

Introduction

Thank you for using Roman's bluetooth headset, newest function and excellent compatibility. It is your best choice while in your office, driving and outdoor activities. It makes you feel the total life protection and the convenience of using wireless product.

Bluetooth wireless technology

Bluetooth wireless technology allows you to connect compatible communication device without cables. The bluetooth connection does not need the phone and the headset to be in line of sight, but both devices should be within 10 meters(30 feet) from each other. Connections can be subjected to interference from obstructions, such as walls or other electronic devices.

The headset is compliant with the bluetooth specification 3.0+EDR supporting the following profiles: Headset Profile 1.1 and Hands-free profile 1.5, A2DP AVRCP(only for stereo headset). Check with the manufacturers of other devices to determine the compatibility of the pairing device.

There may be restrictions on using bluetooth technology in some locations. Check with your local authorities or service providers.

Get started

The headset contains the following parts:

1. Indicating light(The light is red or blue);
2. MFB button(With telephone or power logo);
3. Volume button included + and -;
4. Travel charger(or USB cable), earphone(some headsets need earphone);
5. Earhook;
6. Microphone;
7. Earbud cushions;(Small, middle and large, 3 different sizes);

>

8. LCD display, Vibrate and Buzzer;(Some headsets have these functions)

Before you start using the headset, you must charge it fully and connect the headset with a compatible phone or device.

Note: Parts of the headset are magnetic, metallic material may be attracted to the headset. Do not place credit cards or other magnetic storage media near the headset, because information stored on them may be erased.

Second Time Using

When attempting to reconnect the headset to your mobile phone, your mobile phone will prompt you to accept the connection request to the headset pairing name, and an option will not ask the pairing again. Please accept the connection, and if you select "Don't ask this again", your phone will automatically accept future connection requests from your bluetooth headset.

Indicator light instruction

Blue indicator light turns on for 3 seconds or the Red and Blue indicator lights turns on automatically, it shows in pairing mode.Red indicator light turns on shows the headset is off working. Blue indicator light is shining fastly that shows in searching mode. Blue indicator light is shining slowly that shows in connection mode(5-8seconds).

Pairing: in switching "On" mode, press the MFB key for 5 or more and you will hear one "TONE" or "buzzer" tone, do not release your hand until the the Blue light

>

turn on or Red&Blue lights blink alternately, which shows it is in pairing mode. Now you can operate your mobile phone to search the bluetooth headset.

Connecting : Turn on your mobile phone's Bluetooth to search for the bluetooth headset, found it, please choose and confirm it, and input password 0000 if needed, choose headset service to connect successfully.

Answer calling: when calling, some headset has a "TONE" or "buzzer" tone, just press the MFB key shortly to enter Talking mode.

Reject calling: when calling, press the MFB key shortly for 2 to 3 seconds or longer and release your hand until you hear a TONE, then it will reject calling in. End calling: when in talking mode, press the MFB key shortly to end the call.
