Attn : Mr. KC Lee

Dear Sir,

Re : Non Medical Letter

This package (CE-IIP) is People-oriented foundation for the needs of the elderliness' dignity.

New power of the elderly care homes' electronic caring services implementation.
A new indicator of future services.

The elderly in need of litter and parties, have long been in the "self" and "dignity" issue.

CAREase, through science and technology, automatically inform nursing staff in each litter, give you immediate help, less worry, more dignity.

CAREase, a CKICOM Technology Ltd. caring product, special offer for the elderly homes, care homes and individual.

CAREase system is basically founded by an electronic receiver, a sense of transmitters and a wet sensor diapers / pants. Installing one sensor on the diaper and automatically transmit signal when litter occurs, then receiver immediately display and light to informed caregivers.

..... P.2

CAREase, easy to use. Electronic sensor diapers same as adult diapers in market, dressed the same. Power up the receiver, add the sensor to the induction line of electronic sensor diaper, then able to work properly.

Important: This product is purely use for homes and individual caring, and not for medical purposes.

Yours sincerely,

For and on behalf of
