### Request of Class II Permissive Change

Gentlemen,

metraTec GmbH (Grantee: YUH) hereby requests a Class II Permissive Change of the following device:

Product type: QR15-HL  
FCC ID: YUH-QR15HL  
IC: 9278A-QR15HL

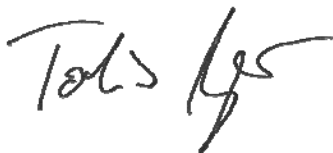

Due to the fact that this RFID Module is not equipped with an own RF shielding, the approval is currently limited to OEM installation only. This C2P adds integration of the modular transmitter into dedicated host devices by 3<sup>rd</sup> parties as documented in this filing.

- Operation of the QR15-HL in the family of photometers DR3900 (LPG 440), DR6000 (LPG 441) as indicated in the filing.

This family of photometers is manufactured and distributed by the Hach Company.

There are no hardware or electrical modifications made to the QR-15HL module itself.

Tobias Meyer

Head of R&D
