| Peak | <div><p>Horizontal Peak Spectrum Plot showing Level (dBuV/m) vs Frequency (MHz) from 5600 to 6000 MHz. The plot shows a blue trace with a red limit line. Four peaks are marked with vertical lines and numbered 1 to 4. The limit line is labeled '5G U-NII-3'.</p><table><tr><th></th><th>Limit</th><th>Read</th><th>Ant</th><th>Cable</th><th>Preamp</th><th>Aux</th><th>APos</th><th>TPos</th><th>Remark</th></tr><tr><th>Freq</th><th>Level</th><th>Line</th><th>Margin</th><th>Level</th><th>Factor</th><th>Loss</th><th>Factor</th><th>Factor</th><th></th></tr><tr><th>MHz</th><th>dBuV/m</th><th>dBuV/m</th><th>dB</th><th>dBuV</th><th>dB/m</th><th>dB</th><th>dB</th><th>dB</th><th>cm</th><th>deg</th></tr><tr><td>1</td><td>5635.60</td><td>62.54</td><td>68.20</td><td>-5.66</td><td>48.03</td><td>0.00</td><td>0.72</td><td>0.00</td><td>13.79</td><td>0</td><td>0</td><td>PEAK</td></tr><tr><td>2</td><td>5650.00</td><td>61.53</td><td>68.20</td><td>-6.67</td><td>47.02</td><td>0.00</td><td>0.72</td><td>0.00</td><td>13.79</td><td>0</td><td>0</td><td>PEAK</td></tr><tr><td>3</td><td>5701.60</td><td>63.78</td><td>105.75</td><td>-41.97</td><td>49.27</td><td>0.00</td><td>0.72</td><td>0.00</td><td>13.79</td><td>0</td><td>0</td><td>PEAK</td></tr><tr><td>4</td><td>5720.00</td><td>66.10</td><td>110.90</td><td>-44.80</td><td>51.59</td><td>0.00</td><td>0.72</td><td>0.00</td><td>13.79</td><td>0</td><td>0</td><td>PEAK</td></tr></table></div> |        |        |        |        |      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         | Limit  | Read   | Ant | Cable | Preamp  | Aux   | APos | TPos | Remark | Freq   | Level | Line | Margin | Level  | Factor | Loss  | Factor | Factor |       | MHz    | dBuV/m | dBuV/m | dB     | dBuV | dB/m | dB     | dB     | dB | cm   | deg  | 1  | 5635.60 | 62.54 | 68.20 | -5.66 | 48.03 | 0.00    | 0.72   | 0.00  | 13.79 | 0     | 0    | PEAK | 2    | 5650.00 | 61.53 | 68.20 | -6.67   | 47.02 | 0.00 | 0.72 | 0.00 | 13.79 | 0 | 0 | PEAK | 3 | 5701.60 | 63.78 | 105.75 | -41.97 | 49.27 | 0.00 | 0.72 | 0.00 | 13.79 | 0 | 0 | PEAK | 4 | 5720.00 | 66.10 | 110.90 | -44.80 | 51.59 | 0.00 | 0.72 | 0.00 | 13.79 | 0 | 0 | PEAK | <div><p>Fundamental Peak Spectrum Plot showing Level (dBuV/m) vs Frequency (MHz) from 1000 to 7000 MHz. The plot shows a blue trace with a red limit line. A single peak is marked with a vertical line and labeled '5G U-NII-3'.</p><table><tr><th></th><th>Limit</th><th>Read</th><th>Ant</th><th>Cable</th><th>Preamp</th><th>Aux</th><th>APos</th><th>TPos</th><th>Remark</th></tr><tr><th>Freq</th><th>Level</th><th>Line</th><th>Margin</th><th>Level</th><th>Factor</th><th>Loss</th><th>Factor</th><th>Factor</th><th></th></tr><tr><th>MHz</th><th>dBuV/m</th><th>dBuV/m</th><th>dB</th><th>dBuV</th><th>dB/m</th><th>dB</th><th>dB</th><th>dB</th><th>cm</th><th>deg</th></tr><tr><td>1</td><td>5795.00</td><td>119.98</td><td>-----</td><td>-----</td><td>105.46</td><td>0.00</td><td>0.73</td><td>0.00</td><td>13.79</td><td>0</td><td>0</td><td>PEAK</td></tr></table></div> |  |  |  |  |  | Limit | Read | Ant | Cable | Preamp | Aux | APos | TPos | Remark | Freq | Level | Line | Margin | Level | Factor | Loss | Factor | Factor |  | MHz | dBuV/m | dBuV/m | dB | dBuV | dB/m | dB | dB | dB | cm | deg | 1 | 5795.00 | 119.98 | ----- | ----- | 105.46 | 0.00 | 0.73 | 0.00 | 13.79 | 0 | 0 | PEAK |

**C2. Cabinet emissions measurements for Spurious Emission**

For the cabinet-emission measurements the antenna may be replaced by a termination matching the nominal impedance of the antenna.

**Test Modes**

| Mode    | Band    | Band (GHz) | Antenna | Modulation    | Channel | Frequency | Data Rate | RU | Remark |
|---------|---------|------------|---------|---------------|---------|-----------|-----------|----|--------|
| Mode 1  | U-NII-1 | 5.15-5.25  | 1       | 802.11a       | 36      | 5180      | 6Mbps     | -  | -      |
| Mode 2  | U-NII-1 | 5.15-5.25  | 1       | 802.11a       | 44      | 5220      | 6Mbps     | -  | -      |
| Mode 3  | U-NII-1 | 5.15-5.25  | 1       | 802.11a       | 48      | 5240      | 6Mbps     | -  | -      |
| Mode 4  | U-NII-1 | 5.15-5.25  | 1       | 802.11ax HE20 | 36      | 5180      | MCS0      | -  | -      |
| Mode 5  | U-NII-1 | 5.15-5.25  | 1       | 802.11ax HE20 | 44      | 5220      | MCS0      | -  | -      |
| Mode 6  | U-NII-1 | 5.15-5.25  | 1       | 802.11ax HE20 | 48      | 5240      | MCS0      | -  | -      |
| Mode 7  | U-NII-1 | 5.15-5.25  | 1       | 802.11ax HE40 | 38      | 5190      | MCS0      | -  | -      |
| Mode 8  | U-NII-1 | 5.15-5.25  | 1       | 802.11ax HE40 | 46      | 5230      | MCS0      | -  | -      |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |  |  |  |  |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |  |  |  |  |

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |  |  |  |  |
| ANT  | 1                                              |  |  |  |  |
