

Hello,

FCC ID: YETD32-21366NU

We have replaced the MPE and Test Reports for all Form 731s apart from JBP, as the reports are referenced the wrong band (B66).

We replaced LTE B66 with LTE B4.

So the line entry for the B2P grant needs to replace the 4<sup>th</sup> line to reflect LTE Band 4 instead of LTE B66:-

1710- 1755	0.237	.01 ppm	F9W	27		LTE Band 4 UL 5/10/15/20MHz
---------------	-------	---------	-----	----	--	--------------------------------

All the grant exhibits have been updated as appropriate.

Thank you.
