

Get the most from your Smart Controller!

Read and follow all installation instructions.

Smart Controller Installation Guide

Installation requires no
special tools

Model V3BU

www.beamlabs.io
1(888) 323-9782

- Share unlimited access with friends and family.
- Explore integrations with Amazon Alexa, Google Assistant, IFTTT and the Apple Watch.
- Register your Smart Controller:
www.beamlabs.io/warranty
or scan the QR code here:

TIPS:

1. Setup on homeowner's smartphone.
2. Need WiFi home network ID and password with you during set-up.

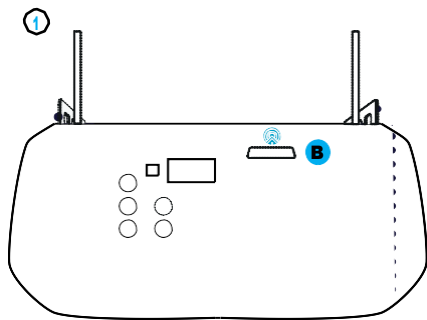

Smart Controller

1 Install the beam Smart Controller

- Verify that your garage door opener is connected to power.
- Plug the **A** Smart Controller into the **B** beam smart port, look for the beam logo on your garage door opener. Make sure the Smart Controller is fully inserted and flush with the garage door opener.

TIP: After plugging-in the Smart Controller verify that LED on the smart controller is blinking (orange). If the LED does not blink orange, press the Reset Button **C** on the Smart Controller for 10 seconds, the garage door opener will beep 3 times.

2 Download the beam Home app & begin setup

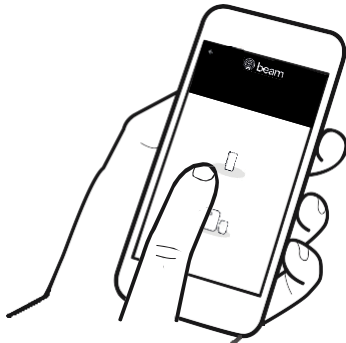

While inside your garage download the **“beam Home”** app from the App Store (iOS) or Play Store (Android).

- Open the app, and select **“Setup your beam”**.
- Create an account and choose your V3 device.
- Follow the directions on the beam Home app to set-up your Smart Controller with your phone.

NOTE: beam only connects to 2.4GHz networks.

For troubleshooting and integration setup tips go to www.beamlabs.io or call **1(888) 323-9782** for Technical Service.

Warning:

To reduce the risk of injury to persons:

- Use this Smart Control only with Residential Sectional Garage doors.
- Do not enable this device on a one-piece or swinging garage door.

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful

interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Important Note:

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
