Re: Class 2 Permissive Change

To whom it may concern:

Powercast has made a change to the external power supply of the TX91503 (FCC ID: YESTX91503, IC ID: 8985A-TX91503) and the cable that connects the power supply to the unit. The new part numbers are:

Power supply - SWI5-5-N-I38 from CUI, Inc.
Cable – USB-POWER-72, custom cable from Powercast, 72” in length

These changes should not affect the RF characteristics or performance of the unit.

Sincerely,

Charles Greene
