Re: FCC ID: YKD-25TWD3000-029

To Whom It May Concern:

The following application is submitted on behalf of our client, L-3 Communications CyTerra Corporation, for evaluation of their model Range-R Link (FCC ID: YKD-25TWD3000-029) for a Class 2 Permissive Change under FCC Part 15.247.

The Ranger-R Link is a WLAN 802.11b/g/n wireless module. The purpose of the Class II Permissive change is to include a 2 dBi chip antenna as well as co-location with FCC ID: YKD-25TWD3000 when integrated within specific host device Range-R.

The FCC ID: YKD-25TWD3000-029 was evaluated while configured within the Range-R host for radiated spurious emissions as well as intermodulation products with the co-located radios transmitting at the same time. All radiated emissions were found to be in compliance with the aforementioned test requirements.

Sincerely,

A handwritten signature in black ink that reads "R. Sam Wismer". The signature is written in a cursive style with a large initial 'R'.
