

Limited MODULAR APPROVAL LETTER

FCC ID: YNCNT2400R56-2C

Item	Requirements	EUT
1	The modular transmitter must have its own RF shielding	Yes, this module has RF sheilding
2	The modular transmitter must have buffered modulation/data inputs.	Buffered data inputs stage has been integrated in chip(UPD78F1146AF1-AN1-A)
3	The modular transmitter must have its own power supply regulation.	No, this module does not have own power supply regulation
4	The modular transmitter must comply with the antenna and transmission system requirements of sections 15.203, 15.204(b) and 15.204(c)	This module contains printed antenna. Standard connector is not available. Requirements of 15.203, 15.204(b) and 15.204(c) are fulfilled. See internal and external photos
5	The modular transmitter must be tested in a stand-alone configuration, i.e., the module must not be inside another device during testing. This is intended to demonstrate that the module is capable of complying with Part 15 emission limits regardless of the device into which it is eventually installed.	Yes, please refer to test setup photos
6	The modular transmitter must be labeled with its own FCC ID number, and, if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module. This exterior label can use wording such as the following: "Contains Transmitter Module FCC ID: XYZMODEL1" or "Contains FCC ID: XYZMODEL1." Any similar wording that expresses the same meaning may be used. The Grantee may either provide such a label, an example of which must be included in the application for equipment authorization, or, must provide adequate instructions along with the module which explain this requirement. In the latter case, a copy of these instructions must be included in the application for equipment authorization	Include this information in the user manual. If the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module. This exterior label shall be: "Contains FCC ID: YNCNT2400R56-2C"
7	The modular transmitter must comply with any specific rule or operating requirements applicable to the transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements.	The required FCC rule has been fulfilled and all the instructions for maintaining compliance has been clearly stated in the users manual.
8	The modular transmitter must comply with any applicable RF exposure requirements.	Yes, please refer to test report

Please do not hesitate to contact me for any questions of this request letter. Thank you.
