ATTN: Authorization and Evaluation Division
PER: Tune Up Procedure
RE: RFBE860

Manufactures' Tune Up or Alignment Procedures

There are no tune up or alignment procedures for the *RFBE860* product due to the fact that there are no field-adjustable Tune Up or Alignment requirements. All adjustments and calibrations are performed using factory Automated Test Equipment (ATE) procedures prior to product shipment.

A handwritten signature in black ink, appearing to read "Sean Johnson". The signature is fluid and cursive, with the first and last names being the most prominent parts.

Sean Johnson
