

GUANGDONG ROULE ELECTRONICS CO., LTD.

Family Model Letter

I, the undersigned, hereby confirm that any of our production units bearing the following models numbers are said to be identical in same technical construction including circuit diagram, The combination is inconsistent, There are some slight differences in the power supply motherboard of the indoor host, see the photo for details

Model	Combination method	Photo	
RL-IP09D	Transmitter Host+ 433MHz Receiver		N/A

RL-IP09D-DC	Transmitter Host+ 433MHz Receiver+Solar panels	 A photograph showing the RL-IP09D-DC kit components. It includes a silver transmitter host with a camera and microphone, a white receiver with a circular button, and a white rectangular solar panel. All components are placed on a blue surface next to a metal ruler for scale.	 A photograph showing the RL-IP09D-CLOCK, RL-IP09D-DLOCK, and RL-IP09D-LOCK kit components. It includes a silver transmitter host with a camera and microphone, a white receiver with a circular button, and a black power adapter with a cord. All components are placed on a blue surface next to a metal ruler for scale.
RL-IP09D-CLOCK RL-IP09D-DLOCK RL-IP09D-LOCK	Transmitter Host+ 433MHz Receiver+Adapter	 A photograph showing the RL-IP09D-CLOCK, RL-IP09D-DLOCK, and RL-IP09D-LOCK kit components. It includes a silver transmitter host with a camera and microphone, a white receiver with a circular button, and a black power adapter with a cord. All components are placed on a blue surface next to a metal ruler for scale.	 A close-up photograph of the black power adapter with a cord. The adapter is labeled with a UL logo and the text 'KODOMA' and 'LISTED'. It is connected to a black cable. A metal ruler is visible next to it for scale.
