

Circuit Description

The product operating with a battery, the voltage is 3.0V, Once press the key, MCU AT11V Compile order and send it out via TX PT4450. A 433MHz crystal supply to TX PT4450. Then the signal transmitting to a receiver.

Antenna Specification:

Type of Antenna: PCB Antenna

Frequency Range: 433.92MHz

Maximum Gain: 0 dBi

Impedance: 50 ohm

Size: 20mm x 20mm
