Subject: Requesting Class II permissive change for FCC ID: YIY-PROD1177

To Whom it May Concern:

The purpose of this letter is to request a Class II Permissive change for FCC ID: YIY-PROD1177, i.e. extending operating frequency range from 920-921 MHz to 903-927 MHz. To accommodate the extended operating frequency range, no hardware changes have been done and the V2V Radio power setting was reduced via software settings, to be in-line with the existing transmit power listed in FCC ID: YIY-PROD1177.

We confirm original RF exposure test report remains valid for this C2PC certification.

If you have any questions regarding this request for certification, please feel free to contact me.

Best Regards

Yours Sincerely,

Name: Renee Jones

Position: Global Program Director
