Re: FCC ID: YKD-25TWD3000

To Whom It May Concern:

The following application is submitted on behalf of our client, L-3 Communications CyTerra Corporation, for evaluation of their model Range-R (FCC ID: YKD-25TWD3000) for a Class 2 Permissive Change under FCC Part 90 in accordance with waiver DA 09-2482.

The Ranger-R is a handheld wireless radar transceiver operating from 3.18 MHz to 3.42 MHz. The purpose of the Class II Permissive change is to address co-location with IEEE 802.11b/g/n WLAN module model Range-R Link (FCC ID: YKD-25TWD3000-029).

The assessment consisted of MPE calculations as well as radiated intermodulation products evaluation with the co-located radios transmitting at the same time. The FCC ID: YKD-25TWD3000, when configured with the wireless module Range-R Link, was found to be in compliance with the aforementioned requirements.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive style with a large initial 'R'.
