

Bluetooth Headset

User's Guide

1.Introduction

The Bluetooth Headset allows you freedom to make and receive calls while on the move or in the office you can connect the headset to a compatible phone that supports Bluetooth wireless technology.

Read this user guide carefully before using the headset. Read also the user guide for your phone, which provides important safety and maintenance information. Keep the headset and its accessories out of reach of small children.

■ Bluetooth wireless technology

Bluetooth wireless technology allows you to connect compatible communication devices without cables. A Bluetooth connection does not require the phone and the headset be in line of sight, but both devices should be within 10 meters (30 feet) of each other. Connections can be subject to interference from obstructions, such as walls, or other electronic devices.

The headset is compliant with the Bluetooth Specification 2.0+EDR supporting the following profiles: Headset Profile 1.1 and Hands-Free profile 1.5. Check with the manufacturers of other devices to determine their compatibility with this device.

There may be restrictions on using Bluetooth technology in some locations. Check with your local authorities or service provider.

2.Get started

■ Overview

Bluetooth Headset

The headset contains the following parts:

- (1) Indicator light
- (2) ON/OFF/Answer/End key
- (3) Charger connector
- (4) Microphone
- (5) Earloop

Before you can start using the headset, you must charge the battery and pair the headset with a compatible phone.

Note: Parts of the headset are magnetic. Metallic materials may be attracted to the headset. Do not place credit cards or other magnetic storage media near the headset, because information stored on them may be erased.

2

■ Chargers and batteries

Check the model number of any charger before using it with this device.

Warning: Use only batteries and chargers approved for use with this particular enhancement. The use of any other types may invalidate any approval or warranty and may be dangerous.

For availability of approved please check with your dealer. When you disconnect the power cord of any enhancement, grasp and pull the plug, not the cord.

■ Charge the battery

This device has an internal, nonremovable, rechargeable battery. Do not attempt to remove the battery from the device as you may damage the device.

1. Connect the charger cable to the headset.
2. Connect the charger to a wall outlet. The red indicator light is on during charging. If charging does not start, disconnect the charging. If charging does not start, disconnect the charger, plug it in again, and retry. Charging the battery fully may take up to 2 hours.

3

3. When the battery is fully charged, the red indicator light turns off and the blue indicator light turns on. Disconnect the charger from the wall outlet and the headset.

The fully charged battery has power for up to 3 hours-6 hours 30 minutes of talk-time or up to 100 hours-180 hours of stand-by time. However, the talk and standby times may vary with different mobile phones, products that use a Bluetooth connection, usage settings, styles, and environments.

■ Switch the headset on or off

To switch on, press and hold the power key. The headset beeps, and the red indicator light is displayed. When the headset is connected to a paired phone and is ready for use, the blue indicator light flashes slowly.

To switch off, press and hold the power key. The headset beeps, and the blue indicator light is flashing twice.

■ Pair the headset with a compatible phone

1. Switch on your phone and the headset.
2. Activate the Bluetooth feature on the phone, and set the phone to search for Bluetooth devices. See the user guide of your phone for instructions.
3. Select the headset from the list of found devices.

4

4. Enter the passcode 0000 to pair and connect the headset to your phone. In some phones you may need to make the connection separately after pairing. See the user guide of your phone for details.

You only need to pair the headset with your phone once.

5. If the pairing is successful, the headset beeps and appears in the phone menu where you can view the currently paired Bluetooth devices.

Disconnect the headset from the phone

To disconnect the headset from your phone (for example, to connect the phone to another Bluetooth device), do one of the following:

- Switch off the headset.
- Disconnect the headset in the Bluetooth menu of your phone.
- Move the headset more than 10 meters (30 feet) away from the phone.

You do not need to delete the pairing with the headset to disconnect it.

Reconnect the paired headset to your phone

To connect the headset to your phone, switch on the headset, make the connection in the Bluetooth menu of your phone, or press and hold the answer/end key.

You can set your phone to connect with the headset automatically when the headset is switched on, change your paired device settings in the Bluetooth menu.

5

■ Troubleshooting

If you cannot connect the headset to your phone, do as follows:

- Ensure that the headset is charged, switched on, and paired with and connected to your phone.
- Ensure that the Bluetooth feature is activated on your phone.
- Check that the headset is within 10 meters (30 feet) of your phone and that there are no obstructions between the headset and the phone, such as walls or other electronic devices.
- Press the MFB switch key until the blue light is displayed for a long time, and release the MFB key, then continue to press it for about 3 seconds. Release the MFB key again, when the red and blue lights flash fast at the same time to realize the reset function.
