# Safety Information

Please carefully read the terms below:

## Use Safely

Do not use the phone in situations where it might cause danger.

## Transportation Safety

Please observe all transportation laws and regulations.

Please drive with both hands on the wheel.

**PLEASE DRIVE RESPONSIBLY - DO NOT TEXT AND DRIVE**

## Hospital Safety

Please follow hospital rules and limitations.

Please turn off your mobile phone when near medical instruments.

## Airport Safety

Remember to follow all airport and flight safety regulations.

Please do not use your phone during flight.

## **Chemical Warning**

Do not use your mobile phone around fuels or chemicals.

## **Temperature Warning**

Do not subject your phone to extreme temperature conditions.

## **Water Hazard**

Your phone is not waterproof. Keep your phone away from water or liquid to avoid damage.

## **Emergency Calls**

Make sure your mobile phone is switched on and in a service area. In home screen, tap the phone key and dial the emergency number.

## **Accessories and Batteries**

Use only Blu authorized batteries and accessories.

## **Information Backup**

Remember to keep a written record of all important information.

## **Battery Safety and Precautions**

- For better performance and longer battery life, it is recommended that you charge the battery fully before

using the mobile phone for the first time.

- The optimum performance of a new battery is typically achieved after two or three complete charge cycles.

**Note:** Keep in mind that continuous overcharging will affect long term battery life.

- While charging, keep the mobile phone out the reach of children.

- Store the battery in a cool and dry place away from direct sunlight and water.

- Do not expose batteries to extreme temperatures (below  $-8^{\circ}\text{C}$  ( $18^{\circ}\text{F}$ ) or above  $43^{\circ}\text{C}$  ( $110^{\circ}\text{F}$ )).

- Immediately stop using the battery if it produces an odor, cracks and leaks, overheats, distorts or has any other type of physical damage.

- Avoid using the charger near or around liquids. If the charger comes in contact with water or any liquids, immediately unplug it from the outlet to reduce the risk of overheating, charger malfunction, electric shock or fire.

**Warning:** Please be careful with the disposal of used batteries. Do not throw away batteries with daily waste. Please follow local environmental laws and guidelines for proper waste disposal.

## **Cleaning and Maintenance**

- Avoid using the handset and accessories in excessively moist areas to avoid malfunction.

- Use a soft, dry cloth to clean the handset, battery and charger.
- Do not use alcohol, thinner, benzene or any other solvent to clean the handset.

## **Appearance and Key Function**

# Introduction

## Installation of the SIM Card

**Warning:** Please keep the SIM card out of the reach of children. The SIM card and its contact are easily damaged due to scratching or bending. Please use caution when carrying, installing or taking out the SIM card. **NB:** Please contact your cellular phone service provider directly to obtain your SIM card.

### **To insert SIM card:**

1. Remove the rear cover. Insert the SIM card.
2. Insert the SD card. (For additional storage capacity)
3. Insert the battery, replace the rear cover, and power on phone.

## Power On and Off

**On** - Please ensure the SIM card has been properly inserted into the phone. Long press the Power key to switch the phone on.

**Off** - In standby mode, long press on Power key until an options menu appears. Select Power Off in the menu and confirm in the pop-up prompt to switch off the phone.

## Security

You may set a security lock feature as a security measure for the phone. For further information regarding password locks, password revision and other functions please enter into the security option in system settings.

# Call Functions

At the dial keyboard, enter the phone number and then click the dial key. If dialing an extension, you may click the dial pad icon in the bottom of the screen to open the interface and enter the number of the extension. You may also press and hold the 0 key to add a (+) sign when adding an international dialing prefix.

New Phone icon

**Call Log History**

**Call Logs**

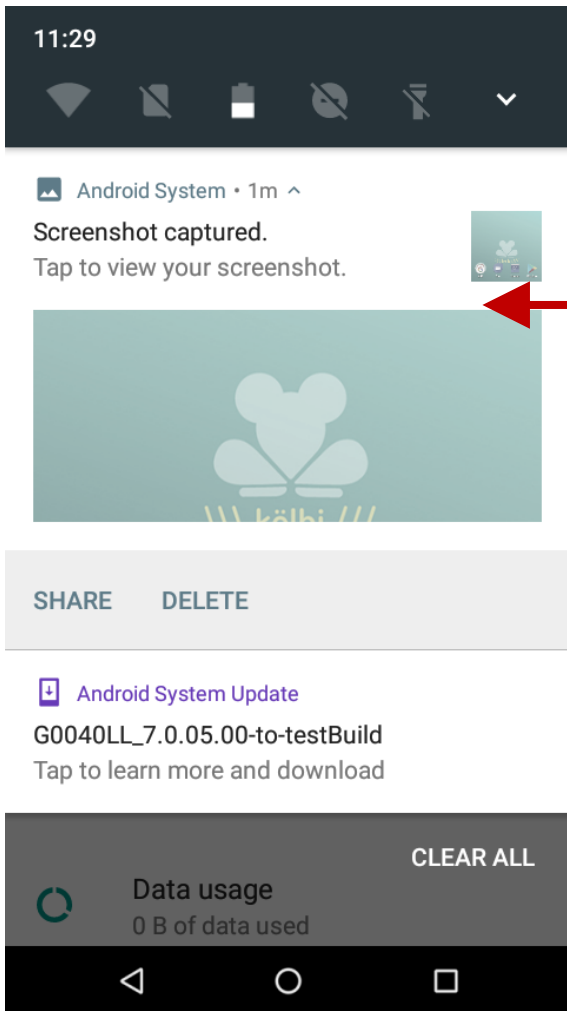

Every telephone number called and received will be saved in the phone's call log. All numbers in the call log can be dialed directly by clicking the dial icon on the screen. When the number appears on the list, click it to view details. To clear the call logs, press the menu key and select delete. You may remove one or multiple calls.

### **Call Options**

There are different options that can be used in the call log and dialing interface. You may press the menu key while in the dial interface and adjust call settings. In the call logs, you may press browse through contacts list or set default contact resources.

## **Notifications Bar**

The notification bar is located on the top of the screen which contains useful and important information regarding your phone and the applications that are installed. On the notification bar, several icons will appear such as signal bar, battery indicator, data indicator, Bluetooth and Wi-Fi. You may slide the notification bar down with your finger to display any pending notifications or actions.

**Pending  
Notifications and  
Applications**

**Quick  
Notification  
Settings**

## **Notification Settings**

The notification settings window provides shortcuts to different phone settings for quick access. Click on any of the shortcut notification icons to power on or off.

**Note:** To clear notifications, drag down the notification bar and click the clear notification icon on the upper right hand part of the screen (3 horizontal lines). The notification settings menu is located by dragging down the notification bar and is located on the upper right hand part of the screen next to the clear notification icon.

## **Contacts**

**Enter:** Click on the applications menu and select contacts.

- The default display is the phone contacts and SIM card contacts.
- The contacts are organized alphabetically by default.

**Search**

**Add Contact**

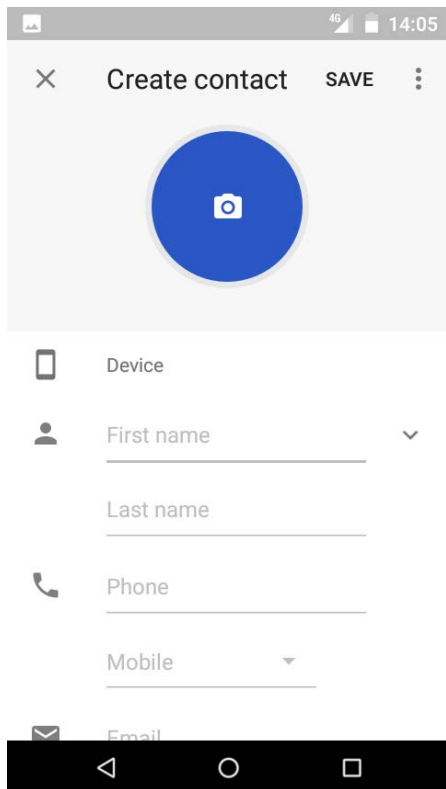

**Add Contact**

Click the Search icon to enter the contact search interface. Any numbers or letters associated with any of the contacts saved in the list will be shown in the search results.

### **Add New Contact**

- Click the add contact icon (+) to add contact.
- Select to save your contacts to your Google account, the phone or the SIM card.
- You may enter different contact details which include adding a picture, name, telephone number, group, address, and email among other options.
- Click to save contact.

### Contact information entry field

### Delete Contact

- Click on the Contacts icon to enter the phonebook.
- Click the menu key to access the Contacts menu.
- Click on Delete Contact and scroll to select which contact(s) you wish to delete.

**Note:** You may also search for an individual contact in the phonebook. Once the contact is found click the contact name to enter the contact profile, press the menu key to bring up the contact menu and select

delete to eliminate from the phonebook.

### **Import / Export Contacts**

The phone allows you to import and export contacts to synchronize information between different storage types that include the SIM card, Gmail account and your phone.

#### **To import or export contacts:**

1. Press the Contacts icon to enter the phonebook.
2. Press the menu key and select Import / Export
3. Select the source you want to copy the contacts from. Once selected click next and select the destination where you want the contact to be copied to then select the desired contacts to be copied.

## **Google Messaging**

You may use this function to exchange text messages and multimedia messages with your family and friends. The messages to and from the same contact or phone number will be saved into a single conversation so you may see the entire message history conveniently.

New Messenger icon

## **Send an SMS**

Application Menu » Messaging » New message (or shortcut icon)

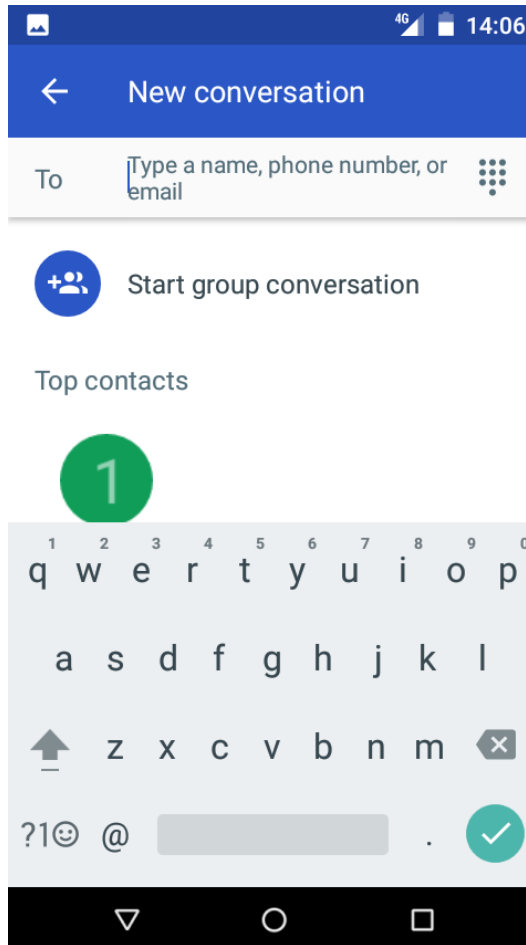

- Click the contact icon to enter text message recipient
- Compose Text Message and click Send

## **Send an MMS**

When creating message, the default message style is SMS. The message will automatically convert to MMS when adding an attachment or when surpassing 10 pages of SMS messages.

- Click the attachment icon in the messaging interface.
- Click to add attachments and create an MMS message.

**Add Recipient**

**Text message  
entry field**

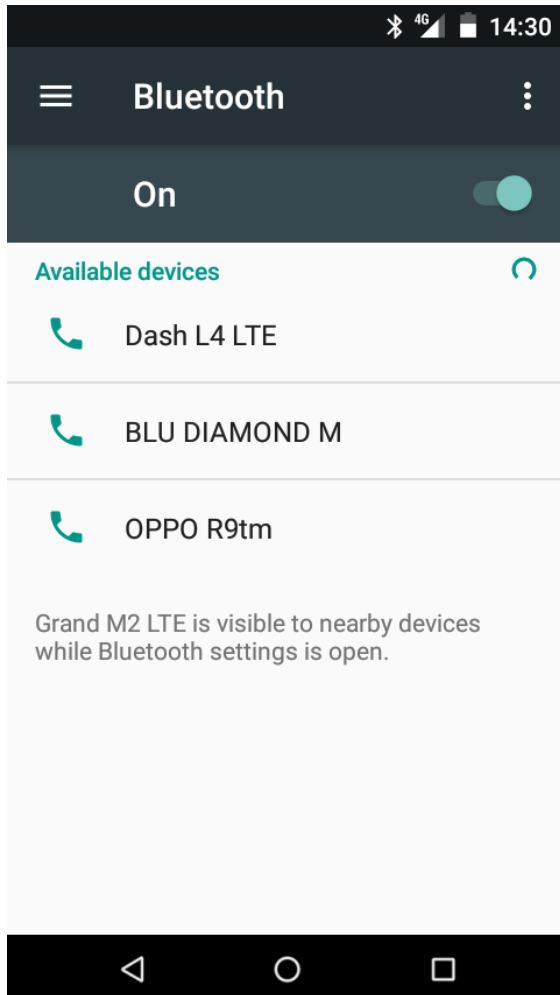

# Bluetooth & Wi-Fi

Bluetooth is a short-range wireless communications technology that devices can use to exchange information and connect to different types of devices which include headsets and other devices.

## Power on Bluetooth

Settings » Bluetooth and select to power on Bluetooth.

- The Bluetooth icon will appear in the notification bar. The Bluetooth will then start to scan for all devices within its range and will display all available devices in a list.
- In Bluetooth settings, all the devices found will displayed in a list.

### List of available Bluetooth devices

**Note: The maximum detecting time of the phone is 2 minutes.**

## Power on Wi-Fi

Settings » Wi-Fi and select ON to power on Wi-Fi

- Click on the desired Wi-Fi network to be connected.

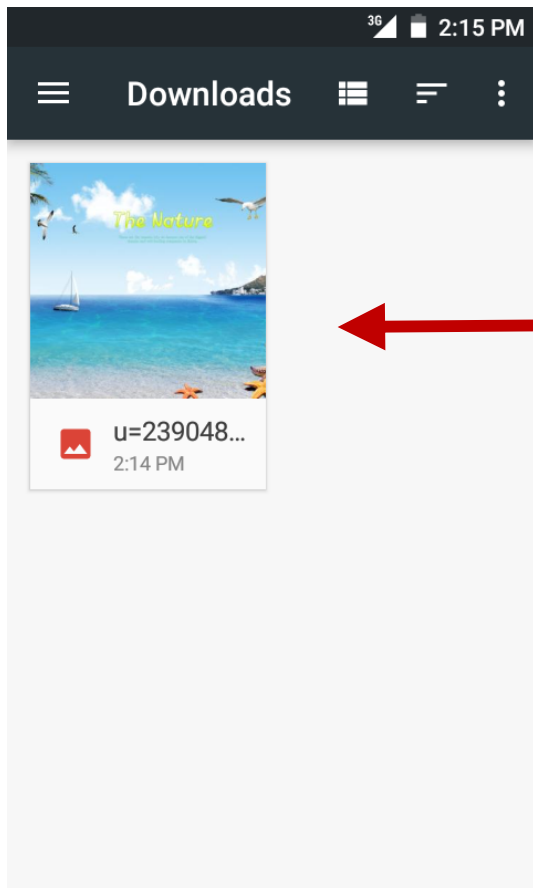

**Note:** Unsecured networks can be connected to directly - secured networks require a password or credentials prior to connection.

**List of available networks  
and the network  
connection screen**

# Downloads

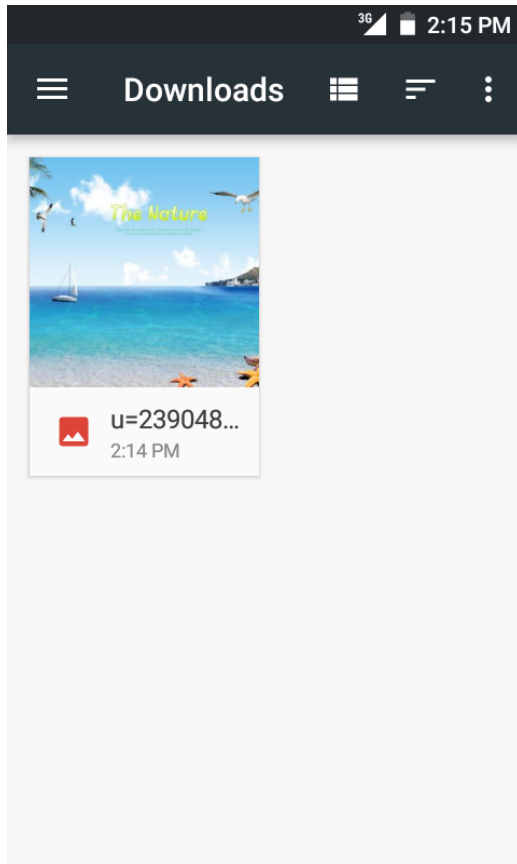

The download section of the phone keeps sorted all of the files that have been downloaded on the phone. The section can display the download by date or by size. To clear the file from the list, click on the box to the left of the file and then select the delete icon.

**Downloads may be sorted by name, date, and size**

The download section of the phone keeps sorted all of the files that have been downloaded on the phone.

The section can display the download by date or by size. To clear the file from the list, click on the box to the left of the file and then select the delete icon.

**Downloads may be sorted by name, date, and size**

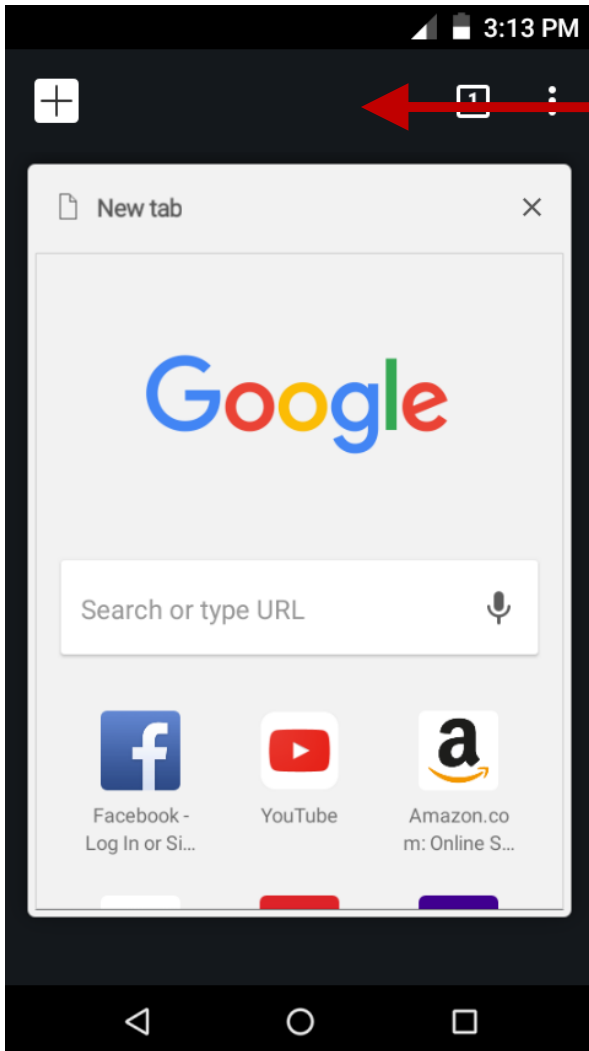

# Internet Browser

## **Menu Functions**

### **Windows**

- View all windows open by clicking the windows icon in the browser.

Click the “+” button to open a new tab

More

Find on page: Search current page.

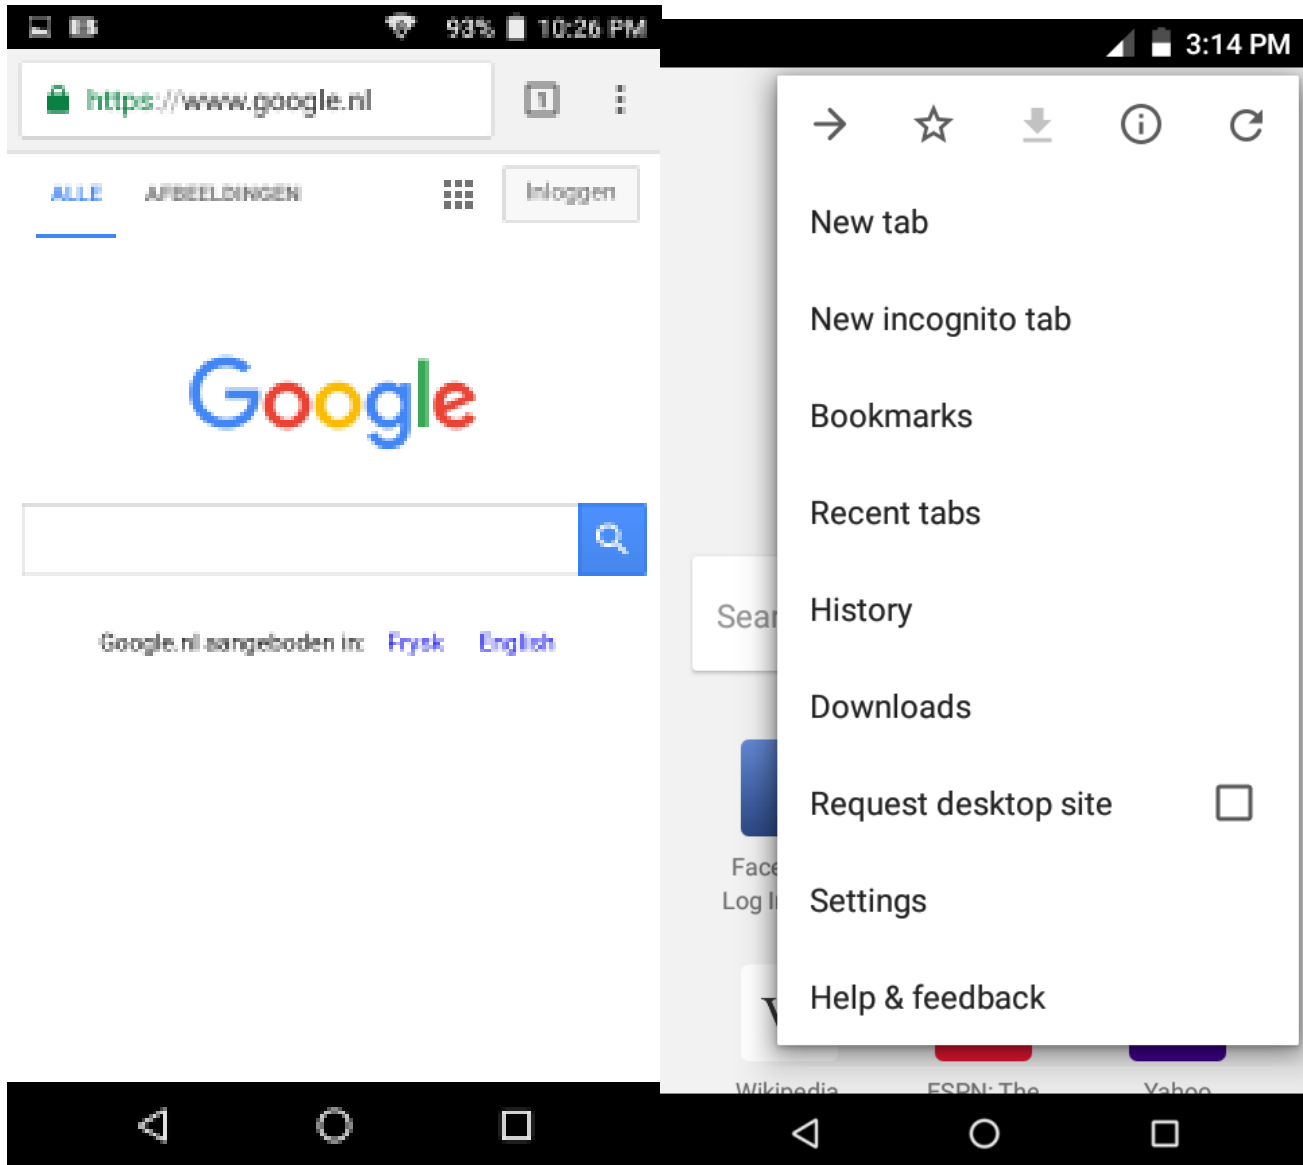

Share page: Select to share the current page.

Bookmarks/History: Show your bookmarks/browsing history.

Add to Home screen: Add the current page for the home screen.

Settings: Contains a variety of browser settings.

Downloads: Downloaded from the page

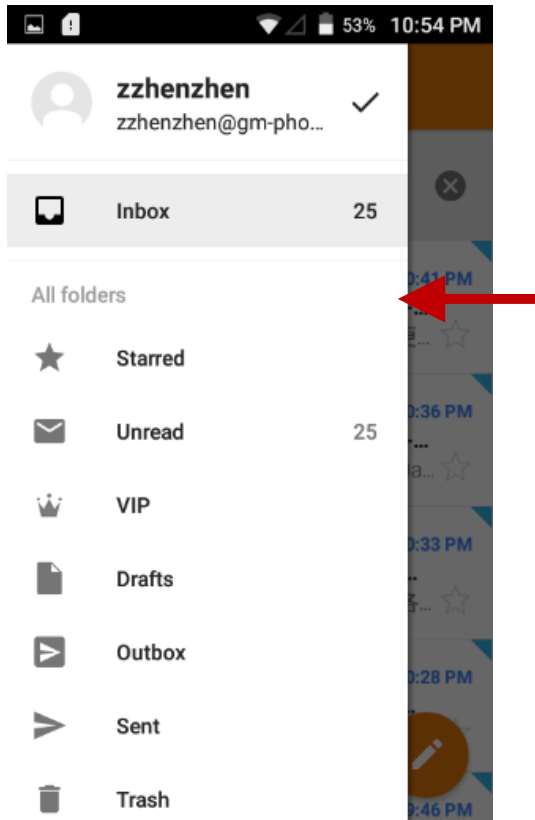

**Click menu to  
access the Google  
Chrome**

# Gmail

Gmail is Google's free email service. To access the Gmail program, click the applications menu and click on the Gmail icon and either sign in with your existing account or create a new one.

**Note:** In order to keep accounts streamlined with Google services, your Gmail account user name and password will be used for some Google programs which include: Google Play Store, Google Drive, Google +, Google Photos, and Google Wallet.

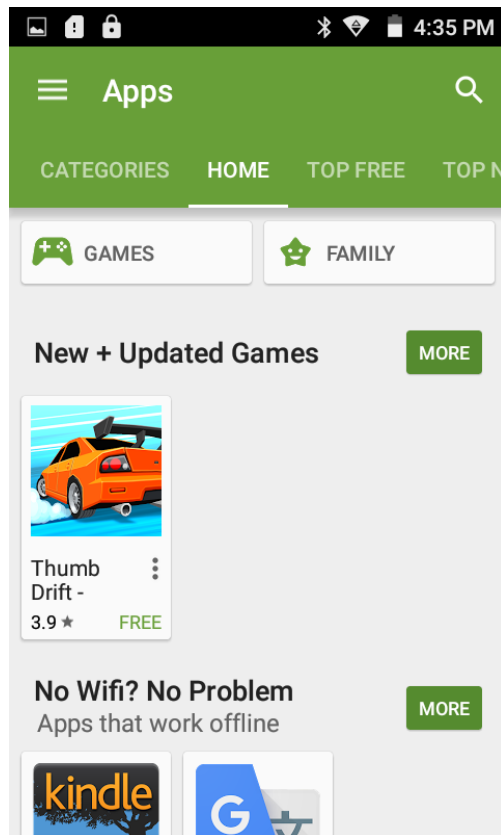

**The Gmail inbox is separated by default in three different categories.**

**These categories include primary inbox, social inbox where all your Facebook, Twitter, and social media emails are separated to and your Promotions inbox where all your commercial emails are separated.**

**You may add or delete other categories in Gmail settings**

# Play Store

Google Play allows you to download music, movies, and games directly to your device. To access the Google Play Store, click on the applications menu and then the Play Store icon.

**Search and select between  
different Play Store  
categories**

# Camera

**Prior to use:** Insert SD card before using the camera or video camera. All photos or videos taken by the phone are typically stored in the memory card for large storage capacity of images and videos.

## Open Camera

Click the Applications Menu » Camera

→ Switch to video mode if you want to record videos.

**Note:** *You may place a camera shortcut icon on any of the screens*

## Take Pictures

Aim the object that the picture will be taken.

- Press the Shutter button on the screen to capture image.
- After taking the picture, the file will be saved in the cameras gallery folder.
- You can view the photos by clicking the preview box button.

You may adjust various settings for the camera by pressing Menu while in the camera interface. When in the standard camera mode, you can switch to video to record or click the gallery preview box.

## Camera Options

Select between  
Camera & Video

# Google Photos

Now use Google photos instead of gallery

Google photos icon

## Open Images

Applications Menu » photos

**Pictures and videos  
are stored in  
separate albums**

## Share Pictures

You may share pictures by sending them through different types of installed applications. You may also send pictures through the MMS message function by attaching a picture and also via Bluetooth.

Share  
photos/videos

## Adjust Image

Click on the menu and select edit to adjust images. You may select from different effects that may include: Light, Color, Pop, Vignette, Mars, Photos, Deimos, Ceres, Juno, Saturn, Mimas, Rhea, Dione, Ariel, Triton, Venus, Pluto, Eris

## Crop Pictures

Click edit menu and crop to adjust the size of the picture.

Crop menu

# Play Music

## Open Music

Application Menu » Play Music

**Track Controls**

**Playback Options**

**Song Status**

## **Search Music**

You may choose to search for music from media folder through artist name, song name, album name. **The following formats are available:** AMR, MIDI, MP3, WAV, and OGG.

# **FM Radio**

## **FM Radio**

Through this function, you may listen to NextRadio on the device. The FM Radio uses the wired headphones as an antenna in order to receive signal. Before using this function, connect the original equipment headphones that came with the phone.

## **Open FM Radio**

Press the FM Radio icon to open the application.

← Radio Options

## FM Radio as Background

Click on the Home key to move the FM Radio to the background.

# Sound Recorder

You may send any recorded audio via Bluetooth or MMS and also have the option to make any recorded audio the phones default ring tone. The recorder uses AMR, 3GPP and OGG format.

## Record

- Keep the phone's microphone near the sound source.
- Click the record button to record the audio.
- Click the stop button to stop recording the audio.

Recording Time

Recording Controls

**Note:** All recordings are typically saved in the SD card folder. Please ensure the SD card is installed prior to recording.

# File Manager

The file manager allows you to search and organize your stored phone files conveniently and efficiently through one program.

**Scroll and search through  
the File Manager for  
stored phone files.**

**You may also search or  
add new folders from the  
File Manager interface**

# Google Calendar

The calendar helps keep track of your life's most important moments in one application.

Click and add the new event

# Google Alarm Clock

Click on the Clock icon then click the alarm tab to enter the alarm clock interface.

This option allows you to add and edit alarms.

**Click to add, edit or  
delete alarms**

# Settings

## Wireless & Networks

---

### Wi-Fi

- **Settings » Wi-Fi** to power on. When on, the Wi-Fi will automatically search for available networks. Any unsecured network can be used directly and any secured network requires a password or credentials prior to connection.

### Bluetooth

- Power on Bluetooth. Once on, Bluetooth will automatically scan for any nearby open devices.
- Click to connect device.

### SIM cards

Lets you turn on or turn off your SIM card and configure your SIM card to be used to voice call, video call, SMS send and data connection.

## Data Usage

- Mobile and Wi-Fi Data Usage

## More Wireless & Networks

- Tethering, Portable Hotspot, VPN
- Airplane Mode
- Cellular networks

**Note:** When in flight mode, all network connections will turn off automatically.

---

**Device**

## Display

- Brightness, Auto rotating screen, Wallpaper, Screen Timeout

## Sound & notification

This option sets the phone ring tone settings for receiving calls and notifications. Some of the settings include:

- Vibrate, volume, ring tones, ring tones notification, dial touchpad, and haptic feedback and tones

## Storage & USB

- View the phone memory usage.

## Battery

- General power usage

## Apps

- Manage applications - Manage and delete installed applications
- Running Applications- Press the 'Force Stop' button to stop any of the applications listed and removes from the running apps list.

---

**Personal**

## Location

- High Accuracy – Use GPS, Wi-Fi and Mobile Networks
- Battery Saving – Use Wi-Fi and Mobile Networks
- Device Only – Use GPS only to determine location

**Note:** GPS is dependent on phone hardware.

## Security

Set up basic screen locks: Use slide, pattern, PIN or password to lock the screen.

- Pattern: The first time there will be simple unlock instructions and examples. Click “next step” to continue the security pattern step
- PIN: Enter PIN number to unlock the screen
- Password: Use password to unlock the screen

*You may stop the security feature at any time.*

### **Set up SIM card PIN lock**

- SIM card PIN (Personal Identification Number) is used to prevent unauthorized use of SIM card.

To change a blocked PIN code, you will need to unlock the SIM lock then go to the Change Password

screen. The phone will automatically prompt you enter the old PIN code and ask to enter a new PIN code twice. The phone will then prompt you that the change was successful. If you enter the PIN incorrectly three times, the SIM and PIN codes will be automatically locked. You will need the PUK code to unlock the phone which is available through your service provider. If you enter the PUK code incorrectly 10 times, the SIM card will be permanently locked. Please see your service provider for a new SIM card

- Password visible – Make the password visible when it's typed
- Use security credentials - Allow applications to visit security credentials or other credential

### **Accounts**

- Lets you add, remove and manage your Google and other supported accounts.

### **Google**

- Set the google services

## Language and Input

- Language – Change the language of the phone
- Custom Dictionary - Add or delete words to the custom dictionary
- Keyboard Settings – Haptic vibration, Haptic tones, Capitalizing, Speech Input, Inputting words, Predictive text function, Auto-Text, Input keyboard method

## BLU Privacy:NEW function

## Backup & Reset

- Backup Data – Will back up all application data, WLAN passwords, and other settings to Google's servers
- Restore to Factory Settings - Clear all data stored

---

**System**

## Date & Time

- Date and Time adjustment.
- Select Date Format - There are 3 kinds of formats you can choose from: Month-Day-Year, Day-Month-Year and Year-Month-Day, and Year-Month-Day which is the default setting

### **Schedule Power On & Off**

- Schedule power on and off

### **Accessibility**

- Power button ends call and auto rotate screen
- Speak Passwords and large text

### **Printing**

- You may print files via Cloud Ready printers.  
(Please check Google Cloud Print website for printer compatibility information)

### **Developer Options**

If the phone does not display Developer options press “build number” seven (7) times in the about phone tab in settings.

- The developer option gives access to USB Debugging and other developer options

### **About Device**

- Phone information status and firmware updates

## **Storage**

Connect the phone with the USB cable provided. Once connected, a connection interface will appear. In the connection mode interface, select one of the available options to transfer files to your computer.

**You may select to transfer files through MTP. For pictures or images, select PTP**

# Troubleshooting

Below is a list of common problems that may occur when using your mobile phone. Try these easy troubleshooting steps to resolve any type of issues you may encounter.

## **The phone does not power on**

- Press and hold the power key until the startup sequence appears on the display.
- Check the battery level and ensure there is sufficient charge.

## **The phone does not respond after several minutes**

- Remove and insert the battery – If the phone has an internal battery, please press and hold the power button.

## **The phone powers off by itself**

- Check if the screen lock of the phone is enabled.
- Check if the phone needs to be charged.

## **The battery won't charge**

- Check if the battery is already fully charged.
- Make sure that the battery is inserted correctly.

- Ensure that the battery being used is a BLU approved battery.
- Double check if the charger connector is properly connected to the phone.

**Note:** Connect charger only after the battery has been inserted.

### **The standby time is too short**

- Please keep in mind that standby time relates directly to phone usage (Internet, Text, Voice Calls, Maps, etc.).
- Batteries typically have to be replaced after a year of use.

### **The phone cannot connect to the network (Voice or Data)**

- Verify if you have active service with your service provider.
- Contact your local network service provider and verify if you are within its network coverage area.

### **The phone displays a SIM Error**

- Make sure the SIM is properly inserted and in its intended slot.
- Make sure that the SIM card is not damaged or scratched.

### **The PIN code was entered incorrectly three times**

- The SIM card will lock and you will need to enter the PUK code (PIN Unlock Code). Please contact your local service provider to obtain the PUK.

### **I cannot make calls**

- Make sure that the number you dialed is correct and the dial key has been pressed.
- Use the full national area code when dialing out of your area or when abroad, use country-specific international access codes.

### **I cannot receive calls**

- Make sure that your phone is connected to a network.
- Check the phones Call Divert and Call barring settings (Check with your service provider for these settings and codes)

### **The caller ID does not display on incoming calls**

- Contact your local network service provider and verify you have the caller ID feature enabled on your account or verify if the caller may have blocked his number from appearing.

### **The caller cannot leave a voicemail message**

- Contact your local network service provider and verify if the voicemail service is active on your account or check if the network is busy.

### **The phone does not connect to the internet**

- Ensure with your service provider that your account has the appropriate internet/data plan enabled.
- Ensure internet APN settings are configured (Carrier dependent).

### **Text Messages cannot be Sent / Received**

- Ensure text messaging is enabled with your service provider.

- Ensure APN settings are configured (Carrier dependent).

The information provided in this user manual is subject to change without notice and BLU Products reserves the right to modify the manual at any given time. BLU Products has made every effort to ensure that this user manual is accurate and disclaims responsibility and liability for any inaccuracies or omissions.

**Note:** Some software, user interface, and internal elements may vary depending on final version.

Software version NO.: BLU\_5201\_EQ\_GENERIC\_V7.0.01.00\_2017-09-26-23-20

## **FCC Warning:**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on,

the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**Specific Absorption Rate (SAR) information:**

SAR tests are conducted using standard operating positions accepted by the FCC with the phone transmitting at its highest certified power level in all tested frequency bands, although the SAR is determined at the highest certified power level, the actual SAR level of the phone while operating can be

well below the maximum value. Before a new model phone is available for sale to the public, it must be tested and certified to the FCC that it does not exceed the exposure limit established by the FCC, tests for each phone are performed in positions and locations(e.g. at the Limb and worn on the body), as required by the FCC. For body worn operation, this model phone has been tested and meets the FCC RF exposure guidelines when used with an accessory designated for this product or when used with an accessory that contains no metal and that positions the handset a minimum of 10mm from the body. Non-compliance with the above restrictions may result in violation of RF exposure guideline.
