

## Manual

The Tire Pressure Sensor is manufactured by the grantee Alligator Ventilfabrik GmbH.  
The Tire Pressure Sensor is sold as OEM and Aftermarket product.

In the case of an Aftermarket business, Alligator ensures to print the FCC manual statement on the packaging and/or separate printed manual that comes with the product to notify the end-user of the commercial product.

In the case of an OEM business, Alligator ensures to supply the FCC manual statement to the OEM / Reseller of the product dictating what must be included in the end-user's manual for the commercial product.

The text below must be included in the end product user's manual to ensure continued FCC and Industry Canada regulatory compliance. The ID numbers must be included in the manual if the device label is not readily accessible to the end user. The compliance paragraphs below must be included in the user's manual.

### English Text

#### Declaration of conformity

This device complies with Part 15 of the FCC Rules and with Industry Canada licence-exempt RSS standard(s).

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

### French Text

#### Déclaration de conformité

Cet équipement est conforme à la partie 15 des réglementations FCC et aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence.

Son utilisation implique que les deux conditions ci-après sont remplies:

- (1) cet équipement n'est pas susceptible d'émettre des interférences nuisibles, et
- (2) cet équipement supporte toutes les interférences reçues, y compris celles qui pourraient affecter son bon fonctionnement.
