Attestation Letter

To Whom It May Concern,

The chip CMT2189C installed in our product Remote for Garage Door Opener (model name: R3MBU, FCC ID: YJFRMTX02-CC), which supports frequency range 240-960MHz and modulation FSK , GFSK and ASK. But for the product, it only activates frequency 315MHz , 390MHz and ASK modulation , the other frequency and modulation are disabled by using the software.

Please contact me if there is need for any additional clarification or information.

Best Regards,
