731 Marshall Road, Malaga,
Western Australia
6090
ABN 65 057 696 438

5th December 2011

To Whom It May Concern:

This authorization applies to Spectra Engineering. FCC ID: OKRMX800TRV.
The commission on November 23, 2011 originally certified this product under FCC ID:
OKRMX800TRV

Utility Communications has submitted for an equipment authorization based on the
Spectra Engineering OKRMX800TRV Grant.

We are aware that Utility Communications intends to market the above referenced
product under their own FCC ID: YMN-UTR1600 Spectra Engineering will also
continue to market the product under the OKRMX800TRV Grant.

Spectra Engineering is the current and only manufacturer of this equipment.
Utility Communications Inc is an OEM reseller of the equipment in the USA.

The only difference between the equipment being shipped to Utility
Communications and the Spectra Engineering labeled equipment would be the front
panel and front panel artwork.

The original test results continue to be representative of and applicable to the
equipment beading the changed identification.

The FCC ID label for the Utility Communications equipment would be located in the
same position on the equipment as the Spectra Engineering labelled units.

Sincerely,

Gary Jacobs
Managing Director
