

User Manual

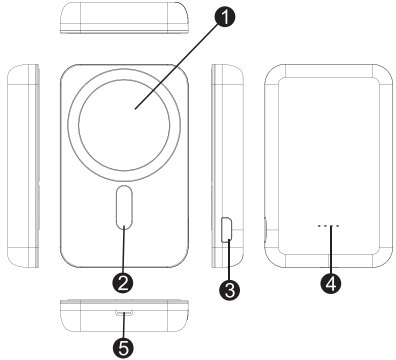

Model:06723

5000mAh Power bank

Please read this manual before using the product and keep it for future reference.

COMPONENTS

1.Wireless magnetic attraction ring

2.Mobile phone counterpoint

3.Mobile power switch

4.Electric quantity display LED lamp

5.TYPE-C input and output port

PRODUCT PARAMETERS

Model	06723
Capacity	5000mAh(3.7V)
Input	TYPE-C:5V/3A 9V/2.22A
Output	TYPE-C:5V/3A
Size	100mm*63mm*15.5mm
Weight	138g±10g
Wireless charging output	5W 7.5W 15W

\*Temperature Range

Charge:0℃ ~ 45℃

Discharge :-20℃ ~ 60℃

Storage: 10℃ ~ 25℃ Within 1 year

0℃ ~ 45℃ Within 3 months

-10℃ ~ 60℃ Within 1 month

\*Humidity range

Operation humidity range: Less than 75% RH

Storage humidity range: Less than 75% RH

INSTRUCTIONS

1.Electric quantity display

	When one light is on, which means that the power is0 ~ 25%
	Two lights are on, which means that the power is 26%-50%.
	Three lights are on, which means that the power is 26%-50%
	Four lights are on, which means that the power is 76%-100%

Charging status of the charger to the product: when charging the mobile power supply, first of all, the LED1-4 white indicator light runs once, before the current power LED light is steady on, the current power LED light flashes, when the LED is all steady on, it means that the product is full.

3.Button function

Button function: Touch the button to turn on the output, and the LED indicator lights up to display the current power; In hibernation mode, press the button to display the current battery and turn on the output. If there is a load, the output will continue to boost the voltage. If there is no load, the system automatically shuts down for 30S and enters the hibernation mode. Double click to shut down ireless charging function: click the button to open the output, and the wireless charging light is on when loaded (support 5W,7.5W, 15W (MPP)

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference, and  
(2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
