**Subject: Antenna Gain Characterization**

The custom antenna that was designed for the SCAN~LINK Armour Antenna Unit, FCC ID: YUU-SLAU270MR, IC ID: 9283A-SLAU270MR was measured to have a gain of 6.15dBi (narrow beam antenna) and 2.90dBi (wide beam antenna). A nominal gain value of 6.15dBi was used as the rated gain value for compliance testing.
