Re: Change in identification of equipment

To Whom It May Concern:

This change in identification of equipment request applies to the original FCC ID: NS908P25, granted on May 16, 2008. The equipment bearing the modified identification FCC ID: YTGG1XX08P25DRCM is electrically identical to the original equipment. Therefore, the original test results continue to be representative of and applicable to the equipment bearing the changed identification.

Sincerely,

Stephen Marchetti, Chief Engineer
Aeryon Labs Inc.
