Regarding: FCC ID YH9NXBTR and IC ID 9044A-NXBTR

The applicant/grantee requests adding a new model to the certifications referenced above with no change of ID.
The basis for this is:

1. The new model is electrically and physically identical to the original.
2. The new model adds firmware to utilize the existing clock calendar feature in the processor.
3. No new clocks or periodic signals are modified or created.

The new model is designated NXBTC.

The original grant, certification, technical files and administrative documents are provided. Where applicable, documents are revised if otherwise expired or to include the new model information.

Signed:
