

AB-W06 Wireless Charger User Manual

Compatible Devices

1. Devices with built-in wireless charging receiver module (Samsung S8 or above, iPhone 8/8 Plus, iPhone X etc.).
2. Devices with reserved wireless charging input port (Galaxy S5, Galaxy Note4 etc.).
3. Wireless charging mod or case with receiver module. (Note: Receivers must meet WPC standard)

Charging your mobile device

1. Connect the supplied AC wall adapter to the charging base and to the wall outlet.

2. Place the phone or tablet on the wireless charger as shown in the illustration below. Make sure the center of the device is aligned over the center of the charging base. Charging will begin on contact and LED will be on.

LED Indication

No Light	Not Charging, Stand by
Red LED illuminated continuously	The wireless device is properly charging
RED LED Flashing	Protection (Metallic foreign object (keys, etc.) has been detected on the wireless charging base)
Blue LED illuminated continuously	The wireless device is fully charged

Specification:

Input	DC 5V/2A, 9V/1.7A
Output	5V/1A, 9V/1.1A (MAX 10W)
Size	72 x 72 x 10 mm
Charging distance	≤8mm
Charging efficiency	≥72%

Attention

- Keep wireless charger dry and away from moisture and corrosive materials.
- Do not clean the wireless charger with harsh chemicals, soaps or detergents. To clean the device, wipe it with a soft, water-dampened cloth.
- Cut off input power source when cleaning the wireless charger.
- Use certified QC 3.0 Chargers to ensure the maximum charging output.

FCC Statement :

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complied with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Warning: Changes or modifications to this unit not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.
