Introduction.....	81
Radio	85
Audio players.....	88

Overview

1. [POWER]

When the power is ON:

- Short press: Audio mute on/off.
- Long press: Turns on/off the radio.

When the power is OFF:

Pressing the power button turns the power ON.

2. [VOLUME]

Volume adjustment

3. [FAV]

Radio Mode

- Short Press: Selection favorite page
- Long Press: Auto-store function, Search and memory the best 12 stations.

4~9. [PRESET] #1~#6

Radio Mode

- Short Press: Recall the pre-memorized station in the preset memory
- Long Press: Store to preset memory

10. [EJECT]

Eject the disc from the CD deck.

11. [TUNE UP]

Radio mode

- Short Press: FM Memory Skipping Up
- Long Press: Seek Up

CD mode

- Short Press: Next track or file playback
- Long Press: Fast-forward playback

12. [TUNE DOWN]

Radio mode

- Short Press: FM Memory Skipping Down
- Long Press: Seek Down

CD mode

- Short Press: previous track or file playback
- Long Press: Fast-reverse playback

13. [MENU]

Rotation in Primary Page

Radio mode

- Clockwise Direction: Next Frequency
- Anti-clockwise Direction: Previous Frequency

Playback mode like CD, USB iPod and so on

- Clockwise Direction: Show track lists and next track
- Anticlockwise Direction: Show track lists and previous track

Push on Primary Page

-Entrance to each menu

Push on Sub-menu Page

-selection

Rotation in Sub-menu Page

- Clockwise Direction: Show track lists and next track
- Anticlockwise Direction: Show track lists and previous track

14. [BAND]

Radio Mode selection

AM or FM radio band selection

15. [BACK]

Return to previous display or cancel

16. [CD/AUX]

Entrance to CD, Auxiliary Input and A2DP

17. [Clock]

Enter Clock Menu

18. [PHONE/MUTE]

Case 1: without hands-free function

- .Audio mute on/off

Case 2: with hands-free function

- .Short press: Entrance to phone mode

- .Long press: Audio Mute on/off

19. [TONE]

Entrance to audio setting menu

20. [INFO]

Information display about current mode

21. [CONFIG]

Entrance to configuration menu

22. Aux Socket

Stereo Jack input

Operation Power On/Off

Power On F Press [POWER] to turn on the radio.

Power off Press [POWER] turn off the radio.

Audio Mute

Press [PHONE/MUTE] to make audio mute when the power is on.

Volume Adjustment

Turn the volume knob clockwise to increase the audio volume.

Turn the volume knob counter-clockwise to decrease the audio volume.

By above procedure, the 48 stations are stored in the favorite preset memory.

Recall favorite preset

You can listen to the station stored in the favorite preset by the following procedure.

Step 1: Select the favorite page by pressing [FAV/INFO].

Step 2: press [PRESET #] which is stored the station you want to listen to.

Auto-store Function Auto-store

Press [FAV] more than 1 second, then radio starts auto-store function.

Traffic announcement reception

Press the [TP] to listen the traffic announcement from other station.

Traffic announcement reception cancel

Press the [TP/MENU] to cancel the traffic announcement reception the radio make the traffic announcement disable.

Traffic station seek

Press the [TP/MENU] in the station don't have traffic information, the **Infotainment system 87** radio search the next station that have the traffic announcement.

Radio Reception

Radio reception may be disrupted by static, noise, distortion or loss of reception due to „ changes in distance from the transmitter, multi-path reception due to reflection and shadowing.

Audio players

CD Player

As each CD is inserted, the radio will appear on the display and as each CD is loading, File check will appear on the display.

Once playback begins, the track and track number will appear on the display.

If the ignition or radio is turned off with a CD in the player, it will stay in the player. When a CD is in the player and the ignition is turned on, the radio must be turned on before the current CD will start playback. When the ignition and radio are turned on, the CD will start playing where it stopped, if it was the last selected audio source.

The CD player can play the smaller 3 inch (8cm) single CDs with an adapter ring. Full-size CDs and the smaller CDs are loaded in the same manner.

If playing a CD-R, the sound quality may be reduced due to CD-R quality, the method of recording, the quality of the music that has been recorded, and the way the CD-R has been handled. There may be an increase in skipping, difficulty in finding tracks, and/or difficulty in loading and ejecting. If these problems occur, check the bottom surface of the CD. If the surface of the CD is damaged, such as cracked, broken, or scratched, the CD will not play properly. If the surface of the CD is soiled, see Care of Your CDs for more information.

If there is no apparent damage, try a known good CD.

Do not add any label to a CD, it could get caught in the CD player. If a CD is recorded on a personal computer and a description label is needed, try labeling the top of the recorded CD with a marking pen instead.

Caution

If you add any label to a CD, insert more than one CD into the slot at a time, or attempt to play scratched or damaged CDs, you could damage the CD player. When using the CD player, use only CDs in good condition without any label, load one CD at a time, and keep the CD player and the loading slot free of foreign materials, liquids, and debris.

Disc Insert

Insert a CD into a CD slot with CD label up, then the radio insert into the slot automatically and does playback.

CD Playback Mode Selection

Insert a CD into CD deck, then the radio goes to the playback mode. Or press the [CD] to playback the disc from other mode when CD is inserted.

Infotainment system 89 CD EJECT

Press the [EJECT], then the disc will be ejected from the radio. Pull out the disc out of the radio.

Pause

Press [CD] to pause playback while a CD is playing back. "PAUSE" will flash on the display. Press [CD] again to start playback.

Next/Previous Track

Press [TUNE UP/TUNE DOWN], then the radio starts playback of the next/previous track.

Fast forward/Fast reverse

Press and hold [TUNE UP/TUNE DOWN], then the radio plays back fast forward/fast reverse.

Next/Previous Folder - only MP3/WMA disc

Press [SEEK UP/SEEK DOWN], then the radio starts playback of the next/previous track.

RPT (Repeat)

Press [2 RPT], then radio plays back current track repeatedly. To cancel this function, press [2 RPT] again.

RDM (Random):

Press [3 RDM], then radio plays back tracks randomly. To cancel this function, press [3RDM] again.

INT (Intro-Scan):

Press [4 INT], then radio plays back just 10 seconds of the current track, jump to next track and do this action repeatedly. To cancel this function, press [4 INT] again.

All/Directory Mode - only MP3/WMA disc

Repeat, intro-scan and random function operates in this folder when "all mode" is active. Press [1 DIR] then radio operates in the directory mode. To cancel this function, press [1 DIR] again.

ID3 Tag information display - only MP3/WMA disc

Press [FAV/INFO], the radio displays the ID3 tag information of the current files.

Auxiliary Devices USB playback mode USB Playback Mode Selection

Press the [USB] to change to play back the USB files from other mode.

USB memory insertion

Insert a USB memory into the USB socket, so the radio plays back the USB files automatically.

USB Extraction

Pull the USB memory from the USB socket by hand.

* Other functions are same with CD mode.

AUX mode

The radio has one auxiliary input jack(diameter 3.5mm) located on the lower right side of the faceplate.

This is not an audio output; do not plug the headphone set into the front auxiliary input jack.

You can however, connect an external audio device such as an iPod, laptop computer, MP3 player, CD changer, or XM™, receiver, etc. to the auxiliary input jack for use as another source for audio listening.

AUX In Mode Selection

Press [AUX] in the other playback mode. If the auxiliary jack isn't detected for the presence of an output jack, the aux mode will be prevented.

BLUETOOTH Mode

Pairing and connection.

1. Using Configuration.

Step 1. Press Config button.

Step 2. Choice Bluetooth Settings

Step 3. Choice Bluetooth

Step 4. Choice Pair device(Add device) -> "Waiting for Pairing [0000]"

Step 5. Try to pair with set by phone.

Step 6. If phone support auto connection, phone would be connected automatically after paring with set.

If phone doesn't support auto connection, you have to try to connect by using device lists.

2. Using Phone menu.

Step 1. Press phone button. ("No phone available")

Step 2. Press phone button again. ("Enter number, Phonebook, Call lists, Bluetooth")

Step 3. Choice Bluetooth Settings (By pressing menu button at Bluetooth settings)

Step 4. Choice Bluetooth (By pressing menu button at Bluetooth)

Step 5. Choice Pair device(Add device) -> "Waiting for Pairing [0000]"

Step 6. Try to pair with set by phone.

Make a call

Step 1 : Connect phone and set (refer to pairing and connection)
Step 2. Press phone button. ("Phone's name")
Step 3. Press phone button again. ("Enter number, Phonebook, Call lists, Bluetooth")
Step 4 : Choice enter number (By pressing menu button at enter number)
Step 5 : Choice number that you want to make a call (By pressing menu button at number)
Step 6 : Make a call (By pressing menu button at number)

Phonebook Download (Only when phone support PBAP[Phone Book Access Profile])

Step 1 : Connect phone and set (refer to pairing and connection)
Step 2. Press phone button. ("Phone's name")
Step 3. Press phone button again. ("Enter number, Phonebook, Call lists, Bluetooth")
Step 4 : Choice Phonebook (By pressing menu button at phonebook)
Step 5 : Choice Update (By pressing menu button at Update)
 <At this time, Connection with phone and set will be disconnected>
Step 6 : Phonebook download.
Step 7 : Choice search (By pressing menu button at search)

Call list

(If phone send car audio call lists data, car audio will display cell phone's call list, otherwise car audio display call lists only after connection with car audio.)

Step 1 : Connect phone and set (refer to pairing and connection)
Step 2. Press phone button. ("Phone's name")
Step 3. Press phone button again. ("Enter number, Phonebook, Call lists, Bluetooth")
Step 4 : Choice Call list (By pressing menu button at Call list)
Step 5 : Choice Incoming call (pressing menu button at Incoming call)
Step 5 : Choice Outgoing call (pressing menu button at Incoming call)
Step 5 : Choice missed call (pressing menu button at missed call)

Adjust Ring volume and Ring tone

(If phone send car audio phone's ring tone, phone's ring tone will be heard to user, in this case, user can't adjust ring volume by car audio, otherwise user can adjust ring tone and volume by car audio)

Step 1. Press phone button. ("Phone's name" or "No phone available.)
Step 2. Choice Bluetooth Settings (By pressing menu button at Bluetooth settings)
Step 3. Choice Sound&Signals (By pressing menu button at Sound&Signals)
Step 4. Choice Ring volume (By pressing menu button at Ring volume)
Step 4. Choice Ring tone (By pressing menu button at Ring tone)

1. Adjust Ring volume

Ring volume means that let user know incoming call's ringing.

Ring volume is louder toward 3

2. Adjust Ring Tone

User can choice incoming ring tone. The number of ring tone are 5.

Bluetooth factory restore

- Step 1. Press phone or config button
- Step 3. Choice Bluetooth Settings (By pressing menu button at Bluetooth settings)
- Step 4. Choice Factory restore (By pressing menu button at Factory restore)
- Step 5. Choice Ring volume (By pressing menu button at Ring volume)
- Step 5. Choice Ring tone (By pressing menu button at Ring tone)

**** While device is downloading phonebook, connection would be disconnected => After downloading complete, device could be connected automatically****

⇒ During download phonebook, our device doesn't support Handsfree function.

**** A2DP could not be played, if you don't have tried to start to play music by phone after connection.****

Steering wheel audio controls

[PWR]

Power on: Press this button. Power off: Press this button more than 1 second.

Audio mute: Press this button when the power is on.

[+]

Press [+] button to increase the audio volume. Press this button, then the radio increases the audio level. If this button is pressed more than 1 second, then the radio increases the audio volume step by step.

[−]

Press [−] button to decrease the audio volume. Press this button, then the radio increases the audio volume. If this button is pressed more than 1 second, then the radio decrease the audio volume step by step.

[SEEK]

RADIO MODE

Press this button to move to next preset station. (Favorite preset #1→#2→#3→#4...)

Press this button more than 1 second to search for the next station.

CDP MODE

Press this button to jump to the next track. (Track01→Track02→...) Press this button more than 1 second to play back the track fast forward.

[MODE]

The play mode will be change by following order whenever this button is pressed.

FM→AM→(CDP)→(USB)→(AUX)→FM... The radio skips the CDP mode if there is no disc in the radio. The radio skips the USB mode if there is no USB memory on the radio. The radio skips the AUX mode if there is aux jack in the socket on the radio.

General section

Power supply	DC 14.4V Negative Ground
Speaker impedance	4 ohm
Max. Power	20Wrms per channel into 4 channels at Vbatt = 14.3 V with THD ≤ 5%.
Weight	2210 g
Dimension	226 x 101 x 180
Active Current	Max 10A

MP3[WMA]/CD section

MP3

Variable Bit Rate (VBR)
8~320Kbps
Sample Rates : 16, 22, 32, 44.1, 48kHz
Channel : Mono, Stereo, Joint Stereo
Playlist Format (m3u, pls)
Support ID3 V1, v2X tag, ASCII and Unicode.

WMA

Support for WMA 9 and over
Support Meta Data (*.wax, *.asx (*.ASF) ...)
Presentation of the file system according to ISO file hierarchy and Flat file structure incl. Joliet Extension

CD Optical Disc Format Support

CDDA, CDR, CDRW, CDROM, Mixed Mode CD, Open Session CD, "Book on Disc" audio content

FCC ID : YRN-AGC-1056AT

IC : 9209A-AGC1056AT

FCC WARNING

This equipment may generate or use radio frequency energy. Changes or modifications to this equipment may cause harmful interference unless the modifications are expressly approved in the instruction manual. The user could lose the authority to operate this equipment if an unauthorized change or modification is made.

NOTE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment may cause harmful interference to radio communications, if it is not installed and used in accordance with the instructions. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to

correct the interference

by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IC (Industry Canada) Notice

Operation is subject to the following two conditions : (1) This device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. The term "IC:" before the certification/registration number only signifies that the Industry Canada technical specification were met.

Caution

This device complies with part 15 of the FCC rules. Operation is subject to the following conditions:

(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

FCC RF Radiation Exposure Statement:

1. This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
2. This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the radiator and your body.
