

Operational Description of the DCL074

The DCL074 area light is a battery-powered work light with multiple mounting options. Besides floor or tabletop use, the light can be hung from the built-in hook or the hanging insert for a separate cord or it can be mounted on a tripod. The light can be controlled via the keypad or Bluetooth wireless control using the DeWalt Tool Connect app on a device. The radio is Bluetooth 4.0 and it is BLE only.
