Remote Operator Assembly: Model HD4100 & HD4010

Contains

FCC ID: YGP4000-01
HD4100 & HD4010

CAUTION: Changes or modifications not expressly approved could void your authority to use this equipment.
This device complies with the FCC Rules, Part 15, Subpart B, of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference that may cause undesired operation.

In order to prevent radio frequency interference, this device complies with Industry Canada License Exemption Conditions and operates under the following conditions:
(1) This device must not be used in the presence of:
(a) radio frequency equipment that may cause interference to the operation of this device;
(b) radio frequency equipment that may cause interference to the operation of this device;
(c) radio frequency equipment that may cause interference to the operation of this device;
(d) radio frequency equipment that may cause interference to the operation of this device;
(e) radio frequency equipment that may cause interference to the operation of this device;
(f) radio frequency equipment that may cause interference to the operation of this device;
(g) radio frequency equipment that may cause interference to the operation of this device;
(h) radio frequency equipment that may cause interference to the operation of this device;
(i) radio frequency equipment that may cause interference to the operation of this device;
(j) radio frequency equipment that may cause interference to the operation of this device;
(k) radio frequency equipment that may cause interference to the operation of this device;
(l) radio frequency equipment that may cause interference to the operation of this device;
(m) radio frequency equipment that may cause interference to the operation of this device;
(n) radio frequency equipment that may cause interference to the operation of this device;
(o) radio frequency equipment that may cause interference to the operation of this device;
(p) radio frequency equipment that may cause interference to the operation of this device;
(q) radio frequency equipment that may cause interference to the operation of this device;
(r) radio frequency equipment that may cause interference to the operation of this device;
(s) radio frequency equipment that may cause interference to the operation of this device;
(t) radio frequency equipment that may cause interference to the operation of this device;
(u) radio frequency equipment that may cause interference to the operation of this device;
(v) radio frequency equipment that may cause interference to the operation of this device;
(w) radio frequency equipment that may cause interference to the operation of this device;
(x) radio frequency equipment that may cause interference to the operation of this device;
(y) radio frequency equipment that may cause interference to the operation of this device;
(z) radio frequency equipment that may cause interference to the operation of this device;
