Request for a Modular Approval - FCC ID: YBU28010X9X3

Dear Sirs,

Our client's module with the above FCC ID is seeking FCC authorization as a Modular transmitter. The requirements of the FCC Public notice DA00-1407 and KDB 996369 are met. Please see the following comments: Please contact us if you have any additional questions.

Item	Requirements	EUT
1	Have its own RF shielding	The module does not have its own RF shielding. It will only be used in the curtain motor SILENT GLISS SG9060.
2	Have buffered modulation/data inputs (if such inputs are provided),	The device has USB-to UART converter with internal buffer.
3	Have it own power supply regulation	The module does not have its own power supply regulation. The curtain motor SG9060 delivers the power supply to the module and it keeps with the included module the limits of radio emission.
4	Meet the antenna requirements of Section 15.203	A chip antenna is used.
5	Be tested in a stand-alone configuration, i.e., the antenna, AC or DC power and data input/output lines must be connected to the module but, the module must not be inside another case during testing	The module has been tested inside the host "Silent Gliss". Please refer to test report and test setup pictures.
6	Be labelled with its own FCC ID number, and if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	The device complies with this requirement, refer to sample of FCC label and picture were label will be placed on EuT.
7	The modular transmitter is manufactured so that the user cannot influence the operation of the transmitter that will operate outside of the scope of the regulations.	The module complies with this requirement.
8	Compliance with RF exposure requirements is the responsibility of the grantee and will be addressed for all final host configurations	The module complies with this requirement, refer to RF exposure information (FCC).
