

2.4GHz

Wireless Notebook Optical Mouse

ENGLISH

RF Specifications

- Number of Channels: 34
- Carrier Frequencies:
2408MHz-2474MHz

Receiver Specifications

- Input Power: 5V DC, 30mA
- Interface: USB 1.1

Mouse Specifications

- Buttons: Left, Right, Middle, DPI
- Resolution: 800 / 1200 / 1600 DPI
- Input Power 3.0V, 2*AAA
- Power Consumption: 13mA
- Tracking Speed: up to 14 inch/second and 8G

System Requirement

IBM PC or compatible
Available USB port
Microsoft Windows 2000 / XP / VISTA / 7

ESPAÑOL

Especificaciones de RF

- Número de Canales: 34
- Portador de frecuencias:
2408MHz-2474MHz

Características del receptor

- Potencia: 5V DC, 30 mA
- Interfaz: USB 1.1

Características del ratón

- Botones: izquierda, derecha, Medio, DPI
- Resolución: 800 / 1200 / 1600 del DPI
- Potencia de entrada de 3.0V, AAA X 2
- Consumo de energía: 13mA
- Seguimiento de Velocidad:
hasta 14 pulgadas por segundo y 8G

Package contains

Wireless optical mouse
Receiver
2*AAA battery

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- . Reorient or relocate the receiving antenna.
- . Increase the separation between the equipment and receiver.
- . Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- . Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: To assure continued compliance, any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. (Example - use only shielded interface cables when connecting to computer or peripheral devices).
