

Date: 2017-03-08

TO: Federal Communication Commission  
Equipment Authorization Branch  
7435 Oakland Mills Road  
Columbia, MD 21046

Ref: FCC ID YIIPID002 / IC 9050A-PID002

To whom it may concern:

This letter is confirmation of our request to apply for a permission to change the FCC and IC ID of the M6E-NANO-module supplied by ThingMagic (previously Trimble Navigation Limited) and to have a C2PC for the module after the change.

The module was previously certified under the FCC ID QV5MERCURY6EN on the 28<sup>th</sup> April 2015 and under IC 5407A-MERCURY6EN on the 9<sup>th</sup> June 2015. We wish to change the FCC ID to YIIPID002 and the IC ID to 9050A-PID002.

The changes of the module compared to the present grantee are as follows:

- the module will be installed in a device which will be used near body (<20 cm)
- the module will be used with a different antenna than mentioned in the present grantee
- device classification type change from mobile to fixed

No other modifications are performed. In addition, the changes don't have any impact on the approved radio parameters such as power, frequency range, modulation etc.

Accompanying this letter is a letter from ThingMagic confirming their permission for us to carry out this change.

We hope this meets with your approval and should you have any queries, please feel free to contact us.

Sincerely,

Lars Moring  
Regulatory Affairs Manager
