Minor Design change for IsatPhone 2 (Model 2.1)

To whom it may concern,

This letter is to notify you of a minor design change to the Isatphone 2 (Model 2.1). Due to End of Life (EOL) of the components used in the Low Noise Amplifier (LNA) on receiver path, the LNA will be replaced. The data sheet of the new LNA component is similar but not identical. Overall, the changes did not affect overall technical specification.

The model name remains Isatphone 2 (Model 2.1). There is no impact to power (EIRP), spurious outputs or frequency stability compared to the previous LNA.

Yours faithfully,

A handwritten signature in black ink, appearing to read "Alison Horrocks".
