicle battery, use a phone only after starting the engine or the hybrid system.**

Your vehicle is equipped with Bluetooth® Hands-Free Phone System. If you are an owner of a compatible Bluetooth® enabled cellular phone, you can set up the wireless connection between your cellular

4-2

Condition:

phone and the in-vehicle phone module. With Bluetooth® wireless technology, you can make or receive a telephone call with your cellular phone in your pocket.

Once a cellular phone is connected to the in-vehicle phone module, the procedure for connecting the phone does not need to be performed again. Your phone will automatically re-connect to the in-vehicle phone module when the ignition switch is placed in the ON position with the selected cellular phone turned on and carried in the vehicle.

You can register up to 6 different Bluetooth® devices in the in-vehicle phone module. However, you can talk on only one cellular phone at a time.

The Voice Recognition system supports phone and text message commands, so dialing a phone number using your voice is possible.

#### "7. Voice recognition"

Before using the Bluetooth® Hands-Free Phone System, refer to the following notes.

- Wireless LAN (Wi-Fi) and the Bluetooth® functions share the same frequency band (2.4 GHz). Using the Bluetooth® and the wireless LAN functions at the same time may slow down or disconnect the communication and

cause undesired noise. It is recommended that you turn off the wireless LAN (Wi-Fi) when using the Bluetooth® functions.

- Set up the wireless connection between a compatible cellular phone and the in-vehicle phone module before using the Bluetooth® Hands-Free Phone System.
- Some Bluetooth® enabled cellular phones may not be recognized by the in-vehicle phone module. Visit the website below for a recommended phone list.  
[www.nissanusa.com/bluetooth/](http://www.nissanusa.com/bluetooth/)
- You will not be able to use a hands-free phone under the following conditions:
  - Your vehicle is outside of the telephone service area.
  - Your vehicle is in an area where it is difficult to receive radio waves; such as in a tunnel, in an underground parking garage, behind a tall building or in a mountainous area.
  - Your cellular phone is locked in order to prevent dialing.
- When the radio wave condition is not ideal or ambient sound is too loud, it

Edit: 2017/ 5/ 8 Model: AIVINJ-N ]

## 4. Hands-Free Phone

may be difficult to hear the other person's voice during a call.

- Immediately after the ignition switch is placed in the ON position, it may be impossible to receive a call for a short period of time.
- Do not place the cellular phone in an area surrounded by metal or far away from the in-vehicle phone module to prevent tone quality degradation and wireless connection disruption.
- While a cellular phone is connected through the Bluetooth® wireless connection, the battery power of the cellular phone may discharge quicker than usual.
- Visit the website below for troubleshooting help if the Bluetooth® Hands-Free Phone System seems to be malfunctioning.  
[www.nissanusa.com/bluetooth/](http://www.nissanusa.com/bluetooth/)
- Some cellular phones or other devices may cause interference or a buzzing noise to come from the audio system speakers. Storing the device in a different location may reduce or eliminate the noise.
- Refer to the cellular phone Owner's Manual regarding the telephone pair-

ing procedure specific to your phone, battery charging, cellular phone antenna, etc.

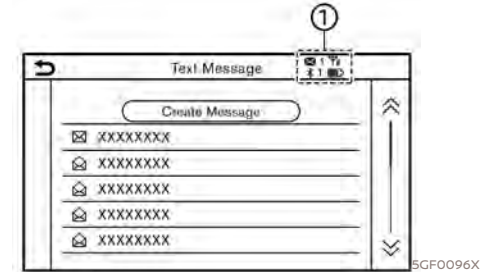

- The antenna display on the monitor may not coincide with the antenna display of some cellular phones.
- The battery display on the monitor may not coincide with the battery display of some cellular phones.
- Keep the interior of the vehicle as quiet as possible to hear the caller's voice clearly as well as to minimize echo.
- If reception between callers is unclear, adjusting the incoming or outgoing call volume may improve the clarity.

 "Volume and Beeps settings" (page 2-19)

- The microphone is located near the map light.
- Reduce background noise as much as possible by closing windows and pointing HVAC vents away from the ceiling.

### INDICATORS

AIVINJN1-DF17CCD9-47EB-42F9-B647-1A1218B25DA1

When a cellular phone is connected through the Bluetooth® wireless connection, indicators ① for phone and text messaging are displayed on the top of the screen.

 1	Indicates the number of unread received messages.
 1	Indicates the Bluetooth® device that is.
	Indicates the strength of the signal the Bluetooth® device is receiving.
	Indicates the amount of remaining Bluetooth® device battery.

## 4. Hands-Free Phone

### PHONE

AIVINJN1-023A5F01-7310-424C-B3E9-547E1F8FC21F

### Connecting Bluetooth® Hands-free Phone

AIVINJN1-46BD8347-EF56-4BDE-AE6B-DB97C7EC282D

A cellular phone device must be connected to the Bluetooth® Hands-Free Phone System before operation. Up to 6 Bluetooth® devices can be connected to the system.

☞ "Setting Bluetooth®" (page 2-16)

### Phone selection

AIVINJN1-205885D8-3C6A-48D8-97F0-5631F1B29D25

Follow the instructions below to select a connected device for use with the Bluetooth® Hands-Free Phone System.

- Models with navigation system:  
Touch [Phone] on the Launch Bar.  
Models without navigation system:  
Push < ⏪ > on the control panel or touch [Phone] on the Launch Bar.
- Touch [Connections] and touch [Bluetooth]. A list of the connected cellular phones is displayed.
- Touch one of the connected cellular phones from the list.  
When the connection is successful, "Connected" is displayed under the device name.  
If [📶] displayed in gray, touch [📶].

4-4

### INFO:

- When touching [📶] next to the name, the cellular phone can be selected as a hands-free phone only.
- To select a phone, Bluetooth® of the cellular phone needs to be turned on.

### Making a call

AIVINJN1-A10664E4-4636-4046-949D-803558D90AF1

- Models with navigation system:  
Touch [Phone] on the Launch Bar.  
Models without navigation system:  
Push < ⏪ > on the control panel or touch [Phone] on the Launch Bar.
- Select one of the following methods to make a call.

#### ① [Quick Dial] :

Select a telephone number registered as a Quick Dial number.

☞ "Quick Dial" (page 4-12)

#### ② [Phone Book] :

Select a person and the phone number you wish to call from the phone-book.

Depending on the device, the phone-book will be downloaded from the cellular phone automatically when it is connected. If the automatic download does not take place, the telephone number must be transferred to the hands-free phone system from the cellular phone prior to using this method.

☞ "Phone settings" (page 4-10)

#### ③ [Call History] :

Select a telephone number from recent incoming, outgoing or missed calls.

#### ④ [Dial Number] :

Enter the phone number manually using the keypad displayed on the screen.

☞ "How to input letters and numbers" (page 2-9)

- Dialing will start and the screen will change to the call in progress screen.

## 4. Hands-Free Phone

### Receiving a call

When you receive a phone call, display switches to the Incoming Call screen and a ring tone.

#### Taking a call:

To answer the call, take one of the following actions.

- Push < > on the steering wheel.
- Touch [Answer].

#### Rejecting a call:

To reject the call, take one of the following actions.

- Push < > on the steering wheel.
- Touch [Decline].

#### Holding a call:

To hold the call, touch [Hold Call].

#### INFO:

Operation for answering and rejecting a received phone call is also available on the vehicle information display. Refer to the vehicle Owner's Manual for details.

### During a call

The call in progress screen will appear during a call.

To hang up the phone, touch [Hang up].

#### Operations during a call:

There are some options available other than hanging up a call or answering/rejecting incoming calls.

Touch one of the following displayed keys on the screen to take action.

Available item	Action
[Use Handset]	Transfer the call to the cellular phone.
[Mute]	When muted, your voice will not be heard by the person on the other end of the line.
[Dial Number]	Using the touch tone, send digits to the connected party for using services such as voicemail.
[Switch Call]*	Answer another incoming call. The person you are talking to will be placed on hold. Push once more to speak to the person on hold again.

\*: Available when a call is received while on the line with another person. The availability of this function depends on the phone device.

#### INFO:

To adjust the person's voice to be louder or quieter, push <+ -> on the steering wheel or turn <VOLUME/ > while talking on the phone.

## 4. Hands-Free Phone

### Call from a second person:

SGF0100X

When another phone call is received during a call, the Call Waiting screen will appear.

#### Answering call from a second person:

To answer the call from the second person and place the first caller on hold, take one of the following actions.

- Push <  > on the steering wheel.
- Touch [Answer].

#### Rejecting call from a second person:

To reject a call from the second person and continue the conversation with the first caller, touch [Decline].

### During a call with a second person:

SGF0101X

To hang up the phone and return to the conversation with the first caller, touch [Hang up].

To switch between two calls on line, touch [Switch Call].

### HANDS-FREE TEXT MESSAGING ASSISTANT

AIVINJN1-9092E6E3-0312-4427-83C9-78CEA4744D55

#### WARNING

- **Use the text messaging feature after parking your vehicle in a safe location. If you have to use the feature while driving, exercise extreme caution at all times so full attention may be given to vehicle operation.**
- **Laws in some jurisdictions may restrict the use of "Text-to-Speech." Check local regulations**

before using this feature.

- **Laws in some jurisdictions may restrict the use of some of the applications and features, such as social networking and texting. Check local regulations for any requirements.**
- **If you are unable to devote full attention to vehicle operation while using the text messaging feature, pull off the road to a safe location and stop your vehicle.**

#### CAUTION

**This feature is disabled if the connected device does not support it. See the phone's Owner's Manual for details and instructions.**

The system allows for the sending and receiving of text messages through the vehicle interface.

## 4. Hands-Free Phone

### Receiving a message

When the cellular phone connected to the vehicle receives a text message, a notification will appear on the touch screen display and on the vehicle information display with a tone.

To check the message, touch [Read]. Touch [Ignore] to save the message to be checked later.

If you want to respond using a predefined message, touch the message for auto reply ①.

The text message for auto reply can be edited.

"Phone settings" (page 4-10)

### INFO:

- Depending on the cellular phone, notification display setting needs to be turned on the phone device.
- Operation for reading a new message is also available on the vehicle information display. Refer to the vehicle Owner's Manual.

### Displaying received message list

- Models with navigation system:  
Touch [Phone] on the Launch Bar.  
Models without navigation system:  
Push < > on the control panel or touch [Phone] on the Launch Bar.
- Touch [Text Message].
- Touch an item on the list to read or reply to the message.

### INFO:

Up to 20 messages can be stored in the message list.

### Received message screen

Touching [Read] on the new message notification screen or selecting a message from the message list will show the details of the received message on the display.

### Available actions:

- [Prev.]:  
Touch to read the previous message.
- [Next]:  
Touch to read the next message.
- [Play]/[Stop]:  
Touch [Play] to have the hands-free phone system read out the received message. Touch [Stop] to stop reading.

## 4. Hands-Free Phone

- [Call]:  
If the sender of the message is registered in the Phonebook, touch this icon to make a call to the sender.
- [Reply]:  
A reply message can be selected from the template.  
 "Sending a text message"  
(page 4-8)

### INFO:

- Available keys may vary depending on the situations.
- If the sender's name and phone number is registered in the Phonebook, the name of the sender is displayed when a message is received.
- To adjust the message reading voice volume, push <+ & #x2191 -> on the steering wheel or turn <VOLUME/ & #x2191 >.
- Some of the operations are also available on the vehicle information display. Refer to the vehicle Owner's Manual for details.

### Sending a text message

AIVINJN1-2F6880B3-BAEC-406F-91B4-5465323E6184  
This function may not be supported depending on the phone device.

4-8

Condition:

1. Models with navigation system:  
Touch [Phone] on the Launch Bar.  
Models without navigation system:  
Push < & #x2191 > on the control panel or touch [Phone] on the Launch Bar.
2. Touch [Text Message].
3. Touch [Create Message].

## 4. Hands-Free Phone

The following items are available.

Available item		Action
[To]	[Enter Number by Keypad]	Enter the phone number of the recipient using the keypad. Touch [OK] to confirm.
	[Quick Dial]	Select a recipient from the Quick Dial list.
	[Phonebook]	Select a contact from the Phonebook.
	[Call History]	Select a contact/phone number from call history.
[Select Text]	[Predefined]	Touch to display a list of pre-defined text messages.
	[Customized]	Touch to display a list of custom text message templates. Custom text can be created or edited from the setting menu.  <a href="#">"Phone and text message assistant settings" (page 4-10)</a>
[Send]		Touch to send the message.

## 4. Hands-Free Phone

### PHONE AND TEXT MESSAGE ASSISTANT SETTINGS

AIVINJN1-1513E8E2-AF29-4D62-968F-3689E6A05889

#### Phone settings

AIVINJN1-113ACEB2-74B1-46EA-92C5-7C0462E956E7

Bluetooth® Hands-Free Phone System settings can be changed according to the user's preference.

1. Touch [Settings] on the Launch Bar.
2. Touch [Phone].

The following phone setting items are available.

Setting item		Action
[Connections]		Display the Connections screen. Phone connection, selection, deletion or etc., are available. 📄 "connections settings" (page 2-16)
[Quick Dial]	[Edit]	Entries in the Quick Dial can be edited. Touch [Add New] to register a new entry. 📄 "Quick Dial" (page 4-12)
	[Delete All]	Deletes all of the phone number in the Quick Dial.
[Phone Book]	[Download Entire Phone Book]	All of the phone numbers that are stored in a phonebook of a cellular phone that is connected to the vehicle are downloaded at once.
	[Auto Downloaded]	Turns on/off automatic downloading of the phonebook from the connected cellular phone.
	[Sort Phonebook by]	Changes the sorted order of contacts in the phonebook.
[Text Message]	[Text Message]	Turns the text message function on/off.
	[Text Message Ringtone]	Turns the incoming message sound on/off.
	[Signature]	Turns the signature setting for the outgoing text message on/off.
	[Auto Reply]	Turns on/off the automatic text message reply function.
	[Auto Reply Text Message]	Selects the text message to be used for the automatic reply function.
	[Edit Custom Text]	Creates or edits a customized text message reply.

4-10

## 4. Hands-Free Phone

[Notifications]	[Driver Only]	When this item is turned on, incoming call notification is displayed only in the vehicle information display.
	[Vehicle Ringtone]	Turns the vehicle ringtone on/off.
[Automatic Hold]		When this item turns on, an incoming phone call will be put on hold automatically.

## 4. Hands-Free Phone

### Quick Dial

Up to 20 Quick Dial entries can be registered.

Quick Dial entries can be used to quickly make a call or send text messages.

#### Registration:

- Models with navigation system:  
Touch [Phone] on the Launch Bar.  
Models without navigation system:  
Push < [Phone] > on the control panel or touch [Phone] on the Launch Bar.
- Touch [Quick Dial].
- Touch [Edit].
- Touch [Add New] to register a phone number to the Quick Dial list.
- Select a method for registration.

#### Available methods:

- [Copy from Call History]:  
A phone number can be selected from [All], [Incoming], [Outgoing], or [Missed] call history lists.
- [Copy from Phone Book]:  
A phone number can be selected from the Phonebook.
- [Enter Number with Keypad]:  
A phone number can be entered manually using keypad.

#### INFO:

Available methods may vary depending on cellular phone support.

- When a phone number has been selected, the registration screen is displayed. Enter the phone number and edit the entry information as necessary.
- Touch [OK] to save the entry.

#### INFO:

Quick Dial entries can also be registered by touching [Settings] on the Launch Bar and then selecting [Phone].

 "Phone settings" (page 4-10)

#### Voice Tag:

A voice tag can be recorded for each of the registered Quick Dial numbers and can be used to dial the number by speaking it.

On the Quick Dial registration screen, select [Relationship / Voice Tag].

- Select a preferred voice tag from the list.
- Touch [Customize Voice Tag] and touch [Record] to register your original voice tag.

## 4. Hands-Free Phone

---

**INFO:**

- Touch [Play] to play the recorded voice tag.
- Touch [Delete] to delete the voice tag.

## 5. Information

### NISSANCONNECT<sup>SM</sup> SERVICES (if so equipped)

AIVINJN1-17324563-EABE-48D2-BF54-CA6C6411D90B

#### SUBSCRIPTION TO NISSANCONNECT<sup>SM</sup> SERVICES

AIVINJN1-79859816-B70D-4DAD-AB81-2CEDA8C9C449

Except for services received under Demonstration Mode, it is necessary to subscribe to NissanConnect<sup>SM</sup> Services in order to use NissanConnect<sup>SM</sup> Services. To activate NissanConnect<sup>SM</sup> Services, you can enroll via the NissanConnect<sup>SM</sup> Services Companion App, NissanConnect<sup>SM</sup> portal website, or a NISSAN dealer.

NissanConnect<sup>SM</sup> Services are offered by SiriusXM or other third party vendors in accordance with the terms and conditions and privacy policies outlined in a Subscription Agreement.

#### LEGAL DISCLAIMER

AIVINJN1-758A7C04-99EB-48FC-9CCD-BDCCDF536ECB

Avoid operating NissanConnect<sup>SM</sup> Services in such a way that you are distracted while driving. Except for services provided under Demonstration Mode, a NissanConnect<sup>SM</sup> Services Subscription Agreement is required to use this service.

Beginning on the date of purchase of your vehicle, a trial period for the services is included for a limited period of time. At the expiration of the trial subscription period, your credit card will be charged and your

service will automatically renew in accordance with the terms of your NissanConnect<sup>SM</sup> Services Subscription Agreement.

Services are dependent upon subscription enrollment and the telematics device being in operative condition, cellular connection availability, navigation map data, and GPS satellite signal reception, which can limit the ability to reach NissanConnect<sup>SM</sup> Services or to receive support. The service requires a compatible GSM/GPRS cellular network. Should the cellular provider terminate or restrict network service, services will not be available. Under this circumstance, your service may be suspended or terminated without notice and without liability to NISSAN, NISSAN's third party service providers, the underlying wireless carrier or any third party beneficiary. In the event that a change of telecommunications systems or services becomes necessary, you are solely responsible for replacing, as well as the cost of replacing, any equipment in the vehicle that is necessitated. Terms and conditions of NissanConnect<sup>SM</sup> Services Subscription Agreement apply.

### NISSANCONNECT<sup>SM</sup> SERVICES FEATURES

AIVINJN1-6C449EE6-7E5C-4FD6-9F16-E808A8403302

NissanConnect<sup>SM</sup> Services provides various types of information and services by connecting your vehicle to the NissanConnect<sup>SM</sup> Services Data Center and NissanConnect<sup>SM</sup> Services Response Center using the TCU (Telematics Control Unit) installed in your vehicle.

#### WARNING

- **Radio waves could adversely affect electric medical equipment. Individuals who use a pacemaker should contact the device manufacturer regarding any possible effects before using the system.**
- **The TCU antenna is installed inside the upper central part of the instrument panel. An occupant should not get any closer to the antenna than specified by the pacemaker manufacturer. The radio waves from the TCU antenna may adversely affect the operation of the pacemaker while using the NissanConnect<sup>SM</sup> Services.**
- **Please note that the Automatic Collision Notification (ACN) service and Emergency Calling (E-Call)**

5-5

## 5. Information

function cannot be used in the following conditions:

- The vehicle moves outside the NissanConnect<sup>SM</sup> Services area and connection with the TCU (Telematics Control Unit) is affected.
- The vehicle is in a location with poor signal reception such as a tunnel, underground parking, behind a building or in a mountainous area.
- It may not be possible to make an emergency call depending on the severity of a collision and/or emergency.
- Emergency functions and services will not be available without a paid subscription to NissanConnect<sup>SM</sup> Services.
- The Automatic Collision Notification (ACN) service may not function properly depending on the severity of a collision and/or emergency.

### INFO:

- NissanConnect<sup>SM</sup> Services features are dependent upon subscription enrollment and the telematics device being in operative condition, cellular connectivity, navigation map data and GPS satellite signal reception. Terms and conditions of the NissanConnect<sup>SM</sup> Services Subscription Agreement apply.
- Enrollment is required in order to receive NissanConnect<sup>SM</sup> Services. The services that can be received vary depending on the plan in which you are enrolled.
- A six-month trial is included beginning on the date of purchase, however you must still be enrolled and activated to use services.
- After the trial period, you must enroll in a paid subscription for NissanConnect<sup>SM</sup> Services to continue using the features. The services that can be received vary depending on the plan to which you subscribe.
- Laws in some jurisdictions may restrict the use of "Text-to-Speech." Check local regulations before using this feature.

NissanConnect<sup>SM</sup> Services may be updated. The latest detailed information is available on the following websites or from the support line.

#### **NissanConnect<sup>SM</sup> Services website:**

For U.S.

[www.nissanusa.com/connect](http://www.nissanusa.com/connect)

For Canada

[www.nissan.ca/nissanconnect](http://www.nissan.ca/nissanconnect)  
(English)

[www.nissan.ca/nissanconnect/fr](http://www.nissan.ca/nissanconnect/fr)  
(French)

#### **NissanConnect<sup>SM</sup> Services support line:**

1-855-426-6628

- **Roadside Assistance Service:**

Enhanced Roadside Assistance allows you to receive assistance from the Roadside Response Specialist for a non-emergency incident that requires a towing or third-party response service. The service is accessed by touching the Voice Menu button on the navigation screen. Roadside Assistance may also be used in conjunction with the Emergency Assistance service, if warranted.

["Emergency support" \(page 5-13\)](#)

## 5. Information

- **Emergency Calling (E-Call):**

The Emergency Calling (E-Call) feature provides emergency assistance by connecting to a Response Specialist. In the event of an emergency, by push the in-vehicle <SOS> button to use this feature. The Response Specialist provides various assistance depending on the situation.

 "Emergency support" (page 5-13)

- **Automatic Collision Notification (ACN):**

The TCU (Telematics Control Unit) generates a signal automatically to the NissanConnect<sup>SM</sup> Services Response Center in the case of an accident severe enough to trigger one of the vehicle's air bags. Upon the signal, a Response Specialist receives the vehicle location and customer information and notifies the proper authorities in accordance with established policies and procedures.

- **Curfew Alert:**

Customers can set time interval for acceptable and unacceptable operation of the vehicle via NissanConnect<sup>SM</sup> Portal Website and NissanConnect<sup>SM</sup> Services Companion App. If the time restrictions are violated, the customer will be automati-

cally notified (e-mail, text message, or phone call).

- **Remote Door Lock/Unlock:**

The Remote Door Lock/Unlock feature allows the customer to access the vehicle remotely from the NissanConnect<sup>SM</sup> Services website or Companion App to send lock or unlock commands to the vehicle.

 "Connecting to Interactive Voice Menu" (page 5-10)

- **Remote Sound Horn and Flash Lights:**

Customers can activate the vehicle's headlights and horn via the NissanConnect<sup>SM</sup> Services website or Companion App.

- **Remote Engine Start:**

If the vehicle is equipped with both TCU (Telematics Control Unit) and Remote Start, customers can remotely start the vehicle via the NissanConnect<sup>SM</sup> Services website or Companion App.

- **Alarm Notification:**

Customers will be notified if the vehicle alarm system is activated based on their notification preferences (e-mail, text, phone call).

- **Boundary Alert:**

Customers can set an area for the vehicle to stay in or out of via the NissanConnect<sup>SM</sup> Services website or Companion App. Customers will be notified when vehicle is out-of-bounds based on their notification preferences (e-mail, text, phone call).

- **Maintenance Alert/Reminder:**

The center sends maintenance and other relevant info. to registered e-mail address (PC/Mobile) based on the vehicle information (e.g. driving mileage and etc.) sent at the center access timing. Details of vehicle information are separately examined.

- **Journey Planner:**

Customers can create a multiple way-point route via Journey Planner on the NissanConnect<sup>SM</sup> Services website and send the details directly to their vehicle.

- **Destination Download:**

Customers can search for different locations via the NissanConnect<sup>SM</sup> Services website and send them directly to their vehicle.

- **Connected Search:**

Customers can access Internet search engines directly from the vehicle to

## 5. Information

find exact destinations to navigate to.

- **Stolen Vehicle Locator:**

In the event that the customer's vehicle is stolen, after filing a police report the customer can contact NissanConnect<sup>SM</sup> Services via phone and report the vehicle stolen. At that point, NissanConnect<sup>SM</sup> Services emergency support staff will work with authorities to attempt to recover the vehicle.

- **Valet Alert:**

Customers will be notified if their vehicle is driven more than 0.2 miles once they activate Valet Alert via the NissanConnect<sup>SM</sup> Services website or Companion App.

### Notice to Bluetooth® Hands-Free Phone users

The Bluetooth® Hands-Free Phone System will be disabled and not be able to take phone calls while the vehicle is connected to the NissanConnect<sup>SM</sup> Services Response Specialists or the emergency support staff at the NissanConnect<sup>SM</sup> Service Response Center. This is to avoid various services by NissanConnect<sup>SM</sup> Services Response Specialists (such as Assisted Search) and NissanConnect<sup>SM</sup> Services emergency support staff being interrupted by incom-

5-8

ing calls. Incoming phone calls received while the vehicle is connected to the Service Center will not be listed in the call history of the Bluetooth® Hands-Free Phone System. However those incoming calls may be listed in the call history of your mobile phone, depending on its capabilities. After disconnecting communication with the NissanConnect<sup>SM</sup> Services Response Specialist or NissanConnect<sup>SM</sup> Services emergency support staff, check the incoming call history on your mobile phone when it is safe to do so.

### Service application

A separately purchased NissanConnect<sup>SM</sup> Services subscription is required. For more details, refer to the NissanConnect<sup>SM</sup> Services website or contact the NissanConnect<sup>SM</sup> Services support line.

#### NissanConnect<sup>SM</sup> Services website:

### Operating tips

AIVINJN1-1B98368B-E567-43F0-A4F2-C01EC0EA40F0

#### WARNING

- **Use NissanConnect<sup>SM</sup> Services after stopping your vehicle in a safe location. If you have to use NissanConnect<sup>SM</sup> Services while driving, exercise extreme caution at all times so full attention may be given to vehicle operation.**
- **If you are unable to devote full attention to vehicle operation while talking with the NissanConnect<sup>SM</sup> Services, pull off the road to a safe location and stop your vehicle.**
- Do not use NissanConnect<sup>SM</sup> Services with the engine or the hybrid system stopped. Doing so may discharge the

## 5. Information

vehicle battery.

- NissanConnect<sup>SM</sup> Services cannot be used under the following conditions:
  - NissanConnect<sup>SM</sup> Services subscription has expired.
  - The vehicle is outside the area where the cellular network service is receivable.
  - The vehicle is in a location with poor signal reception such as tunnels, underground parking garages, behind buildings or in mountainous areas.
  - The line is busy.
  - The TCU (Telematics Control Unit) or other systems of your vehicle are not working properly.
  - The NissanConnect<sup>SM</sup> Services network system is disabled.
- Information Feeds download cannot be used when the vehicle is connected to the NissanConnect<sup>SM</sup> Services Data Center and NissanConnect<sup>SM</sup> Services Response Center.
- Communication with the NissanConnect<sup>SM</sup> Services Data Center is related to the data communication mode and may cause occasional difficulty in receiving signals, and the signal recei-

vable area may be limited compared to regular mobile phones.

- You may hear clicks or experience interruptions while speaking with the NissanConnect<sup>SM</sup> Services Response Specialists. This is due to a shift in the connection zone and is not a malfunction.
- Depending on the line used, the sound volume may decrease. Adjust the volume as necessary.
- Received sounds may be distorted or ambient noise may sound like voices of a crowd. This is due to the use of the digital line and is not a malfunction.
- You may hear your own voice from the speaker when talking with the NissanConnect<sup>SM</sup> Services Response Specialists due to a network disturbance. When this occurs, reconnect the line after a few minutes or at a different location.
- This vehicle incorporates a communication device that is called a TCU (Telematics Control Unit). The communication connection between this unit and the NissanConnect<sup>SM</sup> Data Center allows for various services. When the system connects to the NissanConnect<sup>SM</sup> Data Center, an antenna icon

will appear in the upper right corner of the screen. Use the service in a location where the symbol representing good signal reception appears on the screen.

 : When the signal reception is good  
 : When the signal reception is bad

- NissanConnect<sup>SM</sup> Services uses the TCU (Telematics Control Unit). Even if the signal strength bar of the in-vehicle data communication module indicates good reception, connection to the NissanConnect<sup>SM</sup> Data Center may be disabled. This does not indicate a malfunction. Operate the system again after a few minutes.

### NISSANCONNECT<sup>SM</sup> SERVICES MENU

AIVINJN1-F0273C25-12FE-4DB7-B66D-1C90E9FC4E99

With NissanConnect<sup>SM</sup> Services, various information can be received and displayed on the screen. The information can also be announced by the system.

1. Push **<MENU>** and then touch [Info] on the Launch Bar.
2. Touch [NissanConnect Services].
3. Select an item from the NissanConnect<sup>SM</sup> Services menu screens.

## 5. Information

Available items	Content
[Call Nissan Assistance]	The system connects to the NissanConnect <sup>SM</sup> Services center. Various services to support your driving are available by answering Interactive Voice Menu.  "Connecting to Interactive Voice Menu" (page 5-10)

- Destination Assistance  
Set a destination using an Interactive operator system.
- Roadside Assistance  
Connect to the Roadside Response Specialist.
- Valet Alert  
Turns on the Valet Alert function and monitors the vehicle move-

## 5. Information

ment within a certain range.

### INFO:

- You can also connect to the NissanConnect<sup>SM</sup> Services Interactive Voice Menu by touching the Voice Menu button ① on the map.
- After selecting [Call Nissan Assistance], it may take some time until the system initiates connection, depending on the technical environment and whether the TCU (Telematics Control Unit) is being used by other services.
- To avoid disconnecting the line, do not turn off the engine or the hybrid system.

### Message Box

AIVINJN1-D3B19AAA-3DC2-4413-A9B6-ABCF17B88AC1

Messages previously received from the NissanConnect<sup>SM</sup> Data Center are displayed in the Message Box.

1. Push **<MENU>** and then touch [Info] on the Launch Bar.
2. Touch [NissanConnect Services].
3. Touch [Message Box].
4. A message list is displayed. Touch preferred message from the list.

### Viewing message box:

In addition to messages, the Message Box also stores information feeds.

1. Push **<MENU>** and then touch [Info] on the Launch Bar.
2. Touch [NissanConnect Services].
3. Touch [Message Box]. A list screen is displayed.
4. Touch a preferred folder. A list of messages is displayed. The content is announced by the system (Text-to-Speech) while the vehicle is being driven, or if parked, you can read the content on the display.

### INFO:

- Touch [Stop] during communication with the NissanConnect<sup>SM</sup> Services Data Center to cancel the connection.
- A message is displayed when the communication is disconnected while downloading information due to a poor communication status. Select [Yes] to restart the download.
- Laws in some jurisdictions may restrict the use of "Text-to-Speech." Check local regulations before using this feature.
- Some terminology such as personal names, place names, special terms, symbols, etc. may not be announced correctly. This is not a malfunction.
- The system will pause announcements when interrupted by the voice guidance given by the navigation system. When the voice guidance finishes, the system will restart the announcement.
- The volume can be adjusted when the system announces the information.  
 ["Volume and Beeps settings"](#)  
 (page 2-19)

## 5. Information

- The selected content is read out while the vehicle is being driven, or if parked, you can read the content on the display.

### EMERGENCY SUPPORT

AIVINJ-N-2C-B95563-4BC2-4C4A-86CF-91272A2AE414  
NissanConnect<sup>SM</sup> Services provides various services to support dealing with emergencies of the subscribed vehicle and the driver.

For example, in case of an illness or serious injury, you can seek support by pushing the in-vehicle <SOS> button and connecting to NissanConnect<sup>SM</sup> Services. NissanConnect<sup>SM</sup> Services can specify the location of the vehicle via GPS, and the information will be sent to the police or other agencies as needed.

For information about other NissanConnect<sup>SM</sup> Services emergency support related services, refer to the NissanConnect<sup>SM</sup> Services website or contact the NissanConnect<sup>SM</sup> Services support line.

#### NissanConnect<sup>SM</sup> Services website:

For U.S.

(French)

**NissanConnect<sup>SM</sup> Services support line:**

1-855-426-6628

### WARNING

- Please note that the Automatic Collision Notification service and Emergency Call function cannot be used in the following conditions:
  - Emergency functions and services will not be available without a paid subscription to NissanConnect<sup>SM</sup> Services.
  - The NissanConnect<sup>SM</sup> Services network system is disabled.
  - The vehicle moves outside the service area where the TCU (Telematics Control Unit) is connected to the system.
  - The vehicle is outside the area where the cellular network service is receivable.
  - The vehicle is in a location with poor signal reception such as tunnels, underground parking garages, behind buildings or in mountainous areas.
- The line is busy.
- The TCU (Telematics Control Unit) or other systems of your vehicle are not working properly.
- It may not be possible to make an emergency call depending on the severity of a collision and/or emergency.
- Park the vehicle in a safe location and set the parking brake before operating <SOS>.
- Only use this service in case of an emergency. There may be a penalty for inappropriate use of the service.
- Radio waves could adversely affect electric medical equipment. Individuals who use a pacemaker should contact the device manufacturer regarding any possible effects before using the system.
- The TCU (Telematics Control Unit) antenna is installed inside the upper central part of the instrument panel. An occupant should not get any closer to the antenna than specified by the pacemaker

## 5. Information

manufacturer. The radio waves from the TCU antenna may adversely affect the operation of the pacemaker while using the NissanConnect<sup>SM</sup> Services.

### Making an emergency call

1. Push **<SOS>**.
2. When the line is connected, speak to the Response Specialist.

If you want to cancel the emergency call, push and hold **<SOS>** for a few seconds.

#### INFO:

- After **<SOS>** is pushed, it may take some time until the system initiates connection, depending on the technical environment and whether the TCU (Telematics Control Unit) is being used by other services.
- An indicator light on **<SOS>** shows the readiness of the emergency support system. If the indicator light is not illuminated, pushing **<SOS>** does not connect your vehicle to the Response Specialist.  
The indicator light blinks while connected to the NissanConnect<sup>SM</sup> Services Response Center.
- Even when the indicator light is illuminated, connection to the NissanConnect<sup>SM</sup> Services Response Center may not be possible. If this occurs in an emergency situation, contact the authorities by other means.
- To avoid disconnecting the line, do not turn off the engine or the hybrid system.

	[Delete Shared Vehicle Information]	Delete the shared vehicle information.
[Unit ID Information]		Display the Unit ID, TCU (Telematics Control Unit) ID, SIM ID and VIN Information necessary for user registration.
[Reset all NissanConnect Svcs. Settings to Default]		All NissanConnect <sup>SM</sup> Services settings are returned to default.
[Vehicle Data Transmission Setting]		When [OK] is touched, data transmission to the NissanConnect <sup>SM</sup> Data Center is enabled. Touch [Decline] to disable the Nissan-Connect <sup>SM</sup> Services functions.

## 5. Information

### SiriusXM TRAVEL LINK (if so equipped)

AIVINJN1-20002703-B1B8-4022-8CC0-3025C4D3EEF9  
This service provides real-time information regarding current weather, fuel prices, parking information, sports scores, movie times and stock tickers. It is necessary to subscribe to use the SiriusXM Travel Link information.

The SiriusXM Travel Link is broadcast to the vehicle by SiriusXM Satellite Radio.

#### WARNING

**SiriusXM Travel Link information is not a substitute for attentive driving. Weather conditions change constantly and emergency situations can arise without warning. Relying only on SiriusXM Travel Link information could result in serious personal injury.**

### VIEWING SiriusXM TRAVEL LINK

	[Search for a Theater]	Search for a theater or movie by inputting the name of the theater or movie.
	[Search for a Movie]	

## 5. Information

### Apple CarPlay

AIVINJN1-2F4A0198-4EA3-402B-905C-8A97B30EE3C1

#### WARNING

- **Stop your vehicle in a safe location and apply the parking brake before connecting your iPhone® to the vehicle or operating your connected iPhone® for setup.**
- **If you are unable to devote full attention to vehicle operation while using Apple CarPlay, pull off the road to a safe location and stop your vehicle.**

You can use Apple CarPlay by connecting a compatible iPhone® to your vehicle via a USB cable.

With Apple CarPlay, your in-vehicle system can be used as a display and a controller for some of the iPhone® functions. Apple CarPlay features Siri which enables operations via voice controls. Visit [Apple.com](http://Apple.com) for information about the functions that are available and details about Apple's privacy policy.

Certain vehicle information (e.g. location and speed) may be shared with your device while Apple CarPlay is in use. Carrier charges may apply to use Apple

CarPlay.

### COMPATIBILITY

AIVINJN1-57200BDF-E943-45F8-9ED1-7BFD321F3774

The following iPhone® models support Apple CarPlay.

Model	Firmware version
iPhone® 5 or later	iOS 8.4 or later

Refer to the Apple website for more information.

#### INFO:

- For best results, always update your device to the latest software version.
- CarPlay will take the place of your Bluetooth® audio and Bluetooth® Hands-Free Phone functionality.
- Phone menu and access to the connected phone through voice recognition system will be disabled while Apple CarPlay is connected. To access your phone, use the Siri function or select the phone icon in the Apple CarPlay top menu screen.

### Apple CarPlay OPERATION

AIVINJN1-A682AF5E-1560-4F44-8560-DO4EE0074E05

1. Connect the iPhone® to the USB connection port.  
 "USB (Universal Serial Bus) Connection Ports and AUX (auxiliary) input jack" (page 2-4)
2. Depending on the setting, a Startup Information screen will appear. Touch [Yes] to use Apple CarPlay.

#### INFO:

If you do not wish to display the Startup Information screen each time you activate Apple CarPlay, touch [Don't ask anymore] on the Startup Information screen. The Startup Information screen will not be displayed from the next Apple CarPlay activation. The Startup Information screen can be set to appear again in the Apple CarPlay setting menu.

 "Apple CarPlay settings" (page 5-22)

3. The Apple CarPlay top menu screen will appear. The iPhone® functions displayed on the screen should now be operable using the in-vehicle system.
4. To return to the Apple CarPlay top menu screen after detailed operation,

## 5. Information

touch  on the lower corner of the Apple CarPlay screen.

5. To exit the Apple CarPlay screen and return to the NissanConnect<sup>SM</sup> menu screen, touch [NISSAN].

### INFO:

When pushing the buttons such as **<MENU>** on the control panel, the corresponding display to the button is displayed.

6. To return to the Apple CarPlay screen, touch [CarPlay] on the Launch Bar.

### INFO:

When your iPhone® is locked, Apple CarPlay can still be activated by operating the iPhone® and allowing Apple CarPlay activation when asked.

### Siri operation

AIVINJN1-016CA560-9A82-4480-ACFF-C212BEB65587

With Siri, some of the functions in your iPhone® can be voice controlled.

Make sure that Siri on your iPhone® is turned on.

### Activation:

There are two ways to start a Siri session.

5-22

Condition:

- Push and hold  on the steering wheel.
- Touch and hold  at the lower corner of the Apple CarPlay screen.

### INFO:

- Push  or touch  to end Siri operation.
- Keep the interior of the vehicle as quiet as possible. Close the windows to eliminate the surrounding noises (traffic noises, vibration sounds, etc.), which may prevent the system from recognizing the voice commands correctly.
- For functions that can be used with Siri, please refer to the Apple website.

### Phone operation

AIVINJN1-CA86E5DA-1E0E-4802-B5B9-38BE55174E6

If you wish to use your phone while Apple CarPlay is activated, follow the procedure below:

1. Touch [Phone] on the Apple CarPlay top menu.
2. Operate the screen displayed to make a call, etc.

### Apple CarPlay SETTINGS

AIVINJN1-65850203-2BC2-4381-947B-B8A88B6EF111

1. Touch [Settings] on the Launch Bar.
2. Touch [Apps].
3. Touch [Apple CarPlay].

### Available items:

- [Apple CarPlay]:  
When this item is turned on, Apple CarPlay will activate automatically when a compatible iPhone® is connected to USB connection port.
- [Show Startup Information]:  
Allows you to set whether or not to show the Apple CarPlay Startup Information screen upon each iPhone® connection.  
 ["Apple CarPlay operation" \(page 5-21\)](#)
- [Nissan's Help for Apple CarPlay]:  
Displays helpful tips for Apple CarPlay operation.

### Apple CarPlay SYSTEM LIMITATIONS

AIVINJN1-DE810B65-32DE-4575-96BD-BF2007415096

For all features of Apple CarPlay to operate correctly, it is necessary to have a compatible iPhone®, a cellular connection and a data plan.

When Apple CarPlay is operating, system performance is affected by the strength of

## 5. Information

the cellular connection or performance of the phone itself. If performance of the system decreases:

- Disconnect and reconnect your phone
- Close all apps and restart them
- Cycle phone power off/on to restart

It is also recommended to use the Apple Lightning cable that was provided with your phone and confirm the latest software version is installed.

Functionality of Apple CarPlay may decrease or be lost if there are changes to operating systems, hardware, software or other technologies central to supporting the system that are outside of NISSAN's control. Changing government regulations may also affect operation of Apple CarPlay.

### Android Auto

GUID-412822B5-2ED1-4B16-AFE8-C7987322F2B9

#### WARNING

- **Stop your vehicle in a safe location and apply the parking brake before connecting your compatible smartphone to the vehicle or operating your connected smartphone for setup.**
- **If you are unable to devote full attention to vehicle operation while using Android Auto, pull off the road to a safe location and stop your vehicle.**

You can use Android Auto by connecting a compatible Android smartphone to your vehicle via a USB cable.

With Android Auto, your in-vehicle system can be used as a display and a controller for some of Android device functions. Android Auto features voice controls. Visit [Android.com/auto](https://www.android.com/auto) for information about the functions that are available and details about Google's privacy policy.

Certain user and vehicle information (location and speed for example) may be shared with your device while Android Auto is enabled for use. Carrier charges

may apply to use Android Auto.

### COMPATIBILITY

GUID-182297CC-D302-4CCC-ABC9-9C0A51082A34

For details about compatibility, visit the Android Auto website.

#### INFO:

- For best results, always update your device to the latest software version.
- Bluetooth® audio and Bluetooth® Hands-Free Phone System cannot be used while Android Auto is active on the same smartphone.
- Phone menu and access to the connected phone through voice recognition system will be disabled while Android Auto is connected. To access your phone, use the Talk to Google function or select the phone icon in the Android Auto top menu screen.

### INITIAL Android Auto SETTINGS

GUID-52E7591D-B45F-4A36-9262-529DFD5AAF96

Before using Android Auto, the Android Auto app must be downloaded on your smartphone.

For downloading the Android Auto app, refer to the Google Play website.

It may be necessary to operate the smartphone to select the item when connected first. Depending on the selec-

## 5. Information

tion such as approval, some of the features of Android Auto is not available.

### Android Auto OPERATION

GUID: D0FCADBE-7B14-4C0C-9561-B2096C501B47

Unlock your phone's screen before connecting your smartphone.

1. Connect your smartphone to the USB connection port.
  - ✎ "USB (Universal Serial Bus) Connection Ports and AUX (auxiliary) input jack" (page 2-4)
2. Depending on the setting, a Startup Information screen will appear. Touch [Yes] to use Android Auto.

#### INFO:

- If you do not wish to display the Startup Information screen each time you activate Android Auto, touch [Don't ask anymore] on the Startup Information screen. The Startup Information screen will not be displayed from the next Android Auto activation. The Startup Information screen can be set to appear again in the Android Auto setting menu.
- Bluetooth® will be turned on automatically when Android Auto is connected to the vehicle.

5-24

Condition:

- Some functions of Android Auto are not available if the Bluetooth® is not connected.
3. The Android Auto top menu screen will appear. Use Android Auto by touching the screen or using voice operation.
  4. To exit the Android Auto screen and return to the NissanConnect<sup>SM</sup> menu screen, touch [⏪].

#### INFO:

When pushing the buttons such as <MENU> on the control panel, the corresponding display to the button is displayed.

5. To return to the Android Auto screen, touch [Android Auto] on the Launch Bar.

#### INFO:

- Unlock your phone's screen before connecting your smartphone.
- While the smartphone is connected to Android Auto, the phone operations such as making or receiving calls can only be done with Android Auto.

### Talk to Google operation

GUID: AD68863B-24C2-483F-BD02-E7D3E5384D38

Android Auto also supports voice operation.

#### Activation:

There are two ways to start voice operation.

- Push and hold <Ⓜ> on the steering wheel.
- Touch [Ⓜ] at the Android Auto screen.

#### INFO:

- Push <Ⓜ> or touch [Ⓜ] to end voice operation.
- Keep the interior of the vehicle as quiet as possible. Close the windows to eliminate the surrounding noises (traffic noises, vibration sounds, etc.), which may prevent the system from recognizing the voice commands correctly.
- For functions that can be used, refer to the Google website.

## 5. Information

### Android Auto SETTINGS

GUID-EC243861-E1D2-4256-996B-13627A0E5F53

1. Touch [Settings] on the Launch Bar.
2. Touch [Apps].
3. Touch [Android Auto].

#### Available items:

- [Always start Android Auto]:  
When this item is turned on, Android Auto will activate automatically when a compatible smartphone is connected to the USB connection port.
- [Ask to Start Android Auto]:  
Allows you to set whether or not to show the Android Auto Startup Information screen upon each Android device connection.
- [Nissan's Help for Android Auto]:  
Displays helpful tips for Android Auto operation.

### Android Auto SYSTEM LIMITATIONS

GUID-8FE5B302-BFD6-4E24-8F49-0F52508F7E4A

For all features of Android Auto to operate correctly, it is necessary to have a compatible smartphone and a data plan.

When Android Auto is operating, system performance is affected by the strength of the cellular connection or performance of the phone itself. If performance of the system decreases:

- Disconnect and reconnect your phone
- Close all apps and restart them
- Cycle phone power off/on to restart

It also should be confirmed that the latest software version is installed on the cellular phone.

Functionality of Android Auto may decrease or be lost if there are changes to operating systems, hardware, software or other technologies central to supporting the system that are outside of NISSAN's control. Changing government regulations may also affect operation of Android Auto.

## 6. Navigation (if so equipped)

### SAFETY INFORMATION

AIVINJN1-86E86BA3-BF7E-40C4-BA2C-BCE97C60A7D2  
The navigation system is primarily designed to help you reach your destination. However, you, the driver, must use the system safely and properly. Information concerning road conditions, traffic signs and the availability of services may not always be up to date. The system is not a substitute for safe, proper, and legal driving.

#### WARNING

**Do not rely on route guidance alone. Always be sure that all driving maneuvers are legal and safe in order to avoid accidents.**

### NAVIGATION SCREEN

#### DISPLAYING NAVIGATION SCREEN

Push **<MAP>** or push **<MENU>** and touch [Map] on the HOME MENU Launch Bar to display the navigation screen.

The current location map is displayed and map functions can be operated. Destination settings or other navigation operations are also available from the Launch Bar.

#### LAUNCH BAR

UID-D5D4DD54-609E-45E6-8000-80EE515CBEAF  
The Launch Bar displays key functions related to operating the navigation system. Displayed items vary depending on the route settings.

During route guidance

Non route guidance

## 6. Navigation (if so equipped)

[Go Home]	Sets the home location as a destination.  "Setting home or work location as destination" (page 6-19)
[POI]	Search for a Point of Interest to set as a destination.  "Finding points of interest" (page 6-20)
[Destination]	Display the destination menu.  "Setting destination" (page 6-15)
[Zoom Out]	Zoom out the map.  "Changing scale of map" (page 6-7)
[Zoom In]	Zoom in the map.  "Changing scale of map" (page 6-7)
[Cancel]	Cancel the route guidance.  "Canceling Route" (page 6-37)
[Route]	Display the route menu screen.  "Route menu" (page 6-34)

### MAP OPERATION

GUID-D4FC98C8-FC44-47CD-AB7C-DFB95B4C855A

#### MAP TYPES

AIVINJN1-8F144229-3732-40A7-B87E-81F06E4649A2

Two types of map views are available: 2D map and 3D map.

#### 2D map

AIVINJN1-EE372FB2-4CFF-45FF-B632-64E8205D13D0

The 2D map displays the map in a two-dimensional environment similar to a road map.

## 6. Navigation (if so equipped)

### Screen information:

- ① Destination:  
Indicates the location of the final destination.
- ② Suggested route:  
Appears in bold blue during route guidance.  
Green: Freeways included  
Blue: Freeways not included
- ③ Waypoint:  
Displays the location of the waypoint
- ④ Stored location:  
Displays the locations that are stored in the Address Book.  
 "Storing location" (page 6-48)  
The icons can be changed according to your preferences.
- ⑤ Next street name:  
Displays the next street name during the route guidance.

the vehicle will stop by before heading to the final destination. A maximum of 5 waypoints can be set.

- ⑥ Speed limit icon:  
Displays the speed limit of the road the vehicle is on.
- ⑦ Arrow and distance:  
Indicates the distance to the next guide point and the turning direction at that guide point.
- ⑧ Map Menu:  
Touch to display the Map Menu.  
 "Map Menu screen" (page 6-14)
- ⑨ Direction indicator:  
Indicates the directional setting of the map.  
Touch the icon to change the map view and the map orientation.  
 "Changing map view and map orientation" (page 6-8)
- ⑩ Remaining distance to the destination:  
Indicates the approximate remaining distance to the destination or waypoint. This indicator will appear when a destination or waypoint is set and route guidance is started.
- ⑪ Scale indicator:  
Indicates the scale of the map.

## 6. Navigation (if so equipped)

- ⑫ Estimated time to the destination:  
Indicates the estimated time to the destination or waypoint. This indicator will appear when a destination or waypoint is set and route guidance is started.  
 "Guidance settings" (page 6-44)
- ⑬ Traffic reception status indicator:  
Indicates the reception condition of the traffic information.  
Green: Reception condition is good.  
Gray: Reception condition is not good.
- ⑭  Vehicle icon:  
Indicates the current vehicle location and the direction the vehicle is heading.
- ⑮ Recommended lane indicator:  
The arrows and the recommended lane for driving is displayed depending on the current road and whether the destination is set or not.  
Blue: First recommendation  
White: Secondary recommendation  
Gray: Not recommended
- ⑯ Street name:  
Displays the name of the street that the vehicle is currently driving on.

6-6

Condition:

- ⑰ Voice Menu button (if so equipped):  
Touch the icon to connect to the NissanConnect<sup>SM</sup> Services Voice Menu.  
 "Connecting to Interactive Voice Menu" (page 5-10)

### 3D map

GUID-C63CE7A8-5F3A-43AB-9739-240E40D6FC71  
3D map displays the map from an elevated perspective. In 3D map, it is easy to recognize an image of the route because it provides a panoramic view over a long distance.

### INFO:

The map in 3D map always appears with the current forward direction facing up.

### Building graphics

AIVINJ-N-D52D68EF-B8E2-45F4-A665-3D4F393E1605  
Building graphics are stored in the map data for certain areas, and can be displayed when the map is zoomed in.

2D building graphics

3D building graphics

## 6. Navigation (if so equipped)

### INFO:

In an area where the building graphics are not stored in the map data, the normal map is displayed even when the map is zoomed in.

### ROAD COLOR

The road types are differentiated by color.

Dark Red	Freeway
Light Brown	Major Road
Light Green	Secondary Road
White	Local Road

### MOVING MAP

The map can be scrolled by touch screen. Map scrolling operations are limited while driving.

#### Touch:

2D map:

When the map on the screen is touched,

the cross pointer is displayed and the position touched is set as the center of the screen.

After moving the map, touch [↔] on the map screen or push <MAP> to display the current location map screen.

#### 3D map:

Touch the screen. The cross pointer is displayed at the center of the map. Touching the screen again will scroll the map toward the touched location.

#### Long touch:

Touch the direction to move to. The map continues to scroll while the screen is touched.

#### Drag:

Drag the map while the screen is touched to precisely scroll the map.

#### Swipe/flick:

Swipe or flick the screen to scroll the map screen quickly.

### CHANGING SCALE OF MAP

To change the map scale, touch [Zoom Out] or [Zoom In] on the Launch Bar. The scale bar is displayed.

The following operations can change the map scale while the scale bar is displayed:

- Touch [Zoom Out] or [Zoom In] on the Launch Bar
- Touch [⊖] or [⊕] on the scale bar
- Slide the scale bar indicator

### Changing map scale with touch panel operation

The map scale can also be changed by directly operating the map. Touch the map and display the cross pointer before performing the scale change.

## 6. Navigation (if so equipped)

### Pinch-in

5GB0246X

To view a wider area, pinch-in the map screen.

### Pinch-out

5GB0243X

To view the map in detail, pinch-out the map screen.

### INFO:

- While driving, pinch-in and pinch-out operations are disabled.

### Map scale

AIVINJN1-254B822A-980F-405F-9359-0273C1E3FD89

Map scale (map coverage) between 300 miles (500 km) and 1/64 mile (15 m) can be selected.

US Units	Metric Units
300 mi	500 km
125 mi	200 km
60 mi	100 km
30 mi	50 km
15 mi	25 km
7.5 mi	12.5 km
4 mi	6 km
2 mi	3 km
1 mi	1500 m
1/2 mi	750 m
1/4 mi	400 m
1/8 mi	200 m
1/16 mi	100 m
1/32 mi	50 m
1/64 mi	25 m
1/64 mi	15 m

### INFO:

Depending on the map scale, traffic information icons cannot be displayed on the map screen.

 "Traffic information on map" (page 6-46)

### CHANGING MAP

AIVINJN1-EE435B0C-944B-44A6-A02B-44DFEE72CD3F

### Changing map view and map orientation

AIVINJN1-35401E88-4D28-4449-AE8A-C5939593E4EA

The map view and the map orientation can be changed by touching  on the map screen.

The screen will change to North Up, Heading Up and 3D each time  is touched.

5GB0751X

North Up

## 6. Navigation (if so equipped)

Heading Up

5GB0752X

3D

5GB0704X

### INFO:

- You can also change the map view from the map view settings screen.  
 "Map settings" (page 6-9)
- A long range map is available that displays a wider area in the direction the vehicle is moving in the Heading Up view.  
 "Map settings" (page 6-9)

### Setting split screen

AIVINJN1-59764D97-54A7-4CDA-A1FE-D6101B420713

Two different maps can be displayed at once on a screen with the split screen setting.

5GB0710X

- Touch  on the map screen.
- Touch [Map Settings].
- Touch [Change View].
- Select [Split: 2D Map] or [Split: 3D Map].

### INFO:

The settings on the left split map can be changed from map view settings menu.  
 "Map settings" (page 6-9)

### MAP SETTINGS

AIVINJN1-1F6AA0DC-5FB8-4E2E-9C33-C843D820D840

The setup for the map view is performed from the Settings menu on the touch screen display.

- Touch  on the map screen.

- Touch [Map Settings].

### INFO:

[Map Settings] can also be accessed from [Settings] on the Launch Bar.

 "Navigation settings" (page 6-56)

## 6. Navigation (if so equipped)

Available setting items may vary depending on models and specifications.

Menu item	Action	
[Change View]	[2D Map]	Displays 2D map.
	[3D Map]	Displays 3D map.
	[Split: 2D Map]	Displays 2D map on both left and right side of the split screen. You can see the different scale and settings of 2D maps at the same time.
	[Split: 3D Map]	Displays 2D map on the left side and 3D map on the right side of the screen.
[View Settings]	[Intersection]	Displays the enlarged view of intersection on the left side of the screen during route guidance. ☞ "Route guidance screens" (page 6-32)
	[Turn List]	Displays the turn list on the left side of the screen when a route is set. ☞ "Route guidance screens" (page 6-32)
	[Drive Report]	Displays your Eco drive report on the left side of the screen. Touch [History] to view the Drive Report history. Touch [Reset] to clear the past records. Touch [000] to switch to the full Eco drive report screen. Push <MAP> to switch to the full map screen.
	[Full Map]	Displays full map screen.
[Map Icons]	Select the categories of POI icons to be displayed on the map screen. ☞ "Displaying map icons" (page 6-13)	
[Others]	[Map Orientation]	The map orientation can be selected from North Up or Heading Up. [Map Orientation] is available only when 2D map is displayed.

## 6. Navigation (if so equipped)

Menu item		Action
	[Long Range]	The position of the vehicle icon can be changed to view a wider area in the traveling direction. The vehicle icon is located slightly lower than the center of the screen. Long Range is available only when the map view is "Heading Up".
[Left Split Map Settings]	[Map Orientation]	The map orientation for the left side of split screen can be selected from North Up or Heading Up.
	[Long Range]	Long Range Map View is available only when the left side of split screen is in Heading Up mode. With this item turned on, the vehicle position icon on the left screen will be located slightly lower than the center of the screen so that a wider area in the traveling direction can be viewed.
	[Map Scale]	Allows to change the scale of the map displayed on the left side of the split screen.
	[Audio Display on Map]	Turns on/off the audio information displayed at the top of the screen.
	[Map Color]	Sets map color from Color 1 - 4.
[Map Text Size]	[Large]	Sets the font size of text displayed on the map screen.
	[Medium]	
	[Small]	
[Select Text to Display on Map]	[Place Names]	Allows place names to be displayed on the map screen.
	[Facility Names]	Allows facility names to be displayed on the map screen.
	[Road Names]	Allows road names to be displayed on the map screen.
	[Map Scrolling Information]	The icons and information can be set which appear on the map screen when the map scrolling is made.  <a href="#">"Displaying map scrolling information" (page 6-13)</a>

## 6. Navigation (if so equipped)

Menu item		Action
[Tracking Dots Displayed on Map]	[Show Tracking Dots on Map]	Turns the route tracking dots display on/off.
	[Dist. between Tracking Dots]	Select the interval between tracking dots.
	[Delete Track to Current Location]	Deletes the route tracking dots up to the current location.
	[Show All Freeway Exits on Route]	Turns on/off the freeway exit information display.
	[Auto. Show Turn List on Freeway]	The turn list can be displayed automatically while driving on a freeway.
	[North Up when Zoomed Out]	When this setting is ON, the orientation of the map is automatically changed to North Up when the widest map scale is selected.
[Back to Map]		Back to the current location map.

## 6. Navigation (if so equipped)

### SETTING INFORMATION ON MAP

AIVINJN1-571EE76C-6CCB-4E21-8682-A57D3A386B15

Some information on the map can be displayed or hidden.

### Displaying map icons

AIVINJN1-AA72987D-2743-4761-9338-7DED04C38996

Displays map icons of certain points of interest (such as restaurants and gas stations, etc.) on the map.

1. Touch [Settings] on the Launch Bar.
2. Touch [Navigation].
3. Touch [Map Settings].
4. Touch [Map Icons].

5. Touch the preferred icon. The indicator of the selected icon illuminates.

### Available setting icons

- Restaurant
- Gas Station
- Hotel
- ATM
- Rest Area

### INFO:

- [Map Icons] can also be accessed from  on the Map screen.
- If brand icons are registered in the map data, the brand will be displayed on the map instead of the general map icons.

### Displaying map scrolling information

AIVINJN1-7E953B13-E5EF-41C1-88FC-C5E9ABF8FE53

5GB071X

Information about the location, on which the center of the cross pointer is placed by scrolling on the map, can be set to be displayed.

1. Touch [Settings] on the Launch Bar.
2. Touch [Navigation] and touch [Map Settings].
3. Touch [Others].
4. Touch [Map Scrolling Information].

5. Touch the preferred information item. The following information items are available.

- [Address Book Icons]
- [Traffic Icons]
- [Destination/Waypoint Icons]
- [Show Pop-Up for POIs]
- [Latitude/Longitude Info]

### INFO:

- When the settings are turned on, placing the cross pointer on the icons will display the information in a Pop-Up window. The latitude/longitude of any point on the map where the cross pointer is located will be displayed on the bottom left corner of the map screen.

- When the  is displayed on the Pop-Up window, destination can be set by touching it. Touch  to display the place information screen.

On the place information screen, touch [Call] to call the selected place if the key is available.

Touch [Go Here] to set the selected location as the destination.

## 6. Navigation (if so equipped)

### TRAFFIC INFORMATION ON MAP

AIVINJN1-76DF2039-9D48-4277-86E8-FF7C624B9B6D

SiriusXM Traffic information or Premium Traffic information is displayed on the map.

☞ "Traffic information on map" (page 6-46)

### MAP MENU SCREEN

AIVINJN1-0929BEAC-F11F-4396-A760-B4D3410181E5

Touch  while the current location map screen or a scrolled map screen is displayed to display the menu corresponding to that screen.

This menu can be used to quickly access helpful functions, such as setting a destination and searching for points of interest nearby.

### Current location map screen

AIVINJN1-EA83CF78-70AB-4C26-AB1F-C95D1370CA59

If  is touched while the current location map screen is displayed, the following options are available.

- [Save Location]: Saves the current vehicle location in the Address Book.  
☞ "Storing location by moving map" (page 6-49)
- [Points of Interest]: Sets the Points of Interest as a destination.  
☞ "Finding points of interest" (page 6-20)
- [Map Settings]: Map view settings can be changed.  
☞ "Map settings" (page 6-9)
- [Map Icons]: The map icons can be displayed or hidden by type.

☞ "Displaying map icons" (page 6-13)

- [Traffic Info Settings]: Set the various functions of the selected traffic information system.  
☞ "Traffic information on map" (page 6-46)
- [Cancel Route]: Delete destination and waypoints.  
☞ "Canceling Route" (page 6-37)

### Scrolled location map screen

AIVINJN1-A63AF447-9FDA-49B0-AA8F-A277E7E58E1F

If  is touched while a scrolled map screen is displayed, the following options are available.

- [New Dest.]: Sets the map location pointed at by the cross pointer as a new destination.  
☞ "Setting point on map" (page 6-28)

## 6. Navigation (if so equipped)

- [Add to Route]:  
Adds the map location pointed at by the cross pointer as a destination or a waypoint to the route already set.  
📖 "Setting destination or waypoint" (page 6-41)
- [Nearby POIs]:  
Searches for points of interest near the map location.  
📖 "Finding points of interest" (page 6-20)
- [Save Location]:  
Saves the map location pointed at by the cross pointer in the Address Book.  
📖 "Storing location by moving map" (page 6-49)
- [Delete]:  
Deletes a stored location or destination (waypoint) when the cross pointer is placed over an icon.  
📖 "Deleting individual item on map" (page 6-55)

### SETTING DESTINATION

AIVINJN1-501A39C4-2FAD-451F-B110-26D6B2F785A4

The system can provide route guidance once a destination is set.

### BASIC OPERATIONS

AIVINJN1-F50ACAED-A068-494D-AA64-CD603677AFC9

#### Displaying destination setting menu

AIVINJN1-B2EBC8BC-3B61-48B8-A7CB-A84B9994A079

There are several methods that can be used to set a destination. Select a preferred method for finding and setting a destination.

Push **<MAP>** and then touch [Destination] on the map Launch Bar.

## 6. Navigation (if so equipped)

Availability of the destination setting methods varies depending on the models and specifications.

### Available destination setting methods:

Setting item	Action
Quick Search Bar	Searches for a destination by inputting the address or POI names.  <a href="#">"Free Text Search" (page 6-18)</a>
[Go Home]	Searches for a route from the current location to the previously stored home location.  <a href="#">"Setting home or work location as destination" (page 6-19)</a>
[Street Address]	Searches for a destination by address.  <a href="#">"Finding address" (page 6-19)</a>
[Points of Interest]	Searches for a destination from various categories.  <a href="#">"Finding points of interest" (page 6-20)</a>
[Previous Destinations]	Searches for the destination from the previous destinations and a previous start point.  <a href="#">"Searching from previous destinations" (page 6-22)</a>
[Work]	Searches for a route from the current location to the previously stored work location.  <a href="#">"Setting home or work location as destination" (page 6-19)</a>
[Address Book]	Searches for a destination from the vehicle Address Book.  <a href="#">"Searching from address book" (page 6-22)</a>
[City Center]	Sets the center of a city as the destination.  <a href="#">"Setting city center" (page 6-23)</a>
[NissanConnect Services]	Search for a point of interest via the NissanConnect <sup>SM</sup> Services Data Center.  <a href="#">"Searching by connecting to the internet" (page 6-24)</a>
[Intersection]	Sets an intersection as a destination.  <a href="#">"Setting intersection" (page 6-25)</a>
[Phone Number]	Searches for a point of interest by a telephone number.  <a href="#">"Setting by phone number" (page 6-26)</a>
[Stored Routes]	Sets a route from the stored route data.  <a href="#">"Setting from stored routes" (page 6-26)</a>
[SXM Travel Link]	Sets a destination by using the SiriusXM Travel Link features.  <a href="#">"Setting with SiriusXM Travel Link" (page 6-27)</a>

6-16

## 6. Navigation (if so equipped)

[By Map]	Searches for a destination by map.  <a href="#">"Setting point on map" (page 6-28)</a>
[Latitude/Longitude]	Sets a destination from latitude and longitude.  <a href="#">"Setting with latitude/longitude" (page 6-28)</a>
[Door to Door Navigation]	Turns on/off Door TO Door navigation.

### INFO:

- After setting a destination, the location of the destination can be adjusted and the location can be stored in the Address Book, etc.  
 ["Options before starting the route guidance" \(page 6-30\)](#)
- The destination can be deleted.  
 ["Canceling Route" \(page 6-37\)](#)

## 6. Navigation (if so equipped)

### Specifying region

With some destination setting methods, state/province and city can be specified prior to searching for destination locations.

1. Push **<MAP>**.
2. Touch [Destination] on the Launch Bar.
3. Touch the desired search method.
4. Touch [State/Province] or [City] if displayed.
5. Enter the name of the state, province or city and then touch [List]. A list screen is displayed.
6. Touch the preferred state, province or city from the list.

### INFO:

- When the system is restarted, the state and province in which the vehicle is recognized by the GPS to be located will be set automatically as a state and province for location search.
- While entering the data, the expected words are displayed on the input screen. The list can be scrolled by touching [<] or [>].
- Touch [Change Area] to change the area for conducting the location search.
- Touch [Current State] to search for the destination within the state or province where the vehicle is currently located.
- After touching [City], touch [Last 5 Cities] to display the last 5 cities set as destinations.
- In some cases, when a city name has been entered, the number of matching destinations in the "Matches" column may be different from the number displayed on the list screen. If this occurs, enter more characters to further reduce the number of matches.

- It is not possible to search for a route from the continental United States or Canada to Hawaii, Virgin Islands, Puerto Rico, etc.

### FREE TEXT SEARCH

A location or facility can be searched by inputting POI name or Address.

1. Push **<MAP>**.
2. Touch [Destination] on the map Launch Bar.
3. Touch [Enter POI or Address].
4. Enter the POI name or address. After finishing the entry, touch [List]. A list of streets is displayed.

## 6. Navigation (if so equipped)

### INFO:

- While entering the facility name, the expected selections are displayed on the input screen. The list can be scrolled by touching [<] or [>].
  - When your vehicle is a Wi-Fi network, touching [Online Search] can search the location considering the latest information.  
 "Wi-Fi Setting" (page 2-17)
  - Touch [Option] to sort or narrow down the result.
5. Touch the preferred destination from the list. An entire route to the destination is displayed.
  6. Touch [Start] to start route guidance.

### SETTING HOME OR WORK LOCATION AS DESTINATION

The home or work location can be quickly set as the destination if the location is stored in advance.

1. Push <MAP>.
2. Touch [Destination] on the Launch Bar.
3. Touch [Go Home] or [Work].

### INFO:

- If the home or work location is not stored yet, the system will display a message asking if you wish to store a home or work location. Touch [Yes] to store the home or working place location.
-  "Storing home or work location" (page 6-48)
4. An entire route to the destination is displayed. Touch [Start] to start route guidance.

### INFO:

[Go Home] can also be accessed from the Launch Bar.

### Voice command

1. Push <  > located on the steering wheel.
2. After the tone sounds, speak a command.

Use the following voice command to set home or work as the destination:

"Go Home"  
"Work"

### FINDING ADDRESS

AIVINJN1-E974693C-B055-4844-9BBF-849E0623EC34

The system supports searching for a destination by address.

1. Push <MAP>.
2. Touch [Destination] on the Launch Bar.
3. Touch [Street Address]. The street address input screen is displayed.

4. Input the street address.
  - Touch [State/Province] to enter the state or province name.
  - Touch [House # & Street] to enter the house number and the street name. If the house number is not available, touch [No House #]. After finishing the entry, touch [List]. A list of streets is displayed.

Touch [City] to enter the city name. If the city name is not available, touch [All Cities].

## 6. Navigation (if so equipped)

### INFO:

- While entering the data, the expected words are displayed on the input screen. The list can be scrolled by touching [<] or [>].
  - Touch [Last 5 Cities] to display the last 5 cities set as destinations.
5. After entering the address, touch [OK]. The position of the selected location is displayed in the preview on the touch screen display.
  6. Touch [Start] to start route guidance.

### Voice command

1. Push < > located on the steering wheel.
2. After the tone sounds, speak a command.

Use the following voice command to search for a destination by address:  
"Street Address"

### FINDING POINTS OF INTEREST

AIVINJN1-E537C75F-F389-4D0C-BDC4-80E087FFBD4F

This allows you to find a facility by name or by category. Specify the region and city of the destination to find it more quickly.

### NOTE:

**Locations and business hours of facilities are subject to change, which may not be reflected in the map data. Double-check this information before you go to an emergency facility to ensure that you can receive the proper support. Otherwise, you may not receive emergency help when you arrive at the destination.**

**A confirmation message also appears on the navigation screen. Follow the displayed instructions and check the items required.**

### Searching for a POI by name

AIVINJN1-42622348-4B68-4A78-9240-986407C6723B

1. Push <MAP>.
2. Touch [POI] on the Launch Bar.
3. Touch [Spell Name]. A character input screen is displayed.

### INFO:

When a route is set, touch [Destination] on the Launch Bar and select [Point of Interest] to select [Spell Name].

5GB0718X

4. Enter the name of the destination facility. After finishing the entry, touch [List]. A list screen is displayed.

## 6. Navigation (if so equipped)

### INFO:

- While entering the facility name, the expected selections are displayed on the input screen. The list can be scrolled by touching [<] or [>].
- To search for a POI with two or more words, touch [Space] to enter a space between each word.
- A connection to a Wi-Fi network is necessary to use [Online Search] function.  
 "Free Text Search" (page 6-18)

The following optional functions are available by touching [Option] on the list.

- [Along Route]:  
If a route is already set, the system displays only the facilities located along the route.
- [Near Destination]:  
If a route is already set, the system displays only the facilities located near the destination.
- [Near Current Location]:  
The system displays only the facilities located near the current location.

- [Online Search]:  
The system searches the facilities using on-line network information.  
 "Free Text Search" (page 6-18)
  - [Select City]:  
Narrow down the list by specifying the city.
  - [Sort]:  
The list can be sorted by [By Distance] or [By Name].
5. Touch the preferred destination facility from the list.
  6. A map of the selected place is displayed. Touch [Start] to start route guidance.

### INFO:

- After setting a destination, the location of the destination can be adjusted and the location can be stored in the Stored Location, etc.  
 "Options before starting the route guidance" (page 6-30)

### Voice command

1. Push < > located on the steering wheel.
2. After the tone sounds, speak a command.

Use the following voice command to search for Points of Interest from a facility name:

"Points of interest <POI name>"

### Searching Points of Interest by category

AIVINJN1-351BE659-0AB9-473A-AC1A-38ABCADA93D6

1. Push <MAP>.
2. Touch [POI] on the map Launch Bar.
3. Touch [All Categories].
4. Touch the preferred category. The facility list is displayed.

5GB0719X

## 6. Navigation (if so equipped)

### INFO:

If the selected category has subcategory, a list will be displayed. Select a preferred sub-category. The POI categories to be used frequently can be registered in the Points of Interest menu.

5. Touch [Option] to narrow down, sort or refresh the list.  
 "Searching for a POI by name" (page 6-20)
6. Touch the preferred destination facility from the list.  
 Touch [Start] to start route guidance.

### INFO:

If there is no nearby POI, a message asking whether to search from an extended area will be displayed. When [Yes] is selected, the system starts to search for POI in a wider area.

### Voice command

1. Push < > located on the steering wheel.
2. After the tone sounds, speak a command.

Use the following voice command to search for Points of Interest from category:

"POI by Category"

### Customizing POIs

The POI categories displayed in the Points of Interest menu can be customized.

1. Push <MAP>.
2. Touch [POI] on the Launch Bar.
3. Touch [Customize POIs].
4. Touch the item number to be modified.
5. Touch the preferred POI category. Touch [YES] and the selected POI category is displayed in the Points of Interest menu.

### SEARCHING FROM PREVIOUS DESTINATIONS

A previous destination or a previous start point can be set as the destination.

Up to 100 previous destinations will be automatically stored. If the number of previous destinations exceeds 100, the oldest one is automatically deleted and the new destination is added.

1. Push <MAP>.
2. Touch [Destination] on the map Launch Bar.

3. Touch [Previous Destinations]. A list screen is displayed.
4. Touch the previous destination or a previous start point from the list.
5. Touch [Start] to start route guidance.

### Voice command

1. Push < > located on the steering wheel.
2. After the tone sounds, speak a command.

Use the following voice commands to display the previous destinations/start point list:

"Previous Destinations"

### SEARCHING FROM ADDRESS BOOK

Locations frequently visited can be stored in the Address Book and reused to set destinations.

"Storing location" (page 6-48)

1. Push <MAP>.
2. Touch [Destination] on the map Launch Bar.
3. Touch [Address Book].

## 6. Navigation (if so equipped)

4. Touch the preferred location from the list.

### INFO:

- Selecting [Sort] displays a list of various sort functions.
  - [Sorted by Number]:  
The Address Book entries are displayed in ascending numerical order.
  - [Sorted by Name]:  
The Address Book entries are displayed in alphabetic order.
  - [Sorted by Icon]:  
By selecting a particular icon, a list that contains only the Address Book entries associated with that icon is displayed.

- [Sorted by Group]:

By selecting a particular group (family, friends, leisure, etc.), the selected group is displayed at the top of the list.

- Touch [Add New] to add a new location.
5. The selected destination is displayed. Touch [Start] to start route guidance.

### Voice command

1. Push <  > located on the steering wheel.
2. After the tone sounds, speak a command.

Use the following voice command to set a destination from the Address Book:

"Address Book"

### SETTING CITY CENTER

It is possible to set the center of a specified city as a destination.

1. Push <MAP>.
2. Touch [Destination] on the map Launch Bar.
3. Touch [City Center]. A character input screen is displayed.

4. Enter the name of the city and touch [List]. A list screen is displayed.

### INFO:

Touch [Last 5 Cities] to display the last 5 cities recently set as destinations.

5. Touch the preferred destination from the list.
6. The selected destination is displayed on the map. Touch [Start] after confirming the location of the displayed destination.

### Voice command

1. Push <  > located on the steering wheel.
2. After the tone sounds, speak a command.

Use the following voice command to set city center as a destination:

"City Center"

## 6. Navigation (if so equipped)

### SETTING WITH NISSANCONNECT<sup>SM</sup> SERVICES (if so equipped)

It is possible to set the destination using the NissanConnect<sup>SM</sup> Services features.

☞ "NissanConnect<sup>SM</sup> Services" (page 5-5)

#### INFO:

Use of NissanConnect<sup>SM</sup> Services features is dependent upon a valid subscription and the telematics device being in operative condition, as well as cellular connectivity, navigation map data and GPS satellite signal reception being available.

### Searching by connecting to the internet

It is possible to find a point of interest by inputting a keyword and connecting to the Internet. The searched location can be set as a destination.

1. Push **<MAP>**.
2. Touch [Destination] on the Launch Bar.
3. Touch [NissanConnect Services].
4. Touch [Connected Search].
5. Enter the keyword and touch [List]. The system will connect to the NissanConnect<sup>SM</sup> Services Data Center and

6-24

Condition:

the search results will be displayed.

6. Touch the preferred destination from the list.
7. An entire route to the destination is displayed. Touch [Start] to start route guidance.

#### INFO:

- Connected Search is a NissanConnect<sup>SM</sup> Services feature. It is necessary to subscribe to NissanConnect<sup>SM</sup> Services in order to use the feature.
- The Connected Search can also be set by pushing **<MENU>** and touching [Info] on the Launch Bar, and then touching [NissanConnect Services].

### Using Destination Send to Car

Destination Send to Car enables you to search for destinations from a point of interest (POI) database accessed within the NISSAN Owner's Portal Website.

1. Push **<MAP>**.
2. Touch [Destination] on the Launch Bar.
3. Touch [NissanConnect Services].
4. Touch [Destination Send to Car].

5. Select the preferred folder.
6. Select the preferred channel. The list of destinations set using the NISSAN Owner's Portal Website is displayed.

7. Select the preferred destination from the list. The position of the selected location is displayed in the preview screen.

#### INFO:

- Select [Update List] to update the list of destinations.
  - The Destination Send to Car can also be accessed by pushing **<MENU>** and touching [Info] on the Launch Bar, and then touching [NissanConnect Services].
8. Touch [Start] to start route guidance.

## 6. Navigation (if so equipped)

### Using Journey Planner

GUID:29B1256C-E3A9-41EA-B986-49C11C62B7F2

It is possible to set the route according to a route plan created in advance using the NISSAN Owner's Portal Website.

#### INFO:

Use of NissanConnect<sup>SM</sup> Services features is dependent upon a valid subscription and the telematics device being in operative condition, as well as cellular connectivity, navigation map data and GPS satellite signal reception being available.

1. Push **<MAP>**.
2. Touch [Destination] on the Launch Bar.
3. Touch [NissanConnect Services].
4. Touch [Journey Planner]. The system will connect to the NissanConnect<sup>SM</sup> Services Data Center and display the Journey Planner list screen.

5. Select the preferred route plan from the list.

#### INFO:

- Touch [Update List] to update the list information.
6. An entire route to the destination is displayed. Touch [Start] after confirming the location of the displayed destination.

#### INFO:

- The Journey Planner can also be set pushing **<MENU>** and by touching [Info] on the Launch Bar, and then touching [NissanConnect Services].
- Journey Planner is a NissanConnect<sup>SM</sup> Services feature. Subscription is required to use the NissanConnect<sup>SM</sup> Services.
- Refer to the NISSAN Owner's Portal Website for how to set the destination using Journey Planner.

### Searching by using Voice Menu button on map

AIVINJN1-1F38A02D-BB30-4DCA-907E-78AAC84B2952

It is possible to set a destination by touching the Voice Menu button ① on the map. You can choose from the options provided by the voice guidance and speak your choice, or ask the NissanConnect<sup>SM</sup> Services Response Specialists directly to search for your destination.

 ["Connecting to Interactive Voice Menu" \(page 5-10\)](#)

### SETTING INTERSECTION

AIVINJN1-4599645B-7FEB-4FFC-9904-951F14B57AFC

It is possible to set an intersection of any two streets as the destination and have the system calculate a route.

1. Push **<MAP>**.
2. Touch [Destination] on the map Launch Bar.
3. Touch [Intersection]. The Intersection screen is displayed.

## 6. Navigation (if so equipped)

4. Input the Intersection.
  - Touch [State/Province] to enter the state or province name if necessary.
  - Touch [City] to enter the city name.
  - Touch [1st Street] to enter the first street name. After finishing the entry, touch [List]. A list screen is displayed. Select the desired street name.
  - After the first street information is entered, touch [2nd Street] to enter the second street name. After finishing the entry, touch [List]. A list screen is displayed. Select the desired street name.
5. These steps are covered as part of step 4. No need to mention again touch [OK]. The route is displayed.
6. Touch [Start] to start route guidance.

6-26

Condition:

### Voice command

1. Push < > located on the steering wheel.
2. After the tone sounds, speak a command.

Use the following voice command to set an intersection as destination:

"Intersection"

### SETTING BY PHONE NUMBER

AIVINJN1-87C28043-E7CD-4FB6-9E27-0811FF88248E

If the phone number of a facility is known, it is possible to search for a facility by entering the phone number.

### INFO:

- If the area code of the specified telephone number does not exist in the map data, the system cannot search for the location.
  - Only the locations included in the database in the map data can be searched for by phone number. Residential phone numbers cannot be used to search for a location.
1. Push <MAP>.
  2. Touch [Destination] on the map Launch Bar.

3. Touch [Phone Number]. The telephone number input screen is displayed.
4. Enter the telephone number including the area code. After finishing entry, touch [OK].
5. The selected destination is displayed. Touch [Start] after confirming the location of the displayed destination.

### INFO:

If there are more than one location registered for the phone number, a list screen is displayed. Touch an item on the list to select a preferred location.

### SETTING FROM STORED ROUTES

AIVINJN1-1743150E-CFEB-4311-94E7-67FE9F3D0C92

It is possible to select a preferred route from the stored routes.

1. Push <MAP>.
2. Touch [Destination] on the map Launch Bar.
3. Touch [Stored Routes]. A list screen is displayed.
4. Touch the preferred route from the list.

5. The entire route is shown on the map. Touch [Start] to start route guidance.

### INFO:

- Touch  to edit the stored route.  
 "Editing stored route" (page 6-54)
- The stored route only includes locations (destination and waypoints) and route calculation conditions, not the route itself. Therefore, when the destination is set using a stored route, a different route may be suggested if the current vehicle location is different from the one when the route was stored.
- To store the current route, touch [Store Current Route]. A route can be stored only when it includes one or more waypoints.  
 "Storing route" (page 6-49)

## SETTING WITH SIRIUSXM TRAVEL LINK

GUID-F5FEB20D-E940-4FA5-ABE9-3E9EC86568E3

It is possible to set the destination using the features of SiriusXM Travel Link.  
 "SiriusXM Travel Link" (page 5-16)

### INFO:

A SiriusXM Travel Link subscription is necessary to receive SiriusXM information services.

## Using SiriusXM Fuel Prices

GUID-73465726-2D1E-4C80-94A8-CABC3EA5D56B

Set the preferred gas station as the destination using SiriusXM Fuel Prices.

1. Push **<MAP>**.
2. Touch [Destination] on the Launch Bar.
3. Touch [SXM Travel Link].
4. Touch [SXM Fuel Prices].
5. Touch the preferred gas station from the list.

Available lists:

[Favorite]:

Displays the gas station saved as a favorite.

[Nearby]:

Displays the gas station near the current location.

## 6. Navigation (if so equipped)

[Near Dest.]:

Displays the gas station near the destination.

6. Touch the preferred gas station from the list.
7. Touch [Go Here].
8. Touch [Start] to start route guidance.

## Using SiriusXM Parking

GUID-DE57C6C1-F25A-4114-9F1F-D4B1BE3BA75E

Set the preferred parking location as the destination using SiriusXM Parking.

1. Push **<MAP>**.
2. Touch [Destination] on the Launch Bar.
3. Touch [SXM Travel Link].
4. Touch [SXM Parking].
5. Touch the preferred parking location from the list.

Available lists:

[Favorite]:

Displays the parking location saved as a favorite.

[Nearby]:

Displays the parking location near the current location.

[Near Dest.]:

Displays the parking location near the

## 6. Navigation (if so equipped)

destination.

6. Touch the preferred parking from the list.
7. Touch [Go Here].
8. Touch [Start] to start route guidance.

### Using SiriusXM Movie Listings

GUID-A19CDCCB-9911-466C-BDF4-D68526655EA9

Set the preferred theater as the destination using SiriusXM Movie Listings.

1. Push **<MAP>**.
2. Touch [Destination] on the Launch Bar.
3. Touch [SXM Travel Link].
4. Touch [SXM Movie Listings].
5. Search for the theater by the following methods.

[Favorite Theaters]:

Select from the list of theaters which saved have been as a favorite.

[Nearby Theaters]:

Select from the list of theaters near the current location.

[Current Movies]:

Select from the list of current movies and [Theaters]. Select the preferred theater from the list to set as a destination.

[Search for a Theater]:

6-28

Search for the theater by inputting the name directly.

[Search for a Movie]:

Search for the movie by inputting the title directly.

6. Touch [Go Here].
7. Touch [Start] to start route guidance.

### SETTING POINT ON MAP

AVINJN1-1CECA297-8DF7-4E58-9746-C408EB3A9FBD

It is possible to set a location scrolled to on the map as the destination and have the system calculate a route.

1. Push **<MAP>**.
2. Touch [Destination] on the map Launch Bar.
3. Touch [By Map].
4. Scroll the map, place the cross pointer over the preferred location, and touch [OK].

#### INFO:

The point on the highlighted road where the center of the cross pointer is located can be set as a destination.

5. The entire route is shown on the touch screen display. Touch [Start] to start route guidance.

#### Other settings

1. Scroll the map, place the cross pointer over the preferred location, and touch .
2. Touch [New Dest.].
3. The entire route is shown on the touch screen display. Touch [Start] to start route guidance.

#### INFO:

If a point on a freeway is set as the destination, a confirmation message is displayed.

### SETTING WITH LATITUDE/LONGITUDE

GUID-7434D3F5-2BF7-4F5E-8F39-AD8A6A3A84C1

A destination can be set by specifying the latitude and longitude of the location.

## 6. Navigation (if so equipped)

1. Push **<MAP>**.
2. Touch [Destination] on the map Launch Bar.
3. Touch [Latitude/Longitude]. A number input screen is displayed.
4. Enter latitude and longitude of the location to be set as a destination and touch [OK].
5. The entire route is shown on the touch screen display. Touch [Start] to start route guidance.

### **i** INFO:

- To switch between entering latitude and longitude, move the cursor by touching [**<**] and [**>**].
- Touch [Change] to switch the format of the latitude and longitude.

- Touch [West] or [East] to set the appropriate longitude.
- Touch [North] or [South] to set the appropriate latitude.
- A message will appear if the selected location is not included in the map area.

### USING DOOR TO DOOR NAVIGATION

GUID-1AEB5848-89CB-47EA-BF79-1BF04BA880B4

The destination can be set using a companion smartphone application and transferred to the vehicle. The route guidance will continue with walking directions via the companion smartphone application after getting out of the vehicle.

### **i** INFO:

- A compatible smartphone and registration is required to use the Door to Door navigation feature.
- Door to Door Navigation can be downloaded from Apple App store or Google play store.
- The registration is required for Door to Door Navigation at the first boot.
- For more information about this technology, visit the Door to Door Navigation download page.

1. Connect the smartphone to the vehicle via Bluetooth®.  
[☞ "Setting Bluetooth®" \(page 2-16\)](#)

### **i** INFO:

[Sync with Door to Door Navi.] should be turned on before using this feature.  
[☞ "Navigation settings" \(page 6-56\)](#)

2. Select a destination using the Companion App on your smartphone.
3. Transfer the destination from the smartphone to the vehicle.
4. A confirmation screen will be displayed. Touch [Go Here] and the position of the transferred location is displayed in the preview on the touch screen display.  
 Touch [Store] to register the destination in the address book.  
 Touch [Ignore] to cancel the transfer of the destination.
5. Touch [Start] to start route guidance.

## 6. Navigation (if so equipped)

### INFO:

ZZZ

### OPTIONS BEFORE STARTING THE ROUTE GUIDANCE

AIVINJN1-E83C964B-BC32-48FB-AF85-60942AFE2170

Before starting the route guidance, select menus for route details to modify the route, preview the turn list, or store the route.

- [Start]: Starts route guidance to the selected destination.
- [Add to Route]: Adds a location to the route previously set.
- [More Routes]:
  - [Fastest Route] Selects a route that is shortest in time.
  - [Energy-Saving] Selects a route for energy saving.
  - [Shortest Distance] Selects a route that is shortest in distance.
  - [Alternative] Selects an alternative route. Another route can be selected by touching [Multiple].
- [Turn List]: Displays a detailed turn list. The map can be displayed and the turn can be avoided by touching a turning point.
  - [Turn List] "Displaying Turn List" (page 6-37)
- [Move Location]: Displays a map screen and allows the location of the destination to be adjusted.
- [Information]:
  - [Place Info] Displays detailed information of the destination. Touch [Go Here] to set the destination. Touch [Call] (when available) to make a phone call to the facility set as a destination.
  - [Save Location]: Saves the location to the Address Book.
- [Store Route]: Store the route for later use.

## 6. Navigation (if so equipped)

### ROUTE GUIDANCE

AIVINJN1-FD38A9D2-BD38-4915-90E1-EFF73D4DAEA9

#### ABOUT ROUTE GUIDANCE

AIVINJN1-FD5538DC-DAD3-4D25-9588-EEEB98B01107

After setting the route, select [Start] to start the route guidance.

Throughout the route guidance, the system navigates you through the guide points using visual and voice guidance.

#### WARNING

- **The navigation system's visual and voice guidance is for reference purposes only. The contents of the guidance may be inappropriate depending on the situation.**
- **Follow all traffic regulations when driving along the suggested route (e.g., one-way traffic).**  
 **"Route guidance" (page 6-61)**

### Voice guidance during route guidance

AIVINJN1-B9542D5E-9818-4B43-8BA0-4E1F33E37BDB

#### Basics of voice guidance:

Voice guidance announces which direction to turn when approaching an intersection for which a turn is necessary.

#### INFO:

- There may be some cases in which voice guidance and actual road conditions do not correspond. This may occur because of discrepancies between the actual road and the information on the map data, or may also be due to the vehicle speed.
- In case voice guidance does not correspond to the actual road conditions, follow the information obtained from traffic signs or notices on the road.
- Route guidance provided by the navigation system does not take carpool lane driving into consideration, especially when carpool lanes are separated from other road lanes.
- The system will announce street names when the system language is set to English. Street names are not announced when the system is set to French or Spanish.

#### INFO:

- When approaching a guide point (intersection or corner), destination, etc. during route guidance, voice guidance announces the remaining distance and/or turning direction. Push and hold **<MAP>** to repeat voice guidance.
- Voice guidance settings can be changed from [Intersection Guidance Settings].  
 **"Guidance settings" (page 6-44)**

## 6. Navigation (if so equipped)

### Example of voice guidance:

- ① "In about one quarter mile (400 meters), right (left) turn."  
"Right (left) turn ahead."
- ② "In about one quarter mile (400 meters) freeway entrance on your right onto (road number and direction)."  
"Freeway entrance on your right onto (road number and direction)."
- ③ "In about 1 mile (1.6 kilometers), exit on your right."  
"Take the second exit on your right."
- ④ "You have reached your destination. Ending route guidance."  
Directions will differ, depending on the road type.

6-32

Condition:

### INFO:

Distances may vary, depending on the vehicle speed.

### Route guidance screens

Various guidance screens are displayed on the touch screen display during route guidance.

The settings of the guidance screens can be changed.

 "Map settings" (page 6-9)

### Route guidance on map screen:

5GB0729X

When route guidance starts, the small turn arrow and the distance to the next guide point are displayed in the upper right corner of the map screen. This arrow indicates the turning direction at the next guide point (corner or intersection). When

## 6. Navigation (if so equipped)

approaching a guide point, enlarged intersection view is displayed. Also, there may be cases where next street names are announced.

### Enlarged intersection view:

When approaching a guide point, the system automatically changes to the split screen view and shows an enlarged view of the intersection on the left side of the screen. To switch to the full map screen while the enlarged intersection view is displayed, push **<MAP>**. The distance to the guide point and the name of the next street to drive on are displayed at the top of the screen.

### Junction guidance:

While driving on a freeway, when the vehicle is approximately 1 mile (approximately 2 km) from a junction, the system automatically switches to the split screen view and displays an enlarged view of the junction on the left side of the screen. After the vehicle passes the junction, the system automatically returns to the full screen mode. To switch to the full map screen while the enlarged junction view is displayed, push **<MAP>**.

### Turn list:

When [Turn List] in the view settings menu is turned on, a turn list can be displayed on the left side of the screen. To switch to the full map screen, push **<MAP>**.

🔗 "Map settings" (page 6-9)

The left screen automatically switches to an enlarged view of the intersection when approaching a guide point.

When [Turn List] and [Show all Freeway Exit on Route] are turned on and the route includes a freeway or toll road, all exits

## 6. Navigation (if so equipped)

along the route and its exit information will be shown in the turn list. The exit information is shown as icons.

With [Auto. Show Turn List on Freeway] turned on, the turn list will appear automatically when driving on freeways.

☞ "Map settings" (page 6-9)

### Selecting a waypoint from the exit information list:

When exit information is displayed on the turn list, a waypoint to a facility located near the freeway exit can be set as a waypoint. The facility categories that are not shown with an icon on the turn list cannot be selected.

1. Touch the exit where the exit information icon is displayed. The category list screen is displayed.
2. Touch the POI category. A list of facilities located near the freeway exit is displayed.

6-34

Condition:

3. Touch the preferred facility for the waypoint.
4. The waypoint is set, and the route search is performed.  
☞ "Options before starting the route guidance" (page 6-30)
5. Touch [Start] to start the route guidance.

### ROUTE MENU

AIVINJN1-A1C01E8A-570A-408B-B0D8-CEBD91E269C3

#### WARNING

**Always stop the vehicle in a safe location before modifying the route conditions. Modifying the route conditions while driving may cause an accident.**

During route guidance, the route conditions can be modified and the route information can be confirmed. Set route conditions according to your personal preference.

5GB0735X

Push <MAP> when a destination is set, and then touch [Route] on the Launch Bar.

The Route menu screen is displayed.

## 6. Navigation (if so equipped)

### Available settings

Menu item		Result
[Cancel Route]		Cancels the current route guidance.  <a href="#">"Canceling Route" (page 6-37)</a>
[Turn List]		Displays the details of the suggested route.  <a href="#">"Displaying Turn List" (page 6-37)</a>
[Detour]		A detour of a specified distance can be calculated.  <a href="#">"Setting detour route" (page 6-37)</a>
[Route Preference]		Set the route search conditions.  <a href="#">"Route Preference" (page 6-38)</a>
[Recalculate]		Manually search for the route again after changing the search conditions, etc. and have the system calculate a route.  <a href="#">"Recalculating route" (page 6-41)</a>
[Show Destination]	[Move Location]	Displays a map screen and allows the location of the destination to be adjusted.
	[Nearby POIs]	Search for points of interest near the destination, such as restaurants and gas stations, etc. The location can be set as a waypoint.
	[Save Location]	Save the destination in the Address Book.
[Edit/Add to Route]		A destination or waypoint can be added to a route that has already been set.  <a href="#">"Editing route" (page 6-41)</a>
[Guidance Settings]		Various guidance settings can be customized.  <a href="#">"Guidance settings" (page 6-44)</a>
[Store Route]		A calculated route can be stored. A maximum of 10 routes can be stored. The stored routes can easily be recalled for future use.
[Map Scroll]		Displays a map screen where the location of the destination can be confirmed.

## 6. Navigation (if so equipped)

[Simulation]

Simulates the route guidance. This function provides a detailed image of the route with voice guidance.

The following operations are available:

[ || ]: Pauses the simulation.

[ ▶ ]: Resumes the simulation.

[ ■ ]: Ends the simulation.

[ ⏩ ]: Increases the play speed. 4 levels of speed adjustment are available.

[ ⏪ ]: Decrease the play speed. 4 levels of speed adjustment are available.

## 6. Navigation (if so equipped)

### CANCELING ROUTE

AIVINJN1-8DC58B15-9628-42A9-83C4-AE2C6B35D566

It is possible to delete a destination and all waypoints that have already been set.

1. Push **<MAP>** and then touch [Route] on the map Launch Bar.
2. Touch [Cancel Route].
3. A confirmation message is displayed. Touch [Yes] to delete the currently set destinations and waypoints.

#### INFO:

The deleted destination and waypoints cannot be reactivated.

### DISPLAYING TURN LIST

GUID-30EC4F85-30D3-4792-8E7F-3027E110DC66

Displays the details of the suggested route.

1. Push **<MAP>** and then touch [Route] on the map Launch Bar.

2. Touch [Turn List].

### Setting avoid road

GUID-0206ED89-2F7C-41C6-8531-0E0C2FD3B109

The detour to avoid a road is available by touching the road name on the Turn List display.

1. Touch the road on the list you prefer to avoid. The position of the selected intersection is displayed.
2. Touch [Avoid This Road].

#### INFO:

Touching [Show Map] can confirm the entire route.

3. Display returns to the turn list. Touch [Recalculate]. The route is recalculated.

Touch [Cancel] to cancel the avoid setting.

### SETTING DETOUR ROUTE

AIVINJN1-09587902-3FE9-4EAB-BB45-77B0F01E889C

To detour from the suggested route, can be calculated for a specified distance.

1. Push **<MAP>** and then touch [Route] on the map Launch Bar.
2. Touch [Detour].
3. Touch a detour distance. Available options are: 1/4 mile (400m), 1/2 mile (1km), 1 mile (2km), 3 miles (5km) or 5

miles (10km). After calculating the detour, the system displays the detour route on the map.

#### INFO:

- The detour setting can be canceled by touching [Cancel Detour].
- When the vehicle has deviated from the suggested route, [Detour] cannot be selected.
- If the system cannot calculate a detour with the specified conditions the previous suggested route is displayed.
- If the vehicle is traveling very fast, the detour route may start from a location that the vehicle has already passed.

## 6. Navigation (if so equipped)

### ROUTE PREFERENCE

AIVINJN1-126160A4-D2D4-4B8A-8C2C-7E583DEBCA04

It is possible to set the conditions of the route search.

1. Touch [Settings] on the Launch Bar.
2. Touch [Navigation] and touch [Route Preference].
3. Touch the item you would like to set.

Setting Item		Action	
[Basic Route Type]	[Fastest Route]	Prioritizes the use of fastest route.	
	[Energy-Saving]	Prioritizes a route which uses less energy.	
	[Shortest Distance]	Prioritizes the shortest route. The route may not be the shortest route because the system prioritizes roads that are easy to drive on for safety reasons.	
[Other Routing Choices]	[Minimize Freeway]	Minimizes the use of freeways.	
	[Minimize Toll Roads]	Minimizes the use of toll roads.	
	[Time Restricted Roads]	[Use Restriction Info]	Calculates route taking time restriction information into consideration.
		[Do Not Use Restriction Info]	Calculates route without taking time restriction information into consideration.
		[Avoid]	Calculates route avoiding the use of time restricted roads.
	[Seasonal Restricted Roads]	[Use Restriction Info]	Calculates route taking seasonal restriction information into consideration.
		[Do Not Use Restriction Info]	Calculates route without taking seasonal restriction information into consideration.
[Avoid]		Calculates route avoiding the use of seasonal restricted roads.	

## 6. Navigation (if so equipped)

	[Use Traffic Information]	[Auto]	Calculates the route automatically taking traffic information into consideration.
		[Confirm]	Calculates the route after confirming the route considering traffic information.
		[OFF]	Calculates the route without taking traffic information into consideration.
		[Use Avoid Area Settings]	When enabled, the system avoids the previously defined avoid areas.
		[Use Ferries]	Includes the use of ferries.
		[Use Unpaved Roads]	Include the use of unpaved roads.
		[Use HOV Lanes]	Include the use of HOV lanes
[Route Calculation Type]	[3type]		Calculates 3type routes when confirming other routes.
	[1type]		Calculate an alternative route when confirming other routes.
[Estimated Time]	[Destination]		Displays the estimated time of arrival or remaining time to the destination during route guidance.
	[Waypoint]		Displays the estimated time of arrival or remaining time to the waypoint during the route guidance.
[Destination Time Setting]	[Est. Time of Arr.]		Displays the estimated time of arrival.
	[Trip Time Remaining]		Displays the remaining time to arrival.

## 6. Navigation (if so equipped)

---

### INFO:

- If the vehicle greatly deviates from the suggested route, the system calculates a new route.
- Traffic jam information displayed on the map screen is not statistical traffic information.
- If [Do Not Use Restriction Info] is selected for [Time Restricted Roads] setting, the system calculates a route without any consideration of the regulations concerning the time or day of the week. Therefore, the suggested route may include a road subject to traffic regulations concerning the time or day of the week. When driving along the route, always follow all traffic regulations regardless of whether [Time Restricted Roads] is set to be considered or not.
- Even when [Use Traffic Information] is turned on, if traffic information has not been provided for the area, a detour may not always be indicated in a location where a traffic jam occurs.
- The system calculates to reduce the time required for the entire route from the start to the destination. If there are no appropriate routes, the system may lead to a route where a traffic jam occurs instead of leading to a detour.
- The system may not lead to a detour if the traffic closure or a traffic jam occurs far from the present location.

## 6. Navigation (if so equipped)

### RECALCULATING ROUTE

AIVINJN1-338AF520-F4FD-419B-8060-6AF4890C9F43

A route can be manually searched again after changing the search conditions, etc.

1. Push **<MAP>** and then touch [Route] on the map Launch Bar.
2. Touch [Recalculate]. A message is displayed and the route is recalculated.
3. Touch [Start] or conduct other operations as necessary.

 "Options before starting the route guidance" (page 6-30)

#### INFO:

- When a waypoint has been set on the route, the system will search for only one route, even if route recalculation is performed.
- When the vehicle deviates from the suggested route, the route from the current location to the destination is automatically searched again by the Auto Reroute function.  
 "Route Preference" (page 6-38)

### EDITING ROUTE

AIVINJN1-0CFA5674-26DB-4DBD-94B4-07D1D137A60E

1. Push **<MAP>** and then touch [Route] on the map Launch Bar.
2. Touch [Edit/Add to Route].
3. Edit the following settings and touch [Calculate].

#### Available settings

- ① [Add Destination]:  
Touch to add a new destination.
- ② Current destination:  
Touch to edit or delete the destination.  
 "Editing/deleting destination or waypoint" (page 6-42)
- ③ Criteria for calculating a route to the destination/waypoint:  
Touch to change the conditions for route calculation.  
 "Changing route calculation con-

ditions" (page 6-42)

- ④ [Add Waypoint]:  
Touch to add a waypoint.  
 "Setting destination or waypoint" (page 6-41)
- ⑤ Current waypoint:  
Modifies or deletes the waypoint.  
 "Editing/deleting destination or waypoint" (page 6-42)
- ⑥ [Calculate]:  
After editing the route, the system recalculates a route with new conditions.

### Setting destination or waypoint

AIVINJN1-0BB2FCA4-907D-47E4-BFE0-38F304C36A5C

A destination or waypoint can be added to a route that has already been set. Up to 5 waypoints besides one destination can be set.

1. Push **<MAP>** and then touch [Route] on the map Launch Bar.
2. Touch [Edit/Add to Route].

## 6. Navigation (if so equipped)

3. Touch [Add Destination] or [Add Waypoint].

### **i** INFO:

If [Add Destination] is selected, the current destination changes to a waypoint.

4. Set a destination or waypoint. The method of searching for a destination or waypoint is the same as the one for a destination.  
[📖 "Setting destination" \(page 6-15\)](#)
5. Touch [Add to Route] to add the location to the route.
6. The route information with the selected location added to the route is displayed. Adjust the route calculation conditions as necessary.  
[📖 "Changing route calculation conditions" \(page 6-42\)](#)

6-42

Condition:

7. Touch [Calculate] to confirm the route change. The route will be recalculated.

### **i** INFO:

- The prior route will be deleted automatically.
- Destinations or waypoints can also be added from the Map Menu.  
[📖 "Scrolled location map screen" \(page 6-14\)](#)

### Editing/deleting destination or waypoint

A destination or waypoint that has already been set can be modified or deleted.

1. Push **<MAP>** and then touch [Route] on the map Launch Bar.
2. Touch [Edit/Add to Route].
3. Touch a destination or waypoint that is already set.

4. Touch to edit the following settings:

#### Available settings

- [Delete]:  
A selected destination or waypoint that has already been set can be deleted.
- [Change Order]:  
The order of a destination and waypoints that are already set can be changed.
- [Move Dest.]:  
The location of the destination or waypoint can be adjusted by moving the cross pointer across the map on the touch screen display.

5. Touch [Calculate] to apply the change.

### **i** INFO:

If the destination is deleted, the final waypoint of the route becomes the destination.

### Changing route calculation conditions

Each section of the route between waypoints can have different route calculation conditions.

## 6. Navigation (if so equipped)

5GB0742X

1. Push **<MAP>** and then touch [Route] on the map Launch Bar.
2. Touch [Edit/Add to Route].
3. Touch the route condition shown on the preferred section of the route to the destination or waypoint.
4. Touch the preferred condition.  
 "Route Preference" (page 6-38)
5. The conditions are changed and the display returns to the edit route screen.
6. Touch [Calculate] to apply the change.

### INFO:

- The recalculated route may not be the shortest route because the system prioritizes roads that are easy to drive on for safety reasons.

### Changing order of destination and waypoints

AIVINJN1-A503E69F-4403-4F87-813B-70DF8CB10CE1

The order of a destination and waypoints that are already set can be changed.

5GB0741X

1. Push **<MAP>** and then touch [Route] on the map Launch Bar.
2. Touch [Edit/Add to Route].
3. Touch a destination or waypoint that is already set.
4. Touch [Change Order].
5. Touch a preferred destination or waypoint to replace the previously selected destination or waypoint.
6. Touch [Calculate] to apply the change.

## 6. Navigation (if so equipped)

### GUIDANCE SETTINGS

AIVINJN1-7A6444E0-AFEC-465E-93B2-F84FA292326B

Various settings are available to customize the guidance information provided by the system.

1. Touch [Settings] on the Launch Bar.
2. Touch [Navigation] and touch [Guidance Settings].
3. Touch an item you would like to set.

Setting item	Action
[Guidance Volume]	Adjusts the volume level of voice guidance.
[Guidance Voice]	Activates or deactivates voice guidance.
[Traffic Announcement]	Activates or deactivates the traffic announcement. When this item is activated, the system provides an announcement traffic information events on the route. The indicator illuminates if traffic announcement is activated.
[Toll Booth Guide]	Activates or deactivates the toll booth guidance.

#### INFO:

- The guidance volume can also be adjusted by turning <VOLUME/  > or pushing <+  -> on the steering wheel while voice guidance is being announced.
- A SiriusXM Traffic subscription is necessary to use Traffic Announcement function.

## 6. Navigation (if so equipped)

### VIEWING TRAFFIC INFORMATION

AIVINJN1-BB5C14C6-68BD-4F62-9328-48182A5DAB5C

#### SiriusXM Traffic Information

GUID-2EA7DE01-DAE9-4141-81D2-3B22E18APC54

SiriusXM Traffic information is a subscription service offered by SiriusXM Satellite Radio.

This service provides real-time information regarding traffic flow, accidents, road construction and other incidents, where available.

SiriusXM Traffic combines information from commercial and public traffic data providers including government departments of transportation, police, emergency services, road sensors, cameras and aircraft reports. The traffic information is broadcast to the vehicle by the SiriusXM satellites. Available traffic information on the route the driver selected is shown on the navigation screen so traffic conditions between you and the destination are known. Three types of real-time traffic information for major roadways are shown on the navigation system:

- \* Unscheduled traffic data for example, accidents and disabled vehicles.
- \* Scheduled traffic data, for example road construction and road closures.
- \* Traffic flow information (rate of speed

data).

#### WARNING

**SiriusXM Traffic information is not a substitute for attentive driving. Traffic conditions change constantly and emergency situations can arise without warning. Relying only on SiriusXM Traffic information may lead to a collision and could result in serious personal injury.**

#### NOTE:

- **Turn [Use Premium Traffic] off when receiving SiriusXM Traffic information.**  
 ["Traffic information setting" \(page 6-47\)](#)
- **Flow information is provided only for roads equipped with traffic sensors and is not available in all markets covered by the service. Flow data may not be available on portions of a road that is under construction.**
- **A SiriusXM Traffic subscription is necessary to view Traffic Info.**  
 ["SiriusXM Travel Link" \(page 5-16\)](#)

#### PREMIUM TRAFFIC INFORMATION

GUID-A94853CT-B1CF-48E0-A95F-2CA0EA659488

The more detailed traffic information on the road can be obtained from Premium Traffic information.

Premium Traffic information is available by turning [Use Premium Traffic] on and connecting Wi-Fi device or connecting smartphone through Wi-Fi.

 ["Traffic information setting" \(page 6-47\)](#)

#### VIEWING AVAILABLE TRAFFIC INFORMATION

AIVINJN1-7D5D383F-5F4C-4E8B-A72D-F7A55E47CC9E

##### Viewing traffic events from list

AIVINJN1-98BCC0A20-0A3E-4182-9DC8-E6BE6A36F52D

1. Push **<MENU>** and then [Info] on the HOME MENU Launch Bar.
2. Touch [SXM Traffic] or [Premium Traffic]. A list of available types of information are displayed.

Available items	Function
[Show Traffic on the Route]	Displays a list of traffic information found on the route from the current vehicle location to the destination. Available only when a route is set.
[Nearby Traffic Info]	Displays a list of available traffic information around the current vehicle location.

## 6. Navigation (if so equipped)

3. Touch the preferred item. A list of available events is displayed.

5GB0743X

4. Touch an event from the list to check the detailed information and the map. Touch [Avoid] to search for an alternate route.

### Displaying urgent traffic information

AIVINJN1-640E1972-00BA-4AAB-817F-9DD492D3BEE6

When an urgent event is found around the current vehicle location, a message pops up automatically on the touch screen display with a voice announcement.

The message includes the icon, event type, event information and the direct distance from the current location to the event.

### INFO:

- When there are multiple urgent events, the event with the shortest direct distance from the current location is displayed.
- If the urgent event is on the recommended route, and if a detour is found, the detour route notification screen is displayed when the vehicle approaches the detour point.

### Traffic information on map

AIVINJN1-349B2DD4-5AEO-4619-9823743EBC8BCDC55

Traffic information is displayed on both 2D map and 3D map screen.

### Screen information

5GB0753X

Example

- ① Road conditions  
Free Flow: Green arrow  
Moderate: Yellow arrow  
Heavy traffic: Red arrow  
Section affected by serious traffic event: Purple arrow  
Queuing traffic: Orange (Premium Traffic information only)
  - ② Traffic information icon:  
If a route is not already set, all of the traffic information icons on the map screen are displayed in gray. When a route is already set, the icons on the route are displayed in color, and the icons outside the route are displayed in gray.
- ◆ Traffic jam
  - ◆ Slow traffic
  - ◆ Traffic flowing freely
  - Road closed
  - ◆ Accident
  - ◆ Road work
  - ◆ Narrow lanes
  - ◆ All other events

## 6. Navigation (if so equipped)

- ③ **Traffic indicator:**  
Displays the reception condition of traffic information transmitted from the provider.  
When reception condition of traffic information transmitted from the provider is not detected, the traffic indicator will be "grayed-out".
- ④ Remaining distance and estimated time to the destination calculated with consideration of traffic information on route.

### **INFO:**

Traffic icons are displayed in the scale level of 1/64 miles (25 m) - 5 miles (10 km) range. Some traffic icons are displayed only on the map at higher detail levels.

### TRAFFIC INFORMATION SETTING

Settings for traffic information related functions can be changed.

1. Touch [Settings] on the Launch Bar.
2. Touch [Navigation].
3. Touch [Traffic Info Settings].
4. Touch the preferred setting. The indicator for the selected setting illuminates.

### Available setting items

- [Use Premium Traffic]:  
Turns the Premium Traffic information on/off.
- [Traffic Icon Selection]:  
Selects which types of traffic incidents (e.g., accident) will be displayed on the map screen.
- [Premium Traffic Update Settings] (Premium Traffic information only)  
Sets the Premium Traffic information.

### **INFO:**

- Even when [Show Traffic Flow on Map] and [Show Incidents on Map] are set to off, the list display of [Info on Route] and [Nearby Traffic Info] will not be affected.  
 ["Viewing traffic events from list" \(page 6-45\)](#)
- Even when [Traffic Announcement] is set to off, the route guidance will not

be affected. Also, the announcement of emergency information and weather information will not be turned off.

## 6. Navigation (if so equipped)

### STORING A LOCATION/ROUTE

AIVINJN1-D56E2757-E480-448D-84DE-0D0260214C62

#### STORING LOCATION

AIVINJN1-544965B9-F333-49EA-BE90-4D6BE51EE5F0

Often visited locations can be stored in the Address Book. The stored addresses can be easily retrieved to set them as a destination or waypoint. The Address Book can store up to 200 locations.

#### Storing home or work location

AIVINJN1-18F9446E-22F6-4B69-B465-63E96AFC7E1D

A home or work location can be stored in the system.

5GB0744X

1. Touch [Settings] on the Launch Bar.
2. Touch [Navigation] and touch [Address Book].
3. Touch [Home Location (None)] or [Work Location (None)].
4. Touch an appropriate method to set the location. Refer to the search methods used for destination setting.  
[☞ "Setting destination" \(page 6-15\)](#)

6-48

When stored, the location is displayed at the center of the map on the touch screen display.

5. Edit the contents of the stored item as necessary and touch [OK].  
[☞ "Editing stored location" \(page 6-51\)](#)

#### INFO:

If you touch [Go Home] or [Work] on the destination screen while the home or work location is not stored yet, the system will display a message asking if you wish to store a home or work location. Touch [Yes] to store the home or work location.

#### Storing location by searching

AIVINJN1-6B0517E8-1830-49EB-812C-0BAAB44ECOCEA

It is possible to store a location by searching in various ways.

5GB0720X

1. Touch [Settings] on the Launch Bar.

2. Touch [Navigation].
3. Touch [Address Book].
4. Touch [Stored Locations].
5. Touch [Add New].
6. Touch an appropriate method to set a location. Refer to the search methods used for destination setting.  
[☞ "Setting destination" \(page 6-15\)](#)
7. Touch [OK].
8. A message is displayed, and the address of the location is stored in the Address Book.
9. Adjust and edit the contents of the stored item as necessary. Touch [OK] to confirm.  
[☞ "Editing stored location" \(page 6-51\)](#)

#### INFO:

- When the location is stored in the Stored Locations, [Address Book] can be used to search for the location.  
[☞ "Searching from address book" \(page 6-22\)](#)
- When 200 locations are already stored, a new location cannot be stored until a currently stored location is deleted.

## 6. Navigation (if so equipped)

### Storing location by moving map

AIVINJN1-F725F4DF-9CDD-4070-ADB0-04BF2474895F

1. Move to the preferred location on the map and touch  on the touch screen display.

5GB0745X

2. Touch [Save Location]. A message is displayed.
3. The icon representing the stored location is displayed on the map. Push **<MAP>** to return to the current location map screen.

### STORING ROUTE

AIVINJN1-B3907DCE-924F-48C0-BAC8-A06712252587

A maximum of 5 calculated routes can be stored. Stored routes can be easily retrieved and set as the suggested route.

A route requires at least one waypoint in order to be stored.

1. Push **<MAP>** and then touch [Route] on the map Launch Bar.

2. Touch [Store Route]. A confirmation message is displayed. Select [Yes] to store the current route.

#### Other settings

A route can also be stored using the following procedure.

1. Touch [Settings] on the Launch Bar.
2. Touch [Navigation].
3. Touch [Address Book].
4. Touch [Stored Routes].
5. Touch [Store Current Route]. A confirmation message is displayed.
6. Confirm the contents of the message and touch [Yes]. The current route is stored.

#### INFO:

- At least 1 waypoint must be set for the route to be stored.
- A stored route includes only locations (destination and waypoints) and route calculation conditions, not the route itself.
- The route is stored in the first available position number in the stored routes list.

- When 5 routes are already stored in the address book, a new route cannot be stored until a route is deleted.

 ["Deleting stored item" \(page 6-54\)](#)

### STORING AVOID AREA

AIVINJN1-495A7589-BA25-41EF-82F6-33DEBDE7742E

An Avoid Area can be stored. The Avoid Area is an area that can be excluded from a route, such as a road that is always congested. Once Avoid Areas are stored, the system avoids those areas when calculating a route. Up to 20 Avoid Areas can be stored.

1. Touch [Settings] on the Launch Bar.
2. Touch [Navigation].
3. Touch [Address Book].
4. Touch [Avoid Area].

5GB0746X

5. Touch [Add New].
- Touch an appropriate method to search for a location.

 ["Setting destination" \(page 6-15\)](#)

6-49

## 6. Navigation (if so equipped)

---

6. Touch [OK].
7. Adjust the information of the Avoid Area as necessary.  
 ["Editing avoid area" \(page 6-54\)](#)
8. Touch [OK] to store the avoid area information.

### INFO:

- A maximum of 20 Avoid Areas can be stored. When 20 Avoid Areas are already stored, a new Avoid Area cannot be stored until a currently stored Avoid Area is deleted.  
 ["Deleting stored item" \(page 6-54\)](#)

### EDITING STORED INFORMATION

AIVINJN1-39CF1CB1-4830-4B51-BE7E-70154B58A89C

Items stored in the system can be edited.

6-50

Condition:

[ Edit: 2017/ 5/ 8 Model: AIVINJ-N ]

## 6. Navigation (if so equipped)

### Editing stored location

AIVINJNT-D9E4FAC6-0EAD-4C1E-9D3C-A1EBC19926E1

1. Touch [Settings] on the Launch Bar.
2. Touch [Navigation] and touch [Address Book].

Setting item		Action	
[Home Location]*	[Edit]	[Show Icon on Map]	Displays the home icon on the map.
		[Icon]	Selects a home icon of a preferred design.
		[Sound]	Sets the type of the alarm that sounds when the vehicle approaches home.
		[Direction]	Sets the alarm to sound when approaching from a specific direction.
		[Distance]	Sets the alarm to sound when reaching a specific distance to home.
		[Phone No.]	Stores the home telephone number.
	[Move Location]	Adjusts the stored home location.	
	[Delete]	Deletes the stored home location.	
	[OK]	Confirms and saves the edited home information.	
[Work Location]*	[Edit]	[Show Icon on Map]	Displays the work icon on the map.
		[Icon]	Selects a work icon of a preferred design.
		[Sound]	Sets the type of the alarm that sounds when the vehicle approaches work.
		[Direction]	Sets the alarm to sound when approaching from a specific direction.
		[Distance]	Sets the alarm to sound when reaching a specific distance to work.
		[Phone No.]	Stores the work telephone number.

6-51

## 6. Navigation (if so equipped)

	[Move Location]		Adjusts the stored work location.	
	[Delete]		Deletes the stored work location.	
	[OK]		Confirms and saves the edited work information.	
[Stored Locations]	[Sort]	[Sorted By Number]	Sorts the stored locations.  "Searching from address book" (page 6-22)	
		[Sorted By Name]		
		[Sorted By Icon]		
		[Sorted By Group]		
	[Add New]		Adds a new location.  "Storing location by searching" (page 6-48)	
	Stored Location List	[Edit]	[Show Icon on Map]	Displays the icon of a stored location on the map.
			[Name]	Registers a name of the entry.
			[Voice Tag]	Registers a voicetag for the entry which allows the entry to be used with the voice recognition system.
			[Icon]	Selects an icon for the entry.
			[Sound]	Sets the type of the alarm that sounds when the vehicle approaches the location.
			[Direction]	Sets the alarm to sound when approaching from a specific direction.
			[Distance]	Sets the alarm to sound when reaching a specific distance to the location.
			[Phone No.]	Registers a phone number for the location.
[Group]			Registers a group of the entry.	
[Entry Number]			Registers an entry number for the location.	

6-52

Condition:

[ Edit: 2017/ 5/ 8 Model: AIVINJ-N ]

## 6. Navigation (if so equipped)

		[Move Location]	Adjusts the stored location information.
		[Delete]	Deletes the stored location information.
		[OK]	Confirms and saves the edited stored location information.

\*: When home or work location has not been stored, [Home Location (None)] or [Work Location (None)] is displayed and a home or work location can be stored from the menu.

## 6. Navigation (if so equipped)

### Editing stored route

AIVINJN1-FAB19EB7-2462-4CCA-9FCA-6945BF4DA07F

1. Touch [Settings] on the Launch Bar.
2. Touch [Navigation] and touch [Address Book].
3. Touch [Stored Routes].
4. Touch the preferred stored route from the list.

Setting item	Action
[Rename]	Changes the stored route name.
[Replace]	Overwrites the stored route with the current route.
[Delete]	Deletes the stored route.
[OK]	Applies the edited settings.

### Editing avoid area

AIVINJN1-7741D32C-748E-4BE2-9BE8-E72FF75E70C6

1. Touch [Settings] on the Launch Bar and touch [Navigation].
2. Touch [Address Book] and then touch [Avoid Area].
3. Touch a preferred Avoid Area from the list. Avoid Area settings screen will be displayed.

Setting item	Action
[Rename]	Changes the name of an Avoid Area.
[Move Location]	Adjusts the Avoid Area location.
[Resize Area]	Adjusts the size of the Avoid Area.
[FWY]	Sets the Avoid Area to include or not include freeways. On the map, the Avoid Area will be displayed in green if it includes a freeway or in blue if it does not include a freeway.
[Delete]	Delete an Avoid Area.
[OK]	Applies the edited setting.

### DELETING STORED ITEM

AIVINJN1-A49F7444-AEBA-437D-B1BF-DA7457A3F577

The locations and routes in the Address Book can be deleted. Two deletion methods are available: deleting an individual item and deleting all stored items.

#### INFO:

- Deleted items cannot be restored. Before deleting an item, always make sure that the item is no longer needed.

## 6. Navigation (if so equipped)

### Deleting stored item individually

AIVINJN1-B68C2A81-E5C0-4DB2-A740-FC904C09AB2A

1. Touch [Settings] on the Launch Bar.
2. Touch [Navigation] and touch [Address Book].
3. Touch [Delete Stored Items].

Select the preferred item and touch [Yes] to confirm deletion.

Step 1	Step2	Action
[Delete Home Location]		Deletes home location.
[Delete Work Location]		Deletes work location.
[Delete Ad- dress Book]	[Delete All]	Deletes all stored locations.
	[Delete One]	Deletes a selected stored location.
[Delete Stored Routes]	[Delete All]	Deletes all stored routes.
	[Delete One]	Deletes a selected stored route.
[Delete Avoid Areas]	[Delete All]	Deletes all Avoid Areas.
	[Delete One]	Deletes a selected Avoid Area.
[Delete Pre- vious Desti- nations]	[Delete All Previous Destina- tions]	Deletes all of the previous destinations.
	[Delete One Previous Destina- tion]	Deletes a selected previous destination.
	[Delete Previous Start Point]	Deletes the previous start point.

### Deleting individual item on map

AIVINJN1-62D39B7F-7242-4DA7-8F88-21A769ADE3F7

1. Align the cross pointer over the stored location to be deleted by moving on the map, and then touch .

5GB0747X

2. Touch [Delete].
3. A confirmation message is displayed. Confirm the contents of the message and touch [Yes].

The stored item is deleted from the Address Book.

## 6. Navigation (if so equipped)

### NAVIGATION SETTINGS

AIVINJNT-9D8690FE-57C7-4383-A650-C4EAEDB9B2D7

The navigation system can be customized according to the user's preference.

1. Touch [Settings] on the Launch Bar.
2. Touch [Navigation].
3. Touch the item you would like to set.

#### Available items:

##### [Map]

Sets the display method and direction of the map.

 ["Map settings"](#) (page 6-9)

##### [Guidance Settings]

Sets the various functions for route guidance.

 ["Guidance settings"](#) (page 6-44)

##### [Route Preference]

Changes the routing preferences.

 ["Route Preference"](#) (page 6-38)

##### [Traffic Info Settings]

Sets the various functions of the Traffic information system.

 ["Traffic information setting"](#) (page 6-47)

##### [Speed Limit Indication on Map]

Turns on/off the speed limit display function. When this item is turned on, a speed limit indicator will appear on the map screen when available.

##### [Speed Limit Warning]

Turns on/off the speed limit warning.

6-56

Condition:

Edit: 2017/ 5/ 8 Model: AIVINJ-N ]

## 6. Navigation (if so equipped)

### **[Speed Limit Sensitivity]**

Adjusts the speed limit sensitivity. This function is available when [Speed Limit Warning] is turned on.

### **[Address Book]**

Stores locations and routes. Stored items can be edited or deleted.

 ["Storing a location/route" \(page 6-48\)](#)

### **[Customize POIs]**

Sets the POI categories to be displayed on the Points of Interest screen.

 ["Customizing POIs" \(page 6-22\)](#)

### **[Adjust Current Location]**

If the vehicle icon indicating the current vehicle location is not in the correct position, the location of the vehicle icon on the map screen can be adjusted.

### **[Delete Stored Items]**

Deletes a stored location or route.

 ["Deleting stored item individually" \(page 6-55\)](#)

### **[Delete Previous Destinations]**

Deletes all or one of the previous destinations or the previous start point.

 ["Deleting stored item individually" \(page 6-55\)](#)

### **[Sync with Door To Door Nav.]**

Turns on/off Door to Door navigation.

 ["Using Door To Door Navigation" \(page 6-29\)](#)

### **[Reset All Navigation Settings to Default]**

This resets various settings (display, volume level, etc.) to the default settings.

## 6. Navigation (if so equipped)

### GENERAL INFORMATION FOR NAVIGATION SYSTEM

AIVINJN1-53E79F5D-9AE6-4984-955E-CB2A39EB4D66

### CURRENT VEHICLE LOCATION

AIVINJN1-30B2B298-7959-42E7-A529-EBC2E61A510

### Display of current vehicle location

AIVINJN1-AC334D4E-00C5-4F0B-889E-D50DC5D61202

This navigation system combines the data obtained from the vehicle (by gyro sensor) and from GPS (Global Positioning System) satellites to calculate the current location of the vehicle. This position is then displayed throughout route guidance to a destination.

### What is GPS (Global Positioning System)?

AIVINJN1-A33AD639-F86B-4DA8-B59E-2726CD899634

GPS is a position detecting system that uses satellites deployed by the U.S. government. This navigation system receives radio signals from three or more different satellites that orbit 13,049 miles (21,000 km) above the earth in space, and detect the position of the vehicle by utilizing the principle of triangulation.

### Positioning adjustment:

When the system judges that the vehicle position is not accurate based on vehicle speed and gyro sensor data calculations, the system will automatically adjust the position of the vehicle icon using GPS

6-58

signals.

### Receiving signals from GPS satellites:

The reception of GPS signals can be weak, depending on the environment. Vehicles in the following areas/environments may not receive GPS signals.

NAI0422

- Inside tunnels or parking garages

NAI0423

- In areas with numerous tall buildings

NAI0424

- Under multi-layered highways

## 6. Navigation (if so equipped)

- Areas with numerous tall trees

- In a canyon

**i** **INFO:**

The GPS antenna is located on the instrument panel inside the vehicle. Do not place any objects, especially cellular phones or transceivers, on the instrument panel. Because the strength of the GPS signal is approximately one billionth of that of TV waves, phones and transceivers will affect or may totally disrupt the signal.

NAI0425

### Incorrect display of vehicle position

AIVINJ1-B4ECIA08-66C4-4494-8E5E-6CB5C47F02B9

The following cases may affect the display accuracy of the vehicle's position or traveling direction. The accuracy will return to normal if the driving conditions return to normal.

NAI0713

- When there is a similar road nearby.

NAI0427

- When the vehicle is traveling in an area with a grid pattern road system.

NAI0428

NAI0426

- When the vehicle is passing through a large Y-shaped intersection/junction.

## 6. Navigation (if so equipped)

NAI0429

- When the vehicle is traveling on a continuous, slowly curving road.

NAI0431

- When the vehicle is on a loop bridge.

NAI0433

- When repeatedly turning left or right, or driving in zigzags.

NAI0430

- When the vehicle is traveling on a road with repeating S-shaped curves.

NAI0432

- When the vehicle is on a snow-covered or unpaved road.

NAI0434

- When the vehicle is rotated on a parking lot turntable while the ignition switch placed in the OFF position.

## 6. Navigation (if so equipped)

NAI0435

- When driving on a road not displayed on the map screen or a road that has been changed due to additional construction or other reasons.

NAI0436

- When the GPS positioning accuracy is low.

### INFO:

- The vehicle icon may be misaligned when starting the vehicle just after starting the engine or the hybrid system.
- The vehicle icon may also be misaligned if different sized tires or tire chains are installed.
- The system has a function that automatically corrects the vehicle icon position when it is misaligned from the actual position.
- Vehicle position correction by GPS may not function when the vehicle is stopped.
- If the vehicle icon position does not return to normal even after driving for a while, correct the vehicle icon position manually.

### Detailed Map Coverage Areas (MCA) for navigation system

AIVINJN1-A77B219-FB6B-4303-A8B1-B6FF7C9DABCD

This system is designed to help guiding to the destination, and it also performs other functions as outlined in this manual. However, the system must be used safely and properly. Information concerning road conditions, traffic signs and the availability of services may not always be

up-to-date. The system is not a substitute for safe, proper and legal driving.

Map data covers selected metropolitan areas.

Map data includes two types of areas: "Detailed coverage areas" providing all detailed road data and other areas showing "Main roads only".

### INFO:

Detailed map data is not available in many areas and is generally limited to select major metropolitan areas.

### ROUTE GUIDANCE

AIVINJN1-D4460D59-8C4D-4A28-8361-F3C3C250F896

### INFO:

- The system will announce street names when the system language is set to English. Street names are not announced when the system is set to French/Spanish.

### Repeating voice guidance

AIVINJN1-43C350D7-CAB4-4E5D-8440-651D34A03D54

This function is available throughout route guidance, from the time after the route calculation is completed until the vehicle arrives at the destination. Push and hold the **<MAP>**. Voice guidance will be repeated.

## 6. Navigation (if so equipped)

### INFO:

If **<MAP>** is pushed and held when the vehicle is going in the wrong direction, voice guidance will announce: "Please make a legal U-turn if possible."

### Notes on voice guidance

AIVINJN1-D97C207-69BB-4213-9710-6F7BC47DE9D0

- Voice guidance in this system should be regarded as a supplementary function. When driving the vehicle, check the route on the map and follow the actual roads and traffic regulations.
- Voice guidance is activated only for intersections with certain conditions. There may be cases where the vehicle has to turn, but voice guidance is not provided.
- Voice guidance contents may vary, depending on the direction of the turn and the type of intersection.
- The voice guidance timing will vary depending on the situation.
- When the vehicle has deviated from the suggested route, voice guidance is not available. The system will not announce this. Refer to the map and recalculate the route.  
 "Recalculating route" (page 6-41)
- Voice guidance may not accurately correspond with road numbers and directions at freeway junctions.
- Voice guidance may not accurately correspond to street names at freeway exits.
- The displayed street names may sometimes differ from the actual names.
- Voice guidance is not available when the [Guidance Voice] is turned off.  
 "Volume and Beeps settings" (page 2-19)
- Voice guidance will start when the vehicle enters the suggested route. Refer to the map for directions to the starting point of the route.
- When approaching a waypoint, voice guidance will announce, "You have arrived at waypoint 1 (2, 3, 4,...)." Voice guidance will switch to the next section of the route. When voice guidance is not available, refer to the map for directions.
- In some cases, voice guidance ends before arrival at the destination. Refer to the destination icon on the map to reach the destination.
- If the system recognizes on which side the destination (waypoint) is located, voice guidance will announce "on the right/left" after announcing the arrival at the destination.
- Voice guidance may be partially operational or inoperative due to the angle of roads at an intersection.
- Because freeway lane information is available only for approximately 7,000 major freeways in North America, it is not possible to display information for all junctions and exits.
- Freeway exit information may differ from the information on the actual exit signs.
- Because it is not possible to consider data concerning roads that are seasonally available or unavailable, a route may be displayed that does not match the actual traffic restrictions. Be sure to follow the actual traffic restrictions while driving.
- Canada and Alaska contain many roads with incomplete map data. As a result, when searching for a route, the route may include roads with incomplete data. In regions where road data is not complete, voice guidance may stop for long periods of time. Be sure

## 6. Navigation (if so equipped)

to follow the actual traffic restrictions while driving.

### ROUTE CALCULATION

AIVINJN1-EE075CB3-3FAF-4421-BD08-BF04F3C95D6B

- There may be cases where carpool lanes are included on a suggested route when the automatic rerouting function is activated, even if the [Time Restricted Rd] is set to [Use Restriction Info] or [Avoid].  
 "Route Preference" (page 6-38)
- The navigation system does not provide route guidance for roads displayed in dark green.
- If the destination is set on a dark green road, the enlarged map display will switch to the ordinary map screen at some point and suggest a route that is near the destination. The distance and direction to the endpoint of the suggested route will be displayed in the lower right corner of the screen. Also, at this time, voice guidance will announce, "The route to your destination includes roads through incomplete map areas. Voice guidance will not be provided in these areas."  
 When approaching the endpoint of the suggested route, voice guidance will announce, "Entering the road with incomplete map data. Please use the

direction arrow and distance information to proceed to your destination."

To reach the destination, refer to the map screen. Always follow actual roads and regulations and drive safely.

- The suggested route may not be the shortest, nor are other circumstances such as traffic jams considered.
- Because of the inevitable difference in road conditions and circumstances between the time you use this system and the time the information was produced for the map data, there may be discrepancies in roads and regulations. In such cases, actual road conditions and regulations take precedence over map data information.
- During route calculation, the map will not scroll, however the vehicle icon will move according to the actual vehicle's movement.
- During route calculation, buttons such as **<MAP>** and **<MENU>** will be disabled.
- In some cases, after the calculation is complete, the calculated route may not be immediately displayed.
- Waypoints that have been passed will be disregarded by rerouting calculation.

tion.

- If you scroll the map while the suggested route is being drawn, it may take more time to finish drawing.
- Route calculation may not be completed in the following cases.
  - If there is no main road within a range of 1.5 miles (2.5 km) from the vehicle, a message saying so will appear on the screen. Try recalculating when the vehicle is closer to a main road.
  - If there is no main road within a range of 1.5 miles (2.5 km) from the destination or waypoint, a message saying so will appear on the screen. Try setting the location closer to a main road.
  - If the vehicle is too close to the destination or if there are no roads to the destination, a message saying so will appear on the screen.
  - If it is impossible to reach the destination or waypoints because of traffic regulations, etc.
  - If the only route to reach the destination or waypoints is extremely complicated.

## 6. Navigation (if so equipped)

- The following may occur when the route is displayed.
  - If you calculate a route on a main road, the starting point of the route may not exactly match the current vehicle location.
  - The endpoint of the route may not exactly match the destination.
  - If you calculate a route on a main road, the system may display a route from another main road. This may be because the position of the vehicle icon is not accurate. In this case, park the vehicle in a safe location and reset the vehicle icon, or continue driving to see if the position of the vehicle icon is automatically adjusted before recalculating the route.
  - There are cases in which the system shows an indirect route to reach the destination or waypoints, if you set them from stored or facility information. In order to correct this, you must be careful about the traffic direction, especially when lanes with different travel directions are shown separately, such as interchanges and service areas.

- This system makes no distinction between limited traffic control and total control (blockage). It may show an indirect route even if the road is usable.
- Even if the ferry preference is set to OFF, a route that uses a ferry line may be suggested.

### HOW TO UPDATE MAP DATA

Map data can be updated via USB or Wi-Fi (late availability).

### Updating with USB memory

The navigation map data can be updated with the latest information by downloading a new map database to a USB memory device and installing it in the vehicle.

1. Push **<MENU>** and then touch [Info] on the HOME MENU Launch Bar.
2. Touch [System Information] and then touch [Map Update].

3. Touch [Update by USB device].
4. Touch [Save Map Information to USB]
5. Insert blank USB memory device in the USB connection port.
  - 🔗 "USB (Universal Serial Bus) Connection Ports and AUX (auxiliary) input jack" (page 2-4)

#### INFO:

The remaining data in the USB memory may be deleted.

6. Touch [Start].
7. Touch [OK] after saving the Map Information to USB.
8. Access to the website (<https://apps.nissan.navshop.com/>) with your personal computer. Download and install the map update tool in your personal computer. (first time only)
9. Download the updated data and store it in the USB memory by the map update tool.
10. Push **<MENU>** and then touch [Info] on the HOME MENU Launch Bar.
11. Touch [System Information] and then touch [Map Update].
12. Touch [Update by USB device].

## 6. Navigation (if so equipped)

13. Touch [Install Map Update from USB]
14. Insert the USB memory in the USB connection port.

A pop-up message appears with available options. Touch the preferred option:

[Yes]: To update all map data.

[No]: To cancel the map update.

15. Touch [OK] after completing the update.

The update can be canceled while updating by touching [Cancel].

### WARNING

**Stop your vehicle in a safe location when updating the map data.**

### INFO:

- The map operation can not be made while updating the map.
- Map data should be updated while the engine or hybrid system is running to prevent discharge of the vehicle battery.

### Updating using wireless LAN (Wi-Fi)

GUID-EB00AB89-06ED-4BB7-8B78-FF5B1995B4F2

The map data can be updated using the vehicle Wi-Fi connection. Wi-Fi communications can be made by using Wi-Fi network, smartphone, etc.

1. Connect the vehicle to an available Wi-Fi network.
2. Push **<MENU>** and then touch [Info] on the HOME MENU Launch Bar.
3. Touch [Map Update] and then touch [System Information].
4. Touch [Update by Smartphone or WiFi hotspot].

The Pop-Up message appears.

[Select Area]: To select the area to be updated.

[Yes]: To update all map data.

[No]: To cancel the map update.

5. Touch [Select Area], select the area to be updated, and Touch [OK].
6. Touch [Yes] to update all map data, [Select Area] to select the area to be updated or [No] cancel the update.
7. Touch [OK] after completing the update.

The update can be canceled while updating by touching [Cancel].

### WARNING

**Stop your vehicle in a safe location when updating the map data.**

### INFO:

- The map operation can not be made while updating the map.
- Do not turn off the power source of the smartphone while updating.
- Map data should be updated while the engine or hybrid system is running to prevent discharge of the vehicle battery.
- The Wi-Fi hotspot communication is not available on this system.

### Automotive products End User License Provisions

GUID-3C4B9E94-98F5-4838-9BCF-83365CD53FFB

The following terms and conditions apply to any use by you of any services provided by TomTom (the "TomTom Services"). The services are deemed to be provided by TomTom Global Content BV. You should not use the TomTom Services if you cannot agree to the below.

## 6. Navigation (if so equipped)

1. **GRANT OF LICENSE:** The TomTom Services are provided to you on a non-exclusive basis and you may only use the TomTom Services for your personal use and solely in combination with the hardware device which is incorporated into your vehicle. The license granted is nontransferable. If any software is provided as part of the TomTom services the you are only entitled to use the binary form of such software and have no right to receive the source code. If upgrades, updates or supplements to the TomTom Services are obtained or made available to you, the use of such upgrades, updates or supplements are subject to the foregoing unless other terms accompany such upgrades, updates or supplements in which case those terms apply. All other rights not specifically granted under this paragraph are reserved by TomTom.
  2. **SAFETY:** The TomTom Services are intended to be used for providing information and navigation services related to your journey only and are not intended to be used as a safety related tool and cannot warn you about all dangers and hazards with respect to the road you are driving. Therefore, it remains your duty to drive in a careful and safe manner (paying all due care and attention to the road) as well as observing all applicable traffic regulations and rules. It is your responsibility not to use the TomTom Services in a manner that would distract you from driving safely.
  3. **UPDATES AND CHANGES TO THE SERVICES AND THESE TERMS:** TomTom reserves the right, with or without notice, to discontinue, update, modify, upgrade and supplement the TomTom Services and to modify these terms.
  4. **RESTRICTIONS:** You are prohibited from renting, lending, public presentation, performance or broadcasting or any other kind of distribution of the TomTom Services. Other than as permitted by applicable legislation, you will not, and you will not allow any person to, copy or modify the TomTom Services or any part thereof or to reverse engineer, decompile or disassemble the TomTom Services. You may not use the Services in connection with any illegal, fraudulent, dishonest or unethical activity or behaviour.
  5. **OWNERSHIP:** All intellectual property rights related to the TomTom Services are owned by TomTom and/or its suppliers.
6. **LIMITED WARRANTY:**
- YOU ACKNOWLEDGE THAT THE TOMTOM SERVICES HAVE NOT BEEN DEVELOPED TO MEET YOUR INDIVIDUAL REQUIREMENTS AND THAT IT IS THEREFORE YOUR RESPONSIBILITY TO ENSURE THAT THE FACILITIES AND FUNCTIONS OF THE TOMTOM SERVICES MEET YOUR REQUIREMENTS. TOMTOM DOES NOT AND CANNOT WARRANT THAT THE TOMTOM SERVICES OPERATE UNINTERRUPTED OR ERROR-FREE. YOU SHOULD BE PARTICULARLY AWARE OF THE FACT THAT CALCULATION ERRORS MAY OCCUR WHEN USING SOFTWARE IN A NAVIGATION SYSTEM WHICH MAY, FOR EXAMPLE, BE CAUSED BY LOCAL ENVIRONMENTAL CONDITIONS AND/OR INCOMPLETE DATA. TOMTOM DOES NOT WARRANT THAT THE TOMTOM SERVICES ARE CAPABLE OF INTEROPERATING WITH ANY OTHER SYSTEM, DEVICE OR PRODUCT (E.G. SOFTWARE OR HARDWARE).
  - WITHOUT LIMITING CLAUSE 6.1 ABOVE, THE TOMTOM SERVICES, AND ANY RESULTS GENERATED BY

6-66

Condition:

## 7. Voice recognition

### VOICE RECOGNITION

AIVINJNT-FAF38580-C669-4F26-B8D0-7EC58692FC6D

### USING VOICE RECOGNITION SYSTEM

AIVINJNT-1C8F749E-4AF3-47FE-9FE0-7B0B8B8AF458

#### Initialization

AIVINJNT-60C8EC21-9C96-4FBC-A946-5937BAB414EC

When the ignition switch is in the ON or ACC position, Voice Recognition is initialized. When the initialization is complete, the system is ready to accept voice commands. If <img alt="voice icon" data-bbox="198 418 218 438"/> on the steering wheel is pushed before the initialization completes, the display will show a message to wait until the system is ready.

#### BEFORE STARTING

AIVINJNT-17B90F0D-2C92-4147-8CBB-60019E6215D6

To get the best recognition performance from Voice Recognition, observe the following items.

- The interior of the vehicle should be as quiet as possible. Close the windows to eliminate the surrounding noises (traffic noise, vibration sounds, etc.), which may prevent the system from correctly recognizing the voice commands.
- Wait until the tone sounds before speaking a command.
- Speak in a natural conversational voice without pausing between words.

7-2

Condition:

- The system cannot recognize voice commands spoken from passenger seats.

### GIVING VOICE COMMANDS

AIVINJNT-B79272C7-32FE-481D-B7B5-A50FF427C81A

1. Push <img alt="voice icon" data-bbox="408 308 428 328"/> located on the steering wheel.

2. A list of commands appears on the screen, and the system provides the voice menu prompt.

Available category commands are displayed on the left side of the screen. Speak or touch a category command from the category command list.

#### INFO:

- Some of the commands for each category are shown on the right side of the screen and they can also be spoken without selecting a category.
  - After executing the category command, only the commands related to the selected category can be recognized.  
 "Command list" (page 7-6)
3. After the tone sounds and the icon on the screen changes from <img alt="voice icon" data-bbox="655 475 675 495"/> to <img alt="speech bubble icon" data-bbox="655 495 675 515"/>, speak a command. You can also select a command by directly touching the screen or by tilting <img alt="up arrow" data-bbox="655 515 675 535"/> / <img alt="down arrow" data-bbox="655 535 675 555"/> up or down and pushing <img alt="OK icon" data-bbox="655 555 675 575"/> on the steering wheel.

#### INFO:

- The Voice Recognition system will pause its operation when no command is given after three prompts. To resume the operation, push <img alt="voice icon" data-bbox="655 695 675 715"/> on the steering wheel.
4. Continue to follow the voice menu prompts and speak the voice commands after the tone sounds until the preferred operation is executed.

## 7. Voice recognition

### INFO:

To cancel a voice command, push and hold  on the steering wheel or **<BACK>** on the control panel.

### Operating tips

AIVINJN1-5EBE1C81-7EAE-4A5C-8323-F92B58DC3259

- Speak a command after the tone.
- If the command is not recognized, the system will prompt you to speak the command again. Repeat the command in a clear voice.
- Touch [] on the touch screen or push **<HOME>** on the steering wheel to return to the previous screen.
- To exit the Voice Recognition system, push and hold  on the steering wheel.
- To adjust the volume of the system feedback, push **< + 🔊 - >** on the steering wheel or turn the **<VOLUME/ 🔊 >** while the system is making an announcement.

The volume setting is also available from [Guidance Volume] in the [Settings] menu on the Launch Bar.

 "Volume and Beeps settings" (page 2-19)

- When setting a destination for route guidance with some search methods,

such as POI, Intersection or City Center search, the search area is automatically set to the state/province where your vehicle is located. Change state/province to change the search area to another state/province if necessary.

### Voice Prompt Interrupt:

In most cases, you can interrupt the voice feedback to speak the next command by pushing the  on the steering wheel. After interrupting the system, wait for a tone before speaking your command.

### One Shot Call:

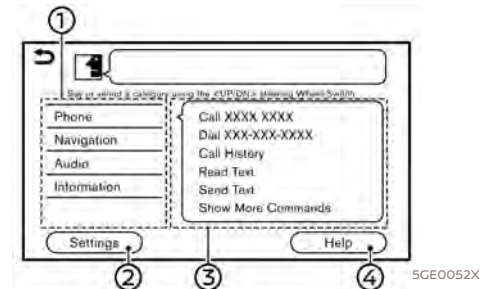

To use the system faster when making a call, you may speak the second level command skipping speaking the first level command. For example, push  and say "Redial" after the tone without first saying "Phone".

### How to see voice command screen

AIVINJN1-DA7924C7-AD6F-4EBB-A519-06BD7EFD97EA

1. Push  to display the first screen of the voice command list.
2. Speak a command or select an item on the voice command list. The Second screen is displayed.
3. Speak a command or select an item on the voice command list. The command is executed or the next screen for further command is displayed.
4. Follow the prompts to complete the commands.

### Voice command screens:

- ① Shows a list of available categories. Speak a category command or touch the key of the corresponding cate-

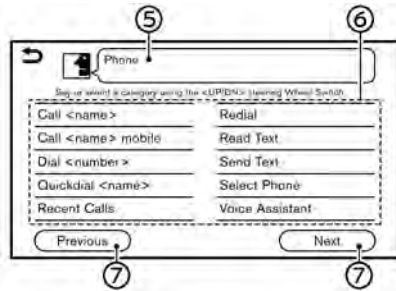

## 7. Voice recognition

gory.

- ② Touch [Settings] or say "Settings" to display the system voice settings.
- ③ Shows a list of available commands for the selected category. Speak a preferred command.
- ④ Touch [Help] or say "Help" to hear help announcements on how to use the system.

### INFO:

Push <  > to stop the help announcements.

- ⑤ Previously selected command.
- ⑥ Command list

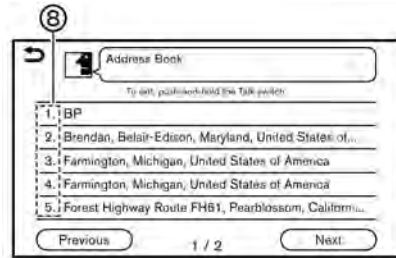

You can speak a command from the list or touch the corresponding key.

7-4

Preferred words can be spoken for the part of the command enclosed in <>.

- ⑦ [Previous]/[Next]

Say as a command or touch to go to the previous/next screen.

- ⑧ Speak a number from 1 to 5 or touch an item on the list screen to select the item.

### How to speak numbers

The Voice Recognition system requires the user to speak numbers in a certain way when giving voice commands.

#### General rule:

500, 800 and 900 can be pronounced as "five hundred", "eight hundred" and "nine

hundred" respectively.

For other numbers, only single digits 0 (zero) to 9 can be used. (For example, for the number "600", speaking "six zero zero" can be recognized by the system, but "six hundred" cannot.)

#### Example:

1-800-662-6200

"One eight hundred six six two six two zero zero"

### INFO:

For the best recognition, speak "zero" for the number "0", and "oh" for the letter "o".

### Voice command examples

As examples, some additional basic operations that can be performed by voice commands are described here.

#### Example 1 Placing call by speaking a phone number:

- 1. Push <  > located on the steering wheel.
- 2. Wait for the indicator to change to  . Speak "Phone".

## 7. Voice recognition

SGE0055X

3. Speak "Dial <number>".

SGE0056X

4. The phone number recognized by the system is displayed on the screen. If the number is correct, say "Dial".
5. The system will make a phone call to the spoken phone number.

### Example 2 Setting home as a destination (if so equipped):

1. Push <⏪> located on the steering wheel.

2. Wait for the indicator change to . Speak "Navigation".

SGE0057X

3. Speak "Go Home". The navigation system will set home as a destination.

### INFO:

- Location of home must be registered to the Address Book prior to using this command.
- The step of speaking "Navigation" can be omitted.

### Example 3 Tuning station of FM:

1. Push <⏪> located on the steering wheel.
2. Wait for the indicator change to . Speak "Audio".
3. Speak "Tune to <name> FM". Tune to the radio station and switch to the audio display.

## 7. Voice recognition

### Command list

AIVINJN1-F2834C42-3B75-40B0-98AA-9D1DBE4701C9

To use the Voice Recognition function, you can speak commands in the order of 1st command, 2nd command and 3rd command. You can also operate the system by directly speaking the 2nd or 3rd command.

Variable numbers or words such as names can be applied in the < > when speaking a command.

Some navigation commands (if so equipped) are only for English.

#### General Command

Command	Action
Help	Announces how to use voice guidance.
Next	Skip to the next page.
Previous	Skip to the previous page.
Settings	Displays the system voice settings.

#### Phone Command

Command	Action
Call <name>	Makes a call to a contact that is stored in the Quick Dial or phonebook.
Call <name> mobile	Makes a call to a contact that is stored in the phonebook of the cellular phone.
Dial <number>	Makes a call to a spoken phone number.
Quickdial <name>	Makes a call to a contact that is stored in the Quick Dial.
Recent Calls	Makes a call from the call history.
Redial	Makes a call to the last outgoing phone number.
Read Text	You can listen to recent text messages received.
Send Text	You can select a text message from a list and send it to a contact name.
Select Phone	Use this command to select a phone from a list of the registered devices.

7-6

Condition:

[ Edit: 2017/ 5/ 8 Model: AIVINJ-N ]

## 7. Voice recognition

Command	Action
Voice Assistant	Android device can be operated by voice command.

Operating tips for phone command operation:

- After the command "Call", a name registered in the phonebook can be spoken for recognition, while a phone number can be spoken after the command "Dial". Names from the phonebook cannot be spoken after the command "Dial".
- The system has the function to read the text messages out loud, but misreading may occur in some cases.
- Even if nicknames such as "Mom" or "Dad" are registered in the cellular phone, the voice recognition system recognizes only names. To have the system recognize the nicknames, register the entries in the [Quick Dial] from the Phone menu.

 "Quick Dial" (page 4-12)

**Navigation command (if so equipped)**

Command	Action
Street Address <Add.>	Used to search for a street address.
Point of interest <name>	Speak a POI name to search for as a destination.
Nearby <name>	Speak a POI name to search for a nearby facility.
POI by Category	Use this command to display a list of POI categories.
Go Home	Sets a route to your home location.
Previous Destinations	Sets a route to a previously entered destination.
Work	Sets a route to your work location.
Address Book	Use this command to display the locations registered in the Address Book for destination search.
City Center	Sets a route to a city center.
Nearby Freeways	Sets a route to a nearby freeway.
Cancel Route	Cancels route and deletes the destination/waypoints.
Recalculate Route	Recalculates the route.
Intersection	Sets a route to an intersection.

## 7. Voice recognition

Command	Action
Zoom In <1-13>	Increases the magnification of the map by the number of steps specified.
Zoom out <1-13>	Decreases the magnification of the map by the number of steps specified.
Zoom to Street Level	Change to the street map.
Show North Up	Sets the 2D full map to North Up.
Show Heading Up	Sets the 2D full map to Heading Up.
Show Full Map	Displays a full map.
Show Split Map	Displays a split map.
Show 2D Map	Change the current map to a 2D map.
Show 3D Map	Change the current map to a 3D map.
Repeat Instruction	Speaks the current navigation guidance.
Voice Guidance On	Turns the navigation guidance on.
Voice Guidance Off	Turns the navigation guidance off.
Show POI Icons	Select a category of the POI icon you wish to display on map. Selected POI icons will be displayed on the map screen.
Remove POI Icons	Select a category of the POI icon you wish to delete from the map. Selected POI icons will be deleted from the map screen.

Operating tips for navigation command operation:

- Depending on the area where the vehicle is located (such as in Puerto Rico, Guam, etc.), the system may not recognize the general navigation commands.
- Points Of Interest:
  - The POI commands searches for Points of Interest registered in the navigation system.
  - When searching for POI, the search is conducted within the current state/province or the state/province specified by “Change State” command. To change the state/province, speak “Change State” after the prompt and then after the next prompt, speak

7-8

## 7. Voice recognition

the name of the state/province for which you wish to conduct the POI search. The state/province will be reset to the current state each time the voice recognition session is restarted.

- The following POI main categories cannot be used for “Points of Interest” search with voice command operations while all registered categories can be recognized for “Nearby” search:

Others, Repair, Rental Car Agency, Parking, Police Station, Administration, ATM, Other Leisure, Bars & Clubs, Other Dealers, Motorcycle Dealership, Medical Offices, Post Office, Auto Parts, Banquets & Food Delivery, Carwash, Copying, Day Care, Fire Station, Laundry & Cleaners, Office Supply, Other Services, Other Shopping, Package Delivery

- **Street Address:**

- Alphabet letters cannot be included when speaking a house number. When a specified house number cannot be found, a location representing the address will be displayed.
- Speak in a natural conversational speed without pausing between words for better recognition.
- When the system recognizes the command incorrectly, correct the search conditions using commands such as “Change State”, “Change City”, “Change Street” or “Change House Number”.

### Audio Command

Command	Action
Play <AM, FM etc.>	Plays the preferred music source.
SXM Preset <1-18>	Plays the spoken SXM preset channel.
Tune to <530-1710> AM	Tunes to the AM band, selecting the last played station.
Tune to <87.7-107.9> FM	Tunes to the FM band, selecting the last played station.
Tune to <name> FM	Tunes to the FM band, selecting the station name.
Tune to <name> SXM	Tunes to the SiriusXM Satellite Radio band, selecting the channel name.
Tune to <number> SXM	Tunes to the SiriusXM Satellite Radio band, selecting the channel number.
Play Song <name>	Plays the music by selecting the track.
Play Album <name>	Plays the music by selecting the album.
Play Artist <name>	Plays the music by selecting the artist.
Playlist <name>	Plays the music by selecting the playlist.

7-9

## 7. Voice recognition

Command	Action
Play Genre <name>	Plays the music by selecting the genre.
Show Music List	Displays a music list.
Play All Songs	Plays all the tracks.
CD Track <number>	Plays the CD, selecting the track number.

Operating tips for audio command operation:

- An audio device connected via Bluetooth® cannot be operated with the Voice Recognition system. Source change is only available for Bluetooth® streaming Audio.
- The Voice Recognition system may not function when the song information is too long (artist names, album titles, song titles and play lists, etc.).
- The SiriusXM function will not operate without a subscription to SiriusXM Satellite Radio.
- When playing USB files with the voice recognition system, do not pronounce the extension attached to the file name (such as “.mp3”).
- Song titles registered in ID3 tags cannot be pronounced for voice recognition operation.

### Information Command

Command	Action
Traffic	Displays the traffic information.
Fuel Prices	Displays the SXM Fuel Prices.
Parking	Displays the SXM Parking.
Sports	Displays the SXM Sports.
Stocks	Displays the SXM Stocks.
Movie theaters	Displays the SXM Movie Listings.
Current Weather	Displays the nearby weather (current weather).
Weather Map	Displays the SXM Weather map.
5-day Forecast	Displays the 5-day Forecast.

7-10

## 7. Voice recognition

Command	Action
6-hour Forecast	Displays the 6-hour Forecast.
Where am I?	Displays information of the current position.

**INFO:**

A SiriusXM Travel Link or SiriusXM Traffic subscription is necessary to receive SiriusXM information services.

 ["SiriusXM Travel Link" \(page 5-16\)](#)

## 7. Voice recognition

### SYSTEM VOICE SETTINGS

AIVINJN1-67D614E7-55A6-4EA8-BDE1-5FF2EFEB3D40

The system voice settings can be changed.

1. Touch [Setting] on the Launch Bar.
2. Touch [System Voice].
3. Touch the item you would like to set.

#### System Voice

Available item		Action
Beep Only for Opening Prompt		Beep sounds only for opening prompt.
Short Prompts		When this item is turned on, short and minimized voice feedback will be provided.
Best Match Lists	Phone book	ZZZ
	Artist/Album/Song/Playlist	ZZZ
Voice Preference		Voice guidance setting can be selected from a male or female voice.
Speech Rate		Adjusts the speech rate of prompt.

### SYSTEM UNIT

AIVINJN1-31400E7C-F4D3-4689-A9F6-88A5A28E5475

### LIQUID CRYSTAL DISPLAY

AIVINJN1-EAA5698F-0334-4DAC-A1E3-D24F8C3455F2

Symptom	Possible cause	Possible solution
The screen is too dark.	The cabin temperature is too low.	Wait until the cabin temperature becomes moderate.
	Screen brightness is set to the maximum darkness.	Adjust the brightness setting of the screen. ☞ "Display settings" (page 2-21)
The screen is too bright.	Screen brightness is set to the maximum brightness.	Adjust the brightness setting of the screen. ☞ "Display settings" (page 2-21)
A small black spot or a small bright spot appears on the screen.	This is a typical phenomenon for liquid crystal displays.	This is not a malfunction.
A dot or stripe pattern appears on the screen.	Electromagnetic waves that are generated from neon billboards, high voltage electric power cables, ham radios or other radio devices equipped to other vehicles may adversely affect the screen.	This is not a malfunction.
Image lag appears on the screen.	This is a typical phenomenon for liquid crystal displays.	This is not a malfunction.
Image motion displayed on the screen is slow.	The cabin temperature is less than 50°F (10°C).	Wait until the cabin temperature rises to within 50°F (10°C) and 122°F (50°C).
When looking at the screen from an angle, the screen lightens or darkens.	This is a typical phenomenon for liquid crystal displays.	Adjust the brightness setting of the screen. ☞ "Display settings" (page 2-21)
The screen turns blue or an error message is displayed on the touch screen display.	A system malfunction has occurred.	It is recommended you contact a NISSAN dealer for an inspection.

## 8. Troubleshooting guide

### AUDIO SYSTEM

AIVINJN1-A966E4C8-AA58-414B-9A6A-500CC260D786

### HD RADIO TECHNOLOGY (for U.S.)

AIVINJN1-90CF80C5-A2F6-4DD9-AD49-0922798A4C14

#### Sound

AIVINJN1-D717575E-DAAA-47FF-98B5-B90F7B0F8694

Symptom	Possible cause	Possible solution
Delay in digital audio on HD Radio broadcasts.	The radio acquires an analog station first and blends to an digital signal.	This is not a malfunction.
Audio skips, stutters, or echoes.	The radio station has not properly aligned the digital and analog audio.	Verify correct operation on another station. Report any station with poor performance.
Volume changing up/down.	The radio station has not properly aligned digital and analog audio level.	Verify correct operation on another station and check <a href="http://www.hdradio.com">www.hdradio.com</a> for stations in the area. Report any station with poor performance.
Sound fading in and out.	The transition between analog and digital is taking place (blending).	Verify transition performance on several stations in the area. Report any stations with poor alignment.
Excessive blending (Transition between analog and digital).	The receiver is located near the edge of the digital coverage area.	Refer to <a href="http://hdradio.com">hdradio.com</a> to verify radio stations in your coverage area.
Digital audio not better than analog audio.	Audio processing on the digital audio at a station can potentially decrease the digital audio sound quality.	Verify correct operation on another station. Report any station with poor performance.

## 8. Troubleshooting guide

### Functional

AIVINJN1-F51DB67F-D5AE-4734-AA5F-5C93EFF31D36

Symptom	Possible cause	Possible solution
Keep losing my local stations.	The digital coverage is slightly less than the analog signal coverage.	Verify correct operation on another station. This is expected behavior.
	Shadowing (urban/terrain) can cause reduced digital coverage.	Verify correct operation on another station.
Some data fields are blank.	Text information is sent at the broadcaster's discretion.	Verify correct operation on another station. Report station issues.
Text information is truncated / appears to be more available.	The display is limited to a fixed number of characters and more data is being sent than can be shown.	This is an intended behavior.
AM reception changes at night.	AM stations are required by the government (FCC) to lower their power at night.	This is not a malfunction.

## 8. Troubleshooting guide

### COMPACT DISC (CD) PLAYER

AIVINJN1-8097E05E-298F-400A-AE85-F2150D8AD78C

Symptom	Possible cause	Possible solution
Music cannot be played back.	The disc is inserted upside down.	Insert a CD with the label side facing up.
	Moisture condensation occurs inside the unit.	Wait until the moisture evaporates (approximately 1 hour).
	The cabin temperature is too high.	Wait until the cabin temperature becomes moderate.
	The disc is scratched or dirty. A disc is not always playable if it is scratched.	Wipe off any dirt from the disc.
	Depending on the condition in which they are stored, discs may become unreadable due to deterioration (for example, keeping the discs in the passenger compartment, etc.).	Change the disc with a deterioration-free disc. Do not use a deteriorated disc. The label surface of the disc may crack or chip, and the layer of the label surface may eventually peel off.
The compressed audio files cannot be played back.	If both music CD files (CD-DA data) and compressed audio files (MP3 data, etc.) are mixed on one disc, the audio compression files cannot be played back.	Prepare a disc that includes compressed audio files only.
	The files are not named using characters that are compliant with the specifications.	Use the character codes and the number of characters that are compliant with the specifications for folder names and file names. In addition, always use ".MP3", ".WMA", ".mp3" or ".wma" for file extensions.
It takes a long time before the music starts playing.	The disc contains a large amount of data.	Some time may be required to check the files. It is recommended that unnecessary folders or any files other than compressed audio files should not be recorded in a disc.
The sound quality is poor.	The disc is dirty.	Wipe off any dirt from the disc.

## 8. Troubleshooting guide

Symptom	Possible cause	Possible solution
No sounds are played though the CD play time is displayed.	The system plays back the first track of the mix mode disc. (Mix mode is a format in which data except music is recorded on the first track and music data is recorded on one other than the first track in a session.)	Play back music data that are recorded on one other than the first track.
Music cuts off or skips.	The combination of writing software and hardware might not match; or the writing speed, writing depth, writing width, etc. might not match the specifications.	Create a disc using different writing speed settings, etc.
The system skips the selected track and moves to the next track.	A non-MP3/WMA file is given an extension of ".MP3", ".WMA", ".mp3" or ".wma".	Prepare MP3/WMA files.
	The system plays back a file that is prohibited due to copyright protection.	Prepare playable files.
The tracks do not play back in the desired order.	The folder locations in the disc are changed by the writing software while the files are written in the disc.	Check the settings of the writing software, and create a new disc.
The CD cannot be ejected.	The ignition switch is not placed in the ACC or ON position.	Place the ignition switch in the ACC or ON position.

## 8. Troubleshooting guide

### iPod® PLAYER

AIVINJNT-4D70A092-9EC2-4F72-A4BF-D040AE970C29

Symptom	Possible cause	Possible solution
The system does not recognize an iPod®.	A connector cable is not correctly connected, or the iPod® does not correctly operate.	Connect the connector cable again. If the system does not recognize the iPod® after performing this procedure above, reset the iPod®.
	The iPod® that is to be connected is not compatible with the system.	Check the iPod® model and firmware versions available for the system.
	A USB extension cable is not correctly connected.	Do not use a USB extension cable.
	The cable is rapidly connected to or disconnected from the USB connection port.	Slowly connect or disconnect the USB cable.
An iPod® cannot be operated.	The iPod® is connected to the in-vehicle audio system while headsets, etc. are connected to the iPod®.	Remove all equipment from the iPod® after disconnecting the iPod® from the system, and then connect it to the system again.
	The iPod® is not operating normally.	Disconnect the iPod® from the in-vehicle audio system, and then connect it to the system again.
	The system plays back an album/file that includes a particular album art.	Disconnect the iPod® from the in-vehicle audio system, and then reset the iPod®. Disable the album art, and then connect the iPod® to the system.  "iPod® Menu" (page 3-27)
An iPod® does not respond.	There are too many files in a category.	Decrease the number of files in a category (less than 65500 files).
	The shuffle function is turned on.	Turn off the shuffle function if many files are stored on the iPod®.
Music cannot be played back.	A connector is not connected to the iPod®.	Firmly connect the connector to the iPod®.
Playback cuts out.	The sound cuts due to vibration resulting from an unstable location of the iPod®.	Place the iPod® on a stable location where it does not roll over.

8-7

## 8. Troubleshooting guide

Symptom	Possible cause	Possible solution
Distorted sound occurs.	The EQ (equalizer) function of the iPod® is turned on.	Turn off the EQ (equalizer) function on your iPod®.
Battery charge of an iPod® takes longer.	Battery charge of the iPod® may take longer while an iPod® is playing back.	If the iPod® needs to be charged, it is recommended to stop playing the music.
Battery charge of an iPod® is unavailable.	The cable that is connected to the iPod® may be damaged or improperly connected.	Check the cable currently in use.
Functions cannot be operated using an iPod® that is connected to the in-vehicle audio system.	-	The operation of an iPod® must be performed using the in-vehicle audio system after the iPod® is connected to the system.
Sound skips.	Surrounding circumstances (noise, etc.) may cause the sound to skip.	This does not indicate a malfunction.
	A USB extension cable is used.	Do not use a USB extension cable.

## 8. Troubleshooting guide

### USB MEMORY DEVICE

AIVINJN1-9B58E82E-0419-4E45-A82E-F6C87CFB97F2

Symptom	Possible cause	Possible solution
The system does not recognize a USB device.	A USB extension cable is used.	Do not use a USB extension cable.
	A USB hub is used.	Do not use a USB hub.
	A USB device is rapidly connected to or disconnected from the USB connection port.	Slowly connect or disconnect the USB device.

## 8. Troubleshooting guide

### BLUETOOTH® STREAMING AUDIO

AIVINJN1-31B5F814-D7EA-4A60-B53A-A05CC7472680

Symptom	Possible cause	Possible solution
Registration cannot be performed.	The Bluetooth® audio device is not compatible with the in-vehicle audio system.	Check the Bluetooth® audio device Owner's Manual.
	Bluetooth® is disabled on device.	Check that the Bluetooth® function is enabled on device.
	The PIN code is incorrect.	Check the PIN code for the Bluetooth® audio device that is to be registered.
		Check that the PIN code for the Bluetooth® audio device is consistent with that for the in-vehicle audio system.
	Another Bluetooth® device is used in the vehicle.	Turn off the other Bluetooth® device until the registration is completed.
Music cannot be played back.	The Bluetooth® audio device is not compatible with the in-vehicle audio system.	Check the Bluetooth® audio device Owner's Manual.
	The system is not set to the Bluetooth® audio mode.	Push <b>&lt;AUDIO&gt;</b> to select the Bluetooth® audio mode.
	A Bluetooth® adapter is turned off.	Turn on a Bluetooth® adapter when it is used for a Bluetooth® audio device.
Playback stops.	The Bluetooth® audio device is not compatible with the in-vehicle audio system.	Visit <a href="http://www.nissanusa.com/bluetooth/">www.nissanusa.com/bluetooth/</a> to check Bluetooth® audio device compatibility.
	A cellular call is active.	This is not a malfunction.
	Sound may cut out when a Bluetooth® audio device is operated.	Push <b>&lt;AUDIO&gt;</b> to select the Bluetooth® audio mode, and then operate a function on the touch screen display of the in-vehicle system instead of conducting the operation on the Bluetooth® audio device.

## 8. Troubleshooting guide

Symptom	Possible cause	Possible solution
Audio operation cannot be performed.	A Bluetooth® audio device that does not support audio operations is in use.	Visit <a href="http://www.nissanusa.com/bluetooth/">www.nissanusa.com/bluetooth/</a> to check Bluetooth® audio device compatibility.
	An error occurs when connecting to a Bluetooth® audio profile.	Turn the power source of the Bluetooth® audio player off and on, and then resume connection with the system.

## 8. Troubleshooting guide

### BLUETOOTH® HANDS-FREE PHONE SYSTEM

AIVINJ1-BC6BB4C1-95BF-4792-A967-D8DDE888D56D

Symptom	Possible cause	Possible solution
A cellular phone cannot be registered.	The cellular phone is not compatible with the in-vehicle hands-free phone system.	Use a cellular phone compatible with the system. Visit <a href="http://www.nissanusa.com/bluetooth/">www.nissanusa.com/bluetooth/</a> to check compatibility.
	Registration of the cellular phone has been performed incorrectly.	Check the registration procedure, and then register the cellular phone again.
A cellular phone cannot be connected or is disconnected after the registration is completed.	The Bluetooth® setting of the in-vehicle hands-free phone system is turned off.	Turn on the Bluetooth® setting of the system.
	The Bluetooth® setting of the cellular phone is turned off.	Turn on the Bluetooth® setting of the cellular phone.
	The remaining battery level of the cellular phone is low.	Charge the battery of the cellular phone.
	The wireless Bluetooth® connection may be disrupted depending on the location of the cellular phone.	Do not place the cellular phone in an area surrounded by metal or far away from the in-vehicle hands-free phone system. Do not place the cellular phone close to the seats or your body.
	Registration of the cellular phone is not completed.	Perform registration of the cellular phone.
A call to a particular phone number fails.	If the system tries to make a call several times to the same phone number (for example: the party does not respond to the call, the party is out of the service area, or the call is abandoned before the party responds), the system may reject a request to make a call to the phone number.	Turn off the cellular phone and turn it on again to reset the connection.

## 8. Troubleshooting guide

Symptom	Possible cause	Possible solution
The system does not recognize the connection of a cellular phone. The system does not receive or make a call.	The cellular phone is not compatible with the in-vehicle hands-free phone system.	Use a cellular phone compatible with the system. Visit <a href="http://www.nissanusa.com/bluetooth/">www.nissanusa.com/bluetooth/</a> to check compatibility.
	The cellular phone is not connected.	Check the registration procedure, and then register the cellular phone again.
	The phone operation is limited by the functions (such as dial lock, etc.) of the registered cellular phone.	Remove any settings that are limiting use of the cellular phone, and then perform registration again.
The other party cannot hear your voice. The other party can hear your voice, but it cracks or cuts out.	Mute function is enabled.	Verify mute function is disabled.
	The cellular phone is not connected.	Check the registration procedure, and then register the cellular phone again.
	The fan speed of the heater/air conditioner is too fast.	Decrease the fan speed of the heater/air conditioner.
	The ambient noise level is excessive. (For example: heavy rain, construction sites, inside a tunnel, oncoming vehicles, etc.)	Close the windows to shut out ambient noise.
	The noise generated by driving the vehicle is too loud.	Reduce the vehicle speed.
The voice is cut out or noise is heard during a call.	The incoming or outgoing voice level is too loud.	Adjust the incoming or outgoing voice level properly.
	The wireless Bluetooth® connection may be disrupted depending on the location of the cellular phone.	Do not place the cellular phone in an area surrounded by metal or far away from the in-vehicle hands-free phone system. Do not place a cellular phone close to the seats or your body.
When a cellular phone is operated to make a call, the hands-free function becomes unavailable.	Some models of a cellular phone do not switch to the hands-free mode when they are operated to make a call.	This is not a malfunction. Make a call again using the hands-free function.

## 8. Troubleshooting guide

Symptom	Possible cause	Possible solution
The other party's voice cannot be heard. There is no ring tone.	The volume level is set to the minimum.	Adjust the volume level.
	A cellular phone is not connected.	Check the registration procedure, and then register the cellular phone again.
Each volume level (ring tone, incoming voice or outgoing voice) is different.	Each volume level is not adjusted properly.	Adjust each volume level properly.
The antenna display is different between the navigation screen and a cellular phone screen. Making or receiving a call is unavailable even though the antenna display shows that it is possible to do so.	The antenna display varies depending on the model of cellular phone.	This does not indicate a malfunction. The antenna display and remaining battery level shown on the navigation screen may be different from those shown on the cellular phone screen. Use them as a reference.
A voice cannot be heard clearly when using a cellular phone behind tall buildings.	Some structures such as tall buildings, etc. may cause irregular reflection of radio waves or completely shut out radio waves that are used for cellular phones.	Move to a place without tall buildings.
Noise is heard when using a cellular phone under/near areas of elevated railroads, high voltage electric power cables, traffic signals, neon billboards, etc.	Electromagnetic waves that are generated from radio devices may adversely affect the cellular phone.	This is not a malfunction.
Noise is heard in the sound from the audio system while using a cellular phone.	Radio waves that are generated from a cellular phone may adversely affect the sound from the audio system.	This is not a malfunction.
Sound skips or stutters.	The cellular phone may have turned on the wireless LAN (Wi-Fi).	Turn off the wireless LAN (Wi-Fi).
Phonebook cannot be downloaded.	An error occurred during the phone pairing process.	Please delete the Bluetooth® pairing information from both the mobile phone and vehicle system before registering it again.
	Phone does not support phonebook download function.	Visit <a href="http://www.nissanusa.com/bluetooth/">www.nissanusa.com/bluetooth/</a> to check compatibility.

## 8. Troubleshooting guide

### NISSANCONNECT<sup>SM</sup> SERVICES (if so equipped)

AIVINJN1-C77D3493-DF41-4650-B88C-9DC569176B1D

Symptom	Possible cause	Possible solution
The system cannot connect to the NissanConnect <sup>SM</sup> Services Data Center.	A subscription for the NissanConnect <sup>SM</sup> Services has not been established.	Sign up for a subscription to the NissanConnect <sup>SM</sup> Services. For details about subscriptions, contact the NissanConnect <sup>SM</sup> Services support line at 1-855-426-6628.
	The communication line is busy.	Try again after a short period of time.
	The vehicle is in a location where it is difficult to receive radio waves.	When the vehicle moves to an area where radio waves can be transmitted sufficiently, communication will be restored. When the icon on the display shows that the vehicle is inside the communication area, the system can be used.
	TCU (Telematics Control Unit) is not turned on.	If the icon does not show that the vehicle is inside the communication area despite the fact that the vehicle is in that location, contact the NissanConnect <sup>SM</sup> Services support line at 1-855-426-6628.
	Radio wave reception is not sufficient for TCU (Telematics Control Unit) operation.	When the vehicle moves to an area where radio waves can be transmitted sufficiently, communication will be restored. When the icon on the display shows that the vehicle is inside the communication area, the system can be used.
Some of the items that are displayed on the menu screen cannot be selected.	The vehicle is being driven and some menu items are disabled.	Stop the vehicle in a safe location and apply the parking brake before operating the menu screen items.
Some parts of the screen are not displayed.	The vehicle is being driven and some menu items are disabled.	Operate the system after stopping the vehicle in a safe location and applying the parking brake.
The system does not announce information.	The volume level is set to the minimum.	Adjust the volume level by operating the <VOLUME/  > located on the control panel or on the steering wheel switch while the system is announcing information.

## 8. Troubleshooting guide

### Apple CarPlay

AIVINJN1-921676AA-D7C1-4E97-9EC4-367674E9315B

Symptom	Cause and Countermeasure
Cannot start Apple CarPlay though it is tethered to the vehicle.	The USB cable is not connected to the USB connection port. Properly connect the USB cable to USB connection port. Use Apple Lightning cable to connect your phone to the USB Connection Port and check the cable is not broken.  "USB (Universal Serial Bus) Connection Ports and AUX (auxiliary) input jack" (page 2-4)
	Apple CarPlay setting is not active on your iPhone®. Turn on "CarPlay" on your iPhone®.
	Device is not compatible with CarPlay. Check compatibility requirements.
Apple CarPlay performance decreases. For example, slow connectivity or slow application functionality. or An error message appears when trying to access features of Apple CarPlay. A blank screen appears when trying to access maps.	Confirm you have a compatible iPhone®, a cellular connection and an active data plan.
	Use Apple Lightning cable to connect your phone to the USB connection port.
	Phone's performance or cellular connection. Disconnect and reconnect your phone.
	Phone's performance or cellular connection. Close all apps and restart them.
Cannot access Siri using the switch on the steering wheel.	Phone's performance or cellular connection. Cycle phone power off/on to restart.
	The USB cable may not be properly connected. Disconnect and reconnect the USB cable.
	Siri setting is not enabled on the phone. Turn on "Siri" on your phone.
	Check that you are pushing and holding <  > instead of just pushing the switch to initiate Siri operation.

### NAVIGATION (if so equipped)

AIVINJN1-9CDB1CD7-F25C-4AF6-97FF-6E29E3C9EB64

#### BASIC OPERATIONS

AIVINJN1-63D868E1-81BC-4C67-BECA-983902BED4C1

Symptom	Possible cause	Possible solution
No image is displayed.	The brightness is at the lowest setting.	Adjust the brightness of the display. ☞ "Display settings" (page 2-21)
	The display is turned off.	Push <*/> to turn on the display.
The volume of the voice guidance is too high or too low.	The volume is not set correctly, or the voice guidance setting is turned off.	Adjust the volume of the voice guidance or turn on the voice guidance setting. ☞ "Volume and Beeps settings" (page 2-19)
No voice guidance is available.	Voice guidance is not provided for certain streets (roads displayed in gray).	This is not a malfunction.
No map is displayed on the screen.	A screen other than a map screen is displayed.	Touch [Map] on the HOME MENU Launch Bar or push <MAP>.
The screen is too dim. The movement is slow.	The temperature in the interior of the vehicle is low.	Wait until the interior of the vehicle has warmed up.
Some pixels in the display are darker or brighter than others.	This condition is an inherent characteristic of liquid crystal displays.	This is not a malfunction.
Some menu items cannot be selected.	Some menu items become unavailable while the vehicle is driven.	Park the vehicle in a safe location, and then operate the navigation system.

## 8. Troubleshooting guide

### VEHICLE ICON

AIVINJN1-COC1C898-A889-456C-A1BE-60ABF2162EC7

Symptom	Possible cause	Possible solution
Names of roads and locations differ between 2D and 3D view.	This is because the quantity of the displayed information is reduced so that the screen does not become too cluttered. There is also a chance that names of the roads or locations may be displayed multiple times, and the names appearing on the screen may be different because of a processing procedure.	This is not a malfunction.
The location of the vehicle icon is misaligned from the actual position.	The vehicle was transported after the ignition switch was placed in the OFF position, for example, by a ferry or car transporter.	Drive the vehicle for a period of time on a road where GPS signals can be received.
	The position and direction of the vehicle icon may be incorrect depending on the driving environments and the levels of positioning accuracy of the navigation system.	This is not a malfunction. Drive the vehicle for a period of time to automatically correct the position and direction of the vehicle icon.  <a href="#">"Current vehicle location" (page 6-58)</a>
	Driving with tire chains or tires that have been replaced may result in an incorrect vehicle location display due to miscalculation by the speed sensor.	Drive the vehicle for a period of time (at approximately 19 MPH (30 km/h) for about 30 minutes) to automatically correct the vehicle icon position. If this does not correct the vehicle icon position, it is recommended you contact a NISSAN dealer.
	The map data has a mistake or is incomplete (the vehicle icon position is always misaligned in the same area).	Updated road information will be included in the next version of the map data.
When the vehicle is traveling on a new road, the vehicle icon is located on another road nearby.	Because the new road is not stored in the map data, the system automatically places the vehicle icon on the nearest road available.	Updated road information will be included in the next version of the map data.  <a href="#">"How to update map data" (page 6-64)</a>

## 8. Troubleshooting guide

Symptom	Possible cause	Possible solution
The screen does not switch to the night screen even after turning on the headlights.	The daytime screen was set the last time the headlights were turned on. ### ROUTE CALCULATION AND VISUAL GUIDANCE

AIVINJN1-1302203A-3BB3-4E27-A68F-EB2EC58942E3

Symptom	Possible cause	Possible solution
Waypoints are not included in the auto reroute calculation.	Waypoints that have been already passed are not included in the auto reroute calculation.	To go to that waypoint again, edit the route.
Route information is not displayed.	Route calculation has not yet been performed.	Set the destination and perform route calculation.
	The vehicle is not on the suggested route.	Drive on the suggested route.
	Route guidance is turned off.	Turn on route guidance.
	Route information is not provided for certain types of roads (roads displayed in dark green).	This is not a malfunction.
The auto reroute calculation (or detour calculation) suggests the same route as the one previously suggested.	Route calculations took priority conditions into consideration, but the same route was calculated.	This is not a malfunction.
A waypoint cannot be added.	Five waypoints are already set on the route, including ones that the vehicle has already passed.	A maximum of 5 waypoints can be set on the route. To go to 6 or more waypoints, perform route calculations multiple times as necessary.
The suggested route is not displayed.	Roads near the destination cannot be calculated.	Reset the destination to a main or ordinary road, and recalculate the route.
	The starting point and destination are too close.	Set a more distant destination.
	The starting point and destination are too far away.	Divide the trip by selecting one or two intermediate destinations, and perform route calculations multiple times.
	There are time restricted roads (by the day of the week, by time) near the current vehicle location or destination.	Select [Do Not Use Restriction Info] in the [Time Restricted Roads] setting.  <a href="#">"Route Preference" (page 6-38)</a>
A part of the route is not displayed.	The suggested route includes narrow streets (roads displayed in gray).	This is not a malfunction.

## 8. Troubleshooting guide

Symptom	Possible cause	Possible solution
The part of the route that the vehicle has already passed is deleted.	A route is managed by sections between waypoints. If the vehicle passed the first waypoint, the section between the starting point and the waypoint is deleted (it may not be deleted depending on the area).	This is not a malfunction.
An indirect route is suggested.	If there are restrictions (such as one-way streets) on roads close to the starting point or destination, the system may suggest an indirect route.	Adjust the location of the starting point or destination.
	The system may suggest an indirect route because route calculation does not take into consideration some areas such as narrow streets (gray roads).	Reset the destination to a main or ordinary road, and recalculate the route.
The landmark information does not correspond to the actual information.	This may be caused by insufficient or incorrect map data.	Updated information will be included in the next version of the map data.  <a href="#">"How to update map data" (page 6-64)</a>
The suggested route does not exactly connect to the starting point, waypoints or destination.	There is no data for route calculation closer to these locations.	Set the starting point, waypoints and destination on a main road, and perform route calculation.

## 8. Troubleshooting guide

### VOICE GUIDANCE

AIVINJN1-A3BC94B6-484D-4996-8E51-9B1AA5530FE5

Symptom	Possible cause	Possible solution
Voice guidance is not available.	Voice guidance is only available at certain intersections marked with  . In some cases, voice guidance is not available even when the vehicle makes a turn.	This is not a malfunction.
	The vehicle has deviated from the suggested route.	Go back to the suggested route or request route calculation again.
	Voice guidance is turned off.	Turn on voice guidance.
	Route guidance is turned off.	Turn on route guidance.
The guidance content does not correspond to the actual road conditions.	The content of voice guidance may vary, depending on the types of intersections at which turns are made.	Follow all traffic rules and regulations.

## 8. Troubleshooting guide

### TRAFFIC INFORMATION

AIVINJN1-10AAP583-945C-4754-BF28-86265643DEC5

Symptom	Possible cause	Possible solution
Traffic information is not displayed.	Traffic information is not turned on.	Turn on the traffic information.
	The vehicle is in an area where traffic information is not available.	Scroll to an area where traffic information is available.
	The subscription to SiriusXM Traffic is incomplete, or the subscription to SiriusXM Traffic has expired.	Check the subscription status of SiriusXM Traffic.  <a href="#">"Notes on SiriusXM Traffic information" (page 5-16)</a>
	The map scale is set at a level where the display of icons is impossible.	Check that the map scale is set at a level in which the display of icons is possible.  <a href="#">"Traffic information on map" (page 6-46)</a>
With the automatic detour route turned on, no detour route is set to avoid congested areas.	There is no faster route compared to the current route, based on the road network and the traffic information.	The automatic detour search is not intended for avoiding traffic jams. It searches for the fastest route taking conditions such as traffic jams into consideration. Follow the current route.  <a href="#">"Notes on SiriusXM Traffic information" (page 5-16)</a>
The route does not avoid a road section with traffic information stating that it is closed due to road construction.	The navigation system is designed not to avoid this event because the actual period of closure may differ from the declared roadwork period.	Observe the actual road conditions and follow the instructions on the road for a detour when necessary. If the road is closed, use the detour function and set the detour distance to avoid the road section that is closed.

## 8. Troubleshooting guide

### VOICE RECOGNITION

AIVINJ1-A8BC0EAB-7703-45A1-ACE6-B63B09F42786

Symptom	Possible cause	Possible solution
The system does not operate or fails to interpret the command correctly.	The interior of the vehicle is too noisy.	Close the windows or have the other occupants be quiet.
	The fan speed of the heater/air conditioner is too fast.	Decrease the fan speed of the heater/air conditioner.
	The noise generated by driving the vehicle is too loud.	Reduce the vehicle speed.
	The voice command is spoken in a low voice.	Speak the command in a louder voice.
	The timing of speaking a command is too early.	Speak the command after confirming the following: a voice guidance is announced, a tone sounds, and an icon on the screen changes from gray to orange.
	The command is spoken too slowly.	Speak in a natural voice without pausing between words.
The system prompts to repeat a command.	Pronunciation is unclear.	Speak clearly.
	The command is spoken too late after the tone.	Speak the command within 5 seconds after confirming the following: a voice guidance is announced, a tone sounds, and an icon on the screen changes from gray to orange.
	An improper command is spoken.	Speak the command or a number that is displayed on the screen.
		Speak a command that is shown in the command list.
The system does not correctly recognize a number spoken.	Too many numbers are spoken at once.	Place a pause between the appropriate digits for correct recognition by the system. When speaking a telephone number, place a pause between area codes, dial codes, etc.

## 8. Troubleshooting guide

Symptom	Possible cause	Possible solution
USB memory device cannot be operated with voice commands.	Depending on the device, iPhone® or iPod® may be recognized as a USB memory device.	This is not malfunction
	More than one audio device is connected to USB connection port.	Only one audio device can be operated with the voice recognition system even when multiple numbers of devices are connected. Select an audio source to operate with the voice recognition system.  <a href="#">"System Voice settings" (page 7-12)</a>
The USB/iPod® operation screen is grayed out.	The audio device is not connected.	Connect an audio device to the system.
	An audio source to be operated with the voice recognition system has not been selected.	Select an audio source to be operated with the voice recognition system.  <a href="#">"System Voice settings" (page 7-12)</a>
An error message is displayed when trying to select a track and operate USB/iPod®.	The track information is being processed for registration by the system.	Song information will be loaded into the system when a new audio device is registered for the first time or when the song information in the pre-registered device has been changed. Please wait for the loading to complete which may take a few minutes to up to an hour.
	Exceeding number of songs are stored in the connected audio device than it can hold.	Decrease the number of songs stored in the audio device.
	No song is stored in the audio device.	Store songs in the connected audio device. Storing songs with information such as artist name, album name, song name, playlist, etc., will make voice recognition song search available.
The system does not correctly recognize a Point of Interest (POI) name spoken.	There are some rare cases where a POI search is unavailable by speaking the facility name but the location can be found on the map.	This is not a malfunction. Consider using an alternate search method, like street address.

8-26

## 8. Troubleshooting guide

Symptom	Possible cause	Possible solution
The system does not correctly recognize a Point of Interest (POI) name spoken.	Partial or alias name is spoken.	For best results, speak the full name.
