

A white, rectangular, foam-wrapped device, likely a portable power source or battery pack, secured with a yellow rubber band. The device has a black top section and a small label on the front. The label contains text that is partially legible, including "1000mAh" and "3.7V". The device is placed on a dark, reflective surface.

Test Setup Photo of Radiated Measurement (PCB)

Material of Black plate: Plastic (Non-conductive material)
